MYP 5 (Extended) has been designed and written for the IB Middle Years Program (MYP) Mathematics framework. The textbook covers the Extended content outlined in the framework and includes some extension topics. This book may also be used as a general textbook at about 10th Grade (or Year 10) level in classes where students complete a rigorous course in preparation for the study of mathematics at a high level in their final two years of high school. Students who are preparing for Further Mathematics HL at IB Diploma level are encouraged to complete

Chapters 27 and 28. The textbook and interactive software provide an engaging and structured package, allowing students to explore and develop their confidence in mathematics. Each chapter begins with an Opening Problem, offering an insight into the application of the mathematics that will be studied in the chapter. Important information and key notes are highlighted, while worked examples provide step-by-step instructions with concise and relevant explanations. Discussions, Activities, Investigations, Puzzles, and Research exercises are used throughout the chapters to develop understanding, problem solving, and reasoning, within an interactive environment. The book contains many problems to cater for a range of student abilities and interests, and every effort has been made to
