Teaching English language arts at grades K-5 is both a science and an art. Educators must teach literacy skills and content with best practices, while also keeping focus on each student's individual needs. They are challenged to monitor students working independently while also conducting small group instruction. And they must focus on providing differentiated support with a rather complicated text. With increased attention to rigor, requirements, and personalized instruction, it can be a challenge to make sure all students are receiving instruction that is just right. Comprehensive Literacy Basics: An Anthology by Capstone Professional contains useful tips to support educators. Chapters focus on each part of the literacy and language arts block, including whole group, small group, writing, and differentiation. A collection of expert authors specializing in literacy and language arts instruction contributed chapters to the book. The quick tips and suggestions within will reinforce current practices while providing an invaluable go-to reference.

"Small-group instruction becomes a strategic, differentiated tool for Response to Intervention in Dr. Nancy N. Boyle's new resource, *Rethinking Small-group Instruction in the Intermediate Grades*. In this complete and ready-to-go resource, Dr. Boyles answers key questions about transforming small-group instruction to meet RTI objectives: •How can I teach comprehension strategies during small-group instruction? •How do I align high-stakes standards with comprehension objectives? •Where do fluency, vocabulary, and author's craft fit in small-group discussion? •How can I explicitly teach skills and promote meaningful discussions? •How do I effectively include intermediate-grade students who function at a primary level? *Rethinking Small-group Instruction in the Intermediate Grades* provides sixteen options to differentiate small-group instruction. Teachers focus on reinforcing comprehension skills and strategies while explicitly teaching students how to construct basic meaning about both literary and informational texts and master the art of discourse, which leads to higher-level critical and creative thinking. Boyles shows intermediate teachers how to embed the Common Core State Standards into small-group instruction and provides all of the rubrics, checklists, planning templates, and prompts necessary to implement these instructional formats in both the book and the included CD. The useful CD also contains target sheets matched to each objective that explain how to find the best evidence to meet the objective. Let *Rethinking Small-group Instruction* maximize the power of your small-group instruction to differentiate your teaching and efficiently meet RTI goals and national standards at the same time."

Many employers are calling for high school graduates who are equipped with skills to research, manage, and process information from multiple sources and communicate effectively to others through a variety of sources. Yet, students are not being appropriately prepared with online

research and comprehension skills in schools today. A major factor impacting this problem is that teachers do not possess the knowledge and skills to effectively address online research and comprehension skills in the intermediate grades. This dissertation in practice proposes a solution to this problem of practice through the design of an educative curriculum that introduces online research and comprehension skills to upper elementary students. It also provides teachers with necessary knowledge to aid their pedagogical design capacity throughout the curriculum. Prior to the development of the curriculum, a case study was conducted to determine how a fourth-grade teacher integrates digital tools during guided reading lessons to support students' development of online research and comprehension skills. The results showed that the implementation was challenging and resulted in role changes for both the teacher and students. These findings supported the design choices of the base curriculum for students, set within the guided reading framework, and educative features to support teachers.
