Gertrude and Claudius are the “villains” of Hamlet: he the killer of Hamlet’s father and usurper of the Danish throne, she his lusty consort, who marries Claudius before her late husband’s body is cold. But in this imaginative “prequel” to the play, John Updike makes a case for the royal couple that Shakespeare only hinted at. Gertrude and Claudius are seen afresh against a background of fond intentions and family

Howard Rheingold has been called

the First Citizen of the Internet. In this book he tours the "virtual community" of online networking. He describes a community that is as real and as much a mixed bag as any physical community—one where people talk, argue, seek information, organize politically, fall in love, and dupe others. At the same time that he tells moving stories about people who have received online emotional support during devastating illnesses, he acknowledges a darker side to people's behavior in cyberspace. Indeed, contends Rheingold, people relate to each other online much the same as they do in physical communities. Originally published in 1993, *The Virtual*
