

Handbook Of Restorative Justice

Criminological research has historically been based on the study of men, boys and crime. As a result, the criminal justice system 's development of policies, programs, and treatment regimes was based on the male offender. It was not until the 1970s that some criminologists began to draw attention to the neglect of gender in the study of crime, but today, the study of gender and crime is burgeoning within criminology and includes a vast literature. The Routledge International Handbook of Crime and Gender Studies is a collection of original, cutting-edge, multidisciplinary essays which provide a thorough overview of the history and development of research on gender and crime, covering topics based around: theoretical and methodological approaches gender and victimization gender and offending gendered work in the criminal justice system future directions in gender and crime research. Alongside these essays are boxes which highlight particularly innovative ideas or controversial topics – such as cybercrime, restorative justice, campus crime, and media depictions. A second set of boxes features leading gender and crime researchers who reflect on what sparked their interest in the subject. This engaging and thoughtful collection will be invaluable for students and scholars of criminology, sociology, psychology, public health, social work, cultural studies, media studies, economics and political science.

In the nearly four decades since the First International Symposium on Victimology convened in Jerusalem in 1973, some concepts and themes have continued to hold a prominent place in the literature, while new ones have also emerged. Exploring enduring topics such as conceptions of victimhood, secondary and hidden victimization, and social services for victims along with more recent issues, the International Handbook of Victimology provides an interdisciplinary study of the topic from a diverse range of professionals on the cutting edge of victimology research. Forty experts from top research facilities and universities around the world provide input on the traditional longstanding issues that surround the field of victimology and explore newer themes such as restorative justice, the use of government-sponsored crime victimization surveys, compensation and restitution schemes, and victims ' rights legislation. The second in a trilogy of volumes, this handbook examines victimology from criminology, sociology, psychology, law, and philosophy perspectives. Topics discussed include: Theoretical and historical frameworks used in the study of victimology Advances in research methods, including GIS technology Patterns of victimization, including drug- sex-, and work-related Responses to victimization by the victim and society Restorative justice issues Victimization as it occurs in various social divisions Describing current research and identifying new ideas and topics of concern, the book collectively presents the “ state-of-the-art ” of the field today. In doing so, it helps to inform contemporary understanding of an eternal societal plague. Those wishing to continue their studies should consult the International Handbook of Criminology and the International Handbook of Penology and Criminal Justice, which complete the trilogy.

The Routledge Handbook on Victims ' Issues in Criminal Justice is a comprehensive and authoritative handbook on current issues, with a distinctive emphasis on the delivery of suitable and effective services. The editor provides an introduction and conclusion to the handbook, synthesizing original contributions from current leaders in the field, surveying victims ' rights in the United States, victim participation in the criminal justice system, victims ' welfare and needs, and most notably the services that have been developed in response. A section on special populations in the United States brings focus to current and emerging issues faced within the country, while a section covering international and transnational victimization explores globalization and the implications of other legal traditions and systems. This handbook addresses the crucial and complex topic of victims ' issues, examining both societal and governmental reactions to victims ' concerns and acquainting readers with the issues that discord may cause, and how they affect the provision of services. This book will serve as an essential reference for academics and practitioners working with crime victims, as well as for students taking courses in victimology, criminology, sociology, and related subjects.

Restorative justice is one of the most talked about developments in the field of crime and justice. Its advocates and practitioners argue that state punishment, society's customary response to crime, neither meets the needs of crime victims nor prevents reoffending. In its place, they suggest, should be restorative justice, in which families and communities of offenders encourage them to take responsibility for the consequences of their actions, express repentance and repair the harm they have done. First published in 2002, Restorative Justice: Ideas, Values, Debates is renowned worldwide as an accessible, balanced and invaluable analysis of the argument that restorative justice can provide an attractive alternative to traditional responses to crime. The second edition includes a new chapter identifying and analyzing fundamental shifts and developments in restorative justice thinking over the last decade. It suggests that the campaign for restorative justice has not only grown rapidly in the last decade, but has also changed in its focus and character. What started as a campaign to revolutionize criminal justice has evolved into a social movement that aspires to implant restorative values into the fabric of everyday life. This new edition explores the implications of this development for restorative justice ' s claim to provide a feasible and desirable alternative to mainstream thinking on matters of crime and justice. This book provides an essential introduction to the most fundamental and distinctive ideas of restorative justice and will appeal to students of criminology, law or related disciplines or researchers and professionals with an interest in crime and justice issues. In addition it extends the debate about the meaning of restorative justice – pros, cons and wider significance – hence it will also be of interest to those already familiar with the topic.

What knowledge and skills do you need to practise effectively as a professional within the youth justice system? What values should inform your work with children and young people subject to criminal justice sanctions? These are the central questions addressed by the editors and contributors in this comprehensive new text. The Youth Justice Handbook provides an essential resource for practitioners in youth justice as well as those who are studying the subject as part of their training or an academic course. Its aim is to equip practitioners in youth justice and the wider children's workforce with an understanding of key theoretical concepts from a range of disciplines that might inform and enhance their work. It encourages a critical interrogation of the ideas that underpin practice by drawing on social constructionist approaches to issues such as 'child development', 'crime' and 'punishment' and related concepts. It provides a descriptive account of current practice in areas such as community corrections and incarceration, examining the evidence base for this and suggesting – where appropriate – alternative strategies. The key objective of the Handbook is to provide students with the confidence to critically reflect on the ideas and debates that currently influence the work undertaken with young people as well as those that may shape practice in the future. By equipping them with the basic skills of analysis and an understanding of key themes and developments, it aims to further promote their progression as reflective practitioners and autonomous learners. The Youth Justice Handbook takes a multidisciplinary approach, and contains chapters from leading experts in the field which draw on original research and practical experience of working in the area. It is divided into five parts: • Contexts of childhood and youth • Research, knowledge and evidence in youth justice • Policy, possibilities and penal realities in youth justice • Reflective practice • Widening contexts

This book brings together a selection of papers originally presented and discussed at the fourth international restorative justice conference, held at the University of Tübingen. The contributors include many of the leading authorities in the burgeoning field of restorative justice, and they provide a comprehensive review of developing international practice and directions, and the context in which restorative justice practices are developing. Restorative Justice in Context moves beyond a focus on restorative justice for juveniles to a broader concern with the application of restorative justice in such areas as corporate crime, family violence and the application of restorative justice in cases of extreme violent crimes. The contexts examined are drawn from Europe, North America, Australasia and Japan. leading world authorities analyse international case studies reflecting the growth of restorative justice worldwiderapidly expanding area of interest

This book explores the use of restorative justice approaches in the context of environmental crimes. It critically assesses regular criminal justice approaches with regard to green crimes and explores restorative justice conferencing as an alternative. Focussing on justice approaches in Australia and New Zealand, it argues that court processes following environmental offending provide minimal to no offender and victim voice, interaction, and input, rendering them invisible. It proposes a third measure of justice - that of meaningful involvement, beyond that of fair procedure and outcome. It suggests the use of restorative justice conferencing, a facilitated dialogue between stakeholders to crime or conflict, as a vehicle to operationalise and achieve justice as meaningful involvement. This book speaks to those interested in green criminology, victimology and environmental law.

The present handbook offers, in a quick reference format, an overview of key considerations in the implementation of participatory responses to crime based on a restorative justice approach. Its focus is on a range of measures and programmes, inspired by restorative justice values, that are flexible in their adaptation to criminal justice systems and that complement them while taking into account varying legal, social and cultural circumstances. It was prepared for the use of criminal justice officials, non-governmental organizations and community groups who are working together to improve current responses to crime and conflict in their community

Sentencing Policies and Practices in the 21st Century focuses on the evolution and consequences of sentencing policies and practices, with sentencing broadly defined to include plea bargaining, judicial and juror decision making, and alternatives to incarceration, including participation in problem-solving courts. This collection of essays and reports of original research explores how sentencing policies and practices, both in the United States and internationally, have evolved, explores important issues raised by guideline and non-guideline sentencing, and provides an overview of recent research on plea bargaining in the United States, Australia, and the United Kingdom. Other topics include the role of criminal history in sentencing, the past and future of capital punishment, strategies for reducing mass incarceration, problem-solving courts, and restorative justice practices. Each chapter summarizes what is known, identifies the gaps in the research, and discusses the theoretical, empirical, and policy implications of the research findings. The volume is grounded in current knowledge about the specific topics, but also presents new material that reflects the thinking of the leading minds in the field and that outlines a research agenda for the future. This is Volume 4 of the American Society of Criminology's Division on Corrections and Sentencing handbook series. Previous volumes focused on risk assessment, disparities in punishment, and the consequences of punishment decisions. The handbooks provide a comprehensive overview of these topics for scholars, students, practitioners, and policymakers.

Restoring Justice: An Introduction to Restorative Justice offers a clear and convincing explanation of restorative justice, a movement within criminal justice with growing worldwide influence. It explores the broad appeal of this new vision and offers a brief history of its development. The book presents a theoretical foundation for the principles and values of restorative justice and develops its four cornerpost ideas of encounter, amends, inclusion and reintegration. After exploring how restorative justice ideas and values may be integrated into policy and practice, it presents a series of key issues commonly raised about restorative justice, summarizing various perspectives on each.

A handbook showing how racial justice and restorative justice can transform the African American experience in America. The Little Book of Race and Restorative Justice will inform scholars and practitioners on the subjects of pervasive racial inequity and the healing offered by restorative justice practices. Addressing the intersectionality of race and the US criminal justice system, social activist Fania E. Davis explores how restorative justice has the capacity to disrupt patterns of mass incarceration through effective, equitable, and transformative approaches. Eager to break the still-pervasive, centuries-long cycles of racial prejudice and trauma in America, Davis unites the racial justice and restorative justice movements, aspiring to increase awareness of deep-seated problems as well as positive action toward change.

Davis highlights real restorative justice initiatives that function from a racial justice perspective; these programs are utilized in schools, justice systems, and communities, intentionally seeking to ameliorate racial disparities and systemic inequities. She looks at initiatives that strive to address the historical harms against African Americans throughout the nation. This entry in the Justice and Peacebuilding series is a much needed and long overdue examination of the issue of race in America as well as a beacon of hope as we learn to work together to repair damage, change perspectives, and strive to do better.

Handbook of Restorative Justice is a collection of original, cutting-edge essays that offer an insightful and critical assessment of the theory, principles and practices of restorative justice around the globe. This much-awaited volume is a response to the cry of students, scholars and practitioners of restorative justice, for a comprehensive resource about a practice that is radically transforming the way the human community responds to loss, trauma and harm. Its diverse essays not only explore the various methods of responding nonviolently to harms-done by persons, groups, global corporations and nation-states, but also examine the dimensions of restorative justice in relation to criminology, victimology, traumatology and feminist studies. In addition. They contain prescriptions for how communities might re-structure their family, school and workplace life according to restorative values. This Handbook is an essential tool for every serious student of criminal, social and restorative justice.

"This book provides students, scholars, and criminologists with a truly a global perspective on the theory and practice of criminology throughout the centuries and around the world. In addition to chapters devoted to the key ideas, thinkers, and moments in the intellectual and philosophical history of criminology, it features in-depth coverage of the organizational structure of criminology as an academic discipline world-wide"--

The Handbook of Asian Criminology aims to be a key reference for international scholars with an interest in the broad theme of international criminology in general, and the Asian region in particular. Contextualization is a key theme in this book. The role of context is often underemphasized in international criminology, so the Handbook of Asian Criminology's premise that crime and the responses to it are best understood as deeply embedded in the cultural specificity of the environment which produces them will play a key role throughout the work. Attention will be given to country- and region specific attitudes towards crime and punishment.

Native Americans are disproportionately represented as offenders in the U.S. criminal justice system. Routledge Handbook on Native American Justice Issues is an authoritative volume that provides an overview of the state of American Indigenous populations and their contact with justice concerns and the criminal justice system. The volume covers the history and origins of Indian Country in America; continuing controversies regarding treaties; unique issues surrounding tribal law enforcement; the operation of tribal courts and corrections, including the influence of Indigenous restorative justice practices; the impact of native religions and customs; youth justice issues, including educational practices and gaps; women's justice issues; and special circumstances surrounding healthcare for Indians, including the role substance abuse plays in contributing to criminal justice problems. Bringing together contributions from leading scholars – many of them Native Americans – that explore key issues fundamental to understanding the relationships between Native peoples and contemporary criminal justice, editor Laurence Armand French draws on more than 40 years of experience with Native American individuals and groups to provide contextual material that incorporates criminology, sociology, anthropology, cultural psychology, and history to give readers a true picture of the wrongs perpetrated against Native Americans and their effects on the current operation of Native American justice. This compilation analyzes the nature of justice for Native Americans, including unique and emerging problems, theoretical issues, and policy implications. It is a valuable resource for all scholars with an interest in Native American culture and in the analysis and rectification of the criminal justice system's disparate impact on people of color.

Peacemaking Circles, often referred to as the "bible" of Circles, lays out the inner and outer dynamics of the peacemaking Circle process. Circles are now being used in schools, families, workplaces, organizations, as well as in the justice system. The use of Circles shifts the focus from blame and punishment to finding out what happened and exploring as a group or community how to put things right.

A fully revised & updated handbook for teachers and administrators on creating just and equitable learning environments for students; building and maintaining healthy relationships; healing harm and transforming conflict. Much more than a response to harm, restorative justice nurtures relational, interconnected school cultures. The wisdom embedded within its principles and practices is being welcomed at a time when exclusionary discipline and zero tolerance policies are recognized as perpetuating student apathy, disproportionality, and the school-to-prison pipeline. Relying on the wisdom of early proponents of restorative justice, the daily experiences of educators, and the authors' extensive experience as classroom teachers and researchers, this Little Book guides the growth of restorative justice in education (RJE) into the future. Incorporating activities, stories, and examples throughout the book, three major interconnected and equally important aspects of restorative justice in education are explained and applied: creating just and equitable learning environments; building and maintaining healthy relationships; healing harm and transforming conflict.

Chapters include: The Way We Do Things A Brief History of Restorative Justice in Education Beliefs and Values in Restorative Justice in Education Creating just and Equitable Learning Environments Nurturing Healthy relationships Repairing Harm and Transforming Conflict A Tale of Two Schools: Thoughts and Sustainability The Little Book of Restorative Justice in Education is a reference that practitioners can turn to repeatedly for clarity and consistency as they implement restorative justice in educational settings.

Although criminal justice systems in developed Western countries are much alike in form, structure, and function, the American system is unique. While it is structurally similar to those of other Western countries, the punishments it imposes are often vastly harsher. No other Western country retains capital punishment or regularly employs life-without-parole, three-strikes, or lengthy mandatory minimum sentencing laws. As a result, the U.S. imprisonment rate of nearly 800 per 100,000 residents dwarfs rates elsewhere. The Oxford Handbook of Crime and Criminal Justice is an essential guide to the development and operation of the American criminal justice system. A leading scholar in the field and an experienced editor, Michael Tonry has brought together a team of first-rate scholars to provide an authoritative and comprehensive overview and introduction to this crucial institution. Expertly organized, the various sections of the Handbook explore the American criminal justice system from a variety of perspectives-including its purposes, functions, problems, and priorities-and present analyses of police and policing, juvenile justice, prosecution and sentencing, and community and institutional corrections, making it a complete and unrivaled portrait of how America approaches crime and criminal justice, and giving persuasive answers as to why and how it has developed to what it is today. Accessibly written for a wide audience, the Handbook serves as a definitive reference for scholars and a broad survey for students in criminology and criminal justice.

This up-to-date resource on restorative justice theory and practice is the literature's most comprehensive and authoritative review of original research in new and contested areas. Bringing together contributors from across a range of jurisdictions, disciplines and legal traditions, this edited collection provides a concise, but critical review of existing theory and practice in restorative justice. Authors identify key developments, theoretical arguments and new empirical evidence, evaluating their merits and demerits, before turning the reader's attention to further concerns informing and improving the future of restorative justice. Divided into four parts, the Handbook includes papers written by leading scholars on new theory, empirical evidence of implementation, critiques and the future of restorative justice. This companion is essential reading for scholars of restorative justice, criminology, social theory, psychology, law, human rights and criminal justice, as well as researchers, policymakers, practitioners and campaigners from around the world.

Engaging Practices for Integrating Restorative Justice Principles in Group Settings As restorative practices spread around the world, scholars and practitioners have begun to ask very important questions: How should restorative practices be taught? What educational structures and methods are in alignment with restorative values and principles? This book introduces games as an effective and dynamic tool to teach restorative justice practices. Grounded in an understanding of restorative pedagogy and experiential learning strategies, the games included in this book provide a way for learners to experience and more deeply understand restorative practices while building relationships and improving skills. Chapters cover topics such as: Introduction to restorative pedagogy and experiential learning How a restorative learning community can be built and strengthened through the use of games and activities How to design games and activities for teaching restorative practices How to design, deliver, and debrief an activity-based learning experience In-depth instructions for games and activities for building relationships, understanding the restorative philosophy, and developing skills in practice An ideal handbook for educators, restorative justice program directors and trainers, consultants, community group leaders, and anyone else whose work draws people together to resolve disagreements or address harm, this book will serve as a catalyst for greater creativity and philosophical alignment in the teaching of restorative practices across contexts.

Annotation. "Restorative justice is a dynamic and innovative way of dealing with conflict in schools, promoting understanding and healing over assigning blame or dispensing punishment. It can improve the quality of school life not only through conflict resolution, but"

Howard Zehr is the father of Restorative Justice and is known worldwide for his pioneering work in transforming understandings of justice. Here he proposes workable principles and practices for making Restorative Justice possible in this revised and updated edition of his bestselling, seminal book on the movement. (The original edition has sold more than 110,000 copies.) Restorative Justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal, while holding criminals accountable for their actions. This is not soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. In *The Little Book of Restorative Justice*, Zehr first explores how restorative justice is different from criminal justice. Then, before letting those appealing observations drift out of reach into theoretical space, Zehr presents Restorative Justice practices. Zehr undertakes a massive and complex subject and puts it in graspable form, without reducing or trivializing it. This resource is also suitable for academic classes and workshops, for conferences and trainings, as well as for the layperson interested in understanding this innovative and influential movement.

This authoritative volume explores different perspectives on economic and social justice and the challenges presented by and within the criminal justice system. It critically discusses key concerns involved in realizing economic and social justice, including social justice, issues related to organizations and social institutions, special issues regarding specific populations, and a review of national and international organizations that promote economic justice. Addressing more than just the ideology and theory underlying justice, the book presents chapters with practical examples and research on how economic and social justice might be achieved within the criminal justice systems of the world. With contributions from leading scholars around the globe, this book is an essential interest in economic and social justice from a wide range of disciplines, including criminal justice and criminology as well as sociology, social work, public policy, and law.

This book provides an empirically grounded, theoretically informed account of recent changes to the youth justice system in England and Wales, focusing on the introduction of elements of restorative justice into the heart of the criminal justice system, and orders and youth offender panels. Taken together, this amounts to the most radical overhaul of the youth justice system in the last half century, fundamentally changing the underlying values of the system away from an 'exclusionary punitive justice' and to 'restorative justice'. The book explores the implications of these changes by using the lens of a detailed study of the implementation of referral orders and youth offender panels to explore wider issues about youth justice policy and the integration of restorative justice upon the findings of an in-depth study of the pilots established prior to the national rollout of referral orders in April 2002. The book will be essential reading not only for those involved in the task of implementing the new youth justice, but others with an interest in the system and in restorative justice who need to know about the far reaching reforms to the youth justice system and their impact.

Restorative Justice Today: Applications of Restorative Interventions takes a hard look at the issues and concepts surrounding restorative justice and current restorative practices used in a broad range of areas today. In a time when the cost of prisons and the number of more offenders being kept out of the community, this timely and contemporary book exposes readers to a range of restorative practices that can be implemented. The authors, renowned experts in the area of restorative justice, provide information not found in other texts.

This second edition of the *Handbook of Victims and Victimology* presents a comprehensively revised and updated set of essays, bringing together internationally recognised scholars and practitioners to offer substantial research informed overviews within the field of victimology. This handbook is divided into five parts, with each part addressing a different theme within victimology: Part I offers a scene-setting exploration of new developments in the field, enduring issues that remain relatively unchanged and the gaps in the contemporary victimological agenda Part II examines of the complex dimensions to victim experiences as structured by gender, age, ethnicity, sexuality and intersectionality Part III reflects on the problems and possibilities of formulating policy responses in light of an appreciation of the nature and extent of victimhood Part IV focused on the value of a comparative lens and the problems and possibilities of victim policies when seen through this lens, explored along three geographical axes: Europe, Australia and Asia Part V reflects on thinking about who counts as a victim and what counts as victimhood and extends the boundaries of the victimological imagination outward Building on the success of the previous edition, this book provides an international focus on cutting-edge issues in victimology. Including brand new chapters on intersectionality, child victims, sexuality, hate crime and crimes of the powerful, this handbook is essential reading for students and academics studying victims and victimology and an essential reference tool for those working in the environment.

Games, Activities, and Simulations for Understanding Restorative Justice Practices

The four most popular restorative justice books in the *Justice & Peacebuilding series*—*The Little Book of Restorative Justice: Revised and Updated*, *The Little Book of Victim Offender Conferencing*, *The Little Book of Family Group Conferences*, and *The Little Book of Circle Processes*—in one affordable volume. And now with a new foreword from Howard Zehr, one of the founders of restorative justice! Restorative justice, with its emphasis on identifying the justice needs of everyone involved in a crime, is a worldwide movement of growing influence that is helping victims and communities heal while holding criminals accountable for their actions. This is not a soft-on-crime, feel-good philosophy, but rather a concrete effort to bring justice and healing to everyone involved in a crime. Circle processes draw from the Native American tradition of gathering in a circle to solve problems as a community. Peacemaking circles are used in neighborhoods, in schools, in the workplace, and in social services to support victims of all kinds, resolve behavior problems, and create positive climates. Each book is written by a scholar at the forefront of these movements, making this important reading for classrooms, community leaders, and anyone involved with conflict resolution.

This handbook invites readers who are interested in mediation, negotiation and conflict resolution to share the perspectives of experts in the field. Contributors include scholars, mediators, trainers and negotiators, all of whom are passionate about their work. Emphasises both internal and external factors as important sources of influence when negotiating conflicts. Explores the cultural and institutional frameworks that have shaped intervention processes. Considers what techniques might work when, how and why. Demonstrates the sophistication of contemporary studies of mediation, negotiation and conflict resolution.

Discusses the key concepts and principles of restorative justice; explains how the campaign for restorative justice arose and developed into an influential social movement; describes the variety of restorative justice practices; and identifies and examines key issues within the restorative justice movement.

Restorative Justice: Theoretical Foundations

This title explores the theoretical foundations of restorative justice. It looks at restorative justice philosophy and the ways in which models have been applied to adults, corporate crime, family violence and to cases of extreme violence.

Restorative justice aims to address the consequences of crime by encouraging victims and offenders to communicate and discuss the harm caused by the crime that has been committed. In the majority of cases, restorative justice is facilitated by direct and indirect dialogue between victims and offenders, but it also includes support networks and sometimes involves professionals such as police, lawyers, social workers or prosecutors and judges. In theory, the victim is a core participant in restorative justice and the restoration of the harm is a first concern. In practice, questions arise as to whether the victim is actively involved in the process, what restoration may entail, whether there is a risk of secondary victimisation and whether the victim is truly at the heart of the restorative response, or whether the offender remains the focal point of attention. Using a combination of victimological literature and empirical data from a European research project, this book considers the role and the position of the victim in restorative justice practices, focusing on legislative, organisational and institutional frameworks of victim-offender mediation and conferencing programmes at a national and local level, as well as the victims' personal needs and experiences. The findings are essential reading for academics and students engaged in the study of justice, victimology and law. The publication will also be valuable to policymakers and professionals such as social workers, lawyers and mediators.

An essential resource that contains a contemporary overview of the concept of social control and its main approaches *The Handbook of Social Control* offers a comprehensive review of the concepts of social control in today's environment and focuses on the most relevant theories associated with social control. With contributions from noted experts in the field across 32 chapters, the depth and scope of the Handbook reflects the theoretical and methodological diversity that exists within the study of social control. Chapters explore various topics including: theoretical perspectives; institutions and organizations; law enforcement; criminal justice agencies; punishment and incarceration; surveillance; and global developments. This Handbook explores a variety of issues and themes on social control as being a central theme of criminological reflection. The text clearly demonstrates the rich heritage of the major relevant perspectives of social control and provides an overview of the most important theories and dimensions of social control today. Clarifies the most salient theoretical and conceptual issues involved with the social-scientific study of social control Considers the various societal organizations and agencies that are involved with the planning and execution of social control mechanisms Includes information on the history of incarceration, the dynamics of prison culture, the problem of mass incarceration, the resistance of abolitionism, and the death penalty Discusses the dynamics of border control and immigration policies Written for academics, undergraduate, and graduate students in the fields of criminology, criminal justice, and sociology, *The Handbook of Social Control* is an indispensable resource that explores a contemporary view of the concept of social control.
