Chapters are ordered in a way that puts at the forefront what young people are thinking about now, with a new generation going into adulthood more likely to be living with family; politically and civically engaged; and using social media as a communication tool or platform. *INTERNATIONAL BESTSELLER "For anyone who wants to understand capitalism not as an economic or politicians have pictured it but as it actually operates, this book will be invaluable."-Observer (UK) If you've wondered how we did not see the economic collapse coming, Ha-Joon Chang knows the answer: We didn't ask what they didn't tell us about capitalism. This is a lighthearted book with a serious purpose: to question the assumptions behind the dogma and sheer hype that the dominant school of neoliberal economists-the apostles of the freemarket-have spun since the Age of Reagan. Chang, the author of the international bestseller Bad Samaritans, is one of the world's most respected economists, a voice of sanity-and wit-in the tradition of John Kenneth Galbraith and Joseph Stiglitz. 23 Things They Don't Tell You About Capitalism equips readers with an understanding of how global capitalism works-and doesn't. In his final chapter, "How to Rebuild the World," Chang offers a vision of how we can shape capitalism to humane ends, instead of becoming slaves of the market.*

In love we find out who we want to be. In war we find out who we are. FRANCE, 1939 In the quiet village of Carrievau, Vianne Mauriac says goodbye to her husband, Antoine, as he heads for the Front. She doesn't believe that the Nazis will invade France...but invade they do, in droves of marching soldiers, in caravans of trucks and tanks, in planes that fill the skies and drop bombs upon the innocent. When a German captain requisitions Vianne's home, she and her daughter must lie low to survive. The enemy or lose everything. Without food or money or hope, as danger escalates all around them, she is forced to make one impossible choice after another to keep her family alive. Vianne's sister, Isabelle, is a rebellious eighteen-year-old girl, searching for purpose with all the reckless passion of youth. While thousands of Parisians march into the unknown terrors of war, she meets Gaetan, a partisan who believes the French can fight the Nazis from within France, and she falls for the only young can...completely. But when he betrays her, Isabelle joins the Resistance and never looks back, risking her life time and again to save others. With courage, grace and powerful insight, bestselling author Kristin Hannah captures the epic panorama of WWII and illuminates an intimate part of history seldom seen: the women's war. The Nightingale tells the stories of two sisters, separated by years and experience, by ideals, passion and circumstance, each embarking on her own dangerous path toward survival, love, and freedom in German-occupied, war-torn France—a heartbreakingly beautiful novel that celebrates the resilience of the human spirit and the durability of women. It is a novel for everyone, a novel for a lifetime.

No is perhaps the most important and certainly the most powerful word in the language. Every day we find ourselves in situations where we need to say No—to people at work, at home, and in our communities—because No is the word we must use to protect ourselves and to stand up for everything and everyone that matters to us. But as we all know, the wrong No can also destroy what we most value by alienating and angering people. That's why saying No the right way is crucial. The secret to saying No without destroying relationships lies in the art of the Positive No, a proven technique that anyone can learn. This indispensable book gives you a simple three-step method for saying a Positive No. It will show you how to assert and defend your key interests; how to make your No firm and strong; how to resist the other side's aggression and manipulation; and how to do all this while still getting to Yes. In the end, the Positive No will help you get not just to any Yes but to the right Yes, the one that truly serves your interests. Based on William Ury's celebrated Harvard University course for managers and professionals, The Power of a Positive No offers concrete advice and practical examples for saying No in virtually any situation. Whether you need to say No to your customer or your coworker, your employee or your spouse, you will find in this book the secret to saying No clearly, respectfully, and effectively. In today's world of high stress and limitless choices, the pressure to give in and say Yes grows greater every day, producing overload and overwork, expanding e-mail and eroding ethics. Never has No been more needed. A Positive No has the power to profoundly transform our lives by enabling us to say Yes to what counts—our own needs, values, and priorities. Understood this way, No is the new Yes. And the Positive No may be the most valuable life skill you'll ever learn!

Thirty years after its publication, The Death and Life of Great American Cities was described by The New York Times as "perhaps the most influential single work in the history of town planning...[It] can also be seen in a much larger context. It is first of all a work of literature; the descriptions of street life as a kind of ballet and the bringly satiric account of traditional planning theory can still be read for pleasure even by those who long ago absorbed and appropriated the book's arguments." Jane Jacobs, an editor and writer on architecture in New York City in the early sixties, argued that urban diversity and vitality were being destroyed by powerful architects and city planners. Rigorous, sane, and delightfully epigrammatic, Jacobs's small masterpiece is a blueprint for the humanistic management of cities. It is sensible, knowledgeable, readable, indispensable. The author has written a new foreword for this Modern Library edition.

A memoir of an interracial gay couple bringing eighty acres back to life in 1960s Southern Mississippi. "This is no ordinary back-to-the-land book" (Sue Hubbell). In 1968, when Don G. Schuelel and Willie Brown bought eighty acres in Mississippi, all they could afford was a piece of "least worst land"—a parcel that had been logged, burned, and ravaged, about twenty-five miles from the Gulf Coast. Moonshiners and poachers tried to scare them off, but the two stuck it out, restoring "The Place," bringing back the flora and fauna, until they had created a handmade wilderness containing every ecosystem found in the region. This is the true story of their amazing journey. "Schuelel and his partner purchased a bruised parcel of rural land, their goal to restore it to an ecologically balanced habitat for indigenous plant species and wildlife. Though his thoroughly engaging chronicle posits the dicey situation of a white man and a black man making a home in rural Mississippi in 1968, Schuelel's account is replete with amusing anecdotes that illuminate a quarter-century of interactions with neighbors vastly different from themselves and the conscientious caretaking efforts they expended. The saga embraces hurricane Camille's destruction of a newly completed section of their house, and the fortitude that led them to build again, and the acquiring of a bevy of animals in the bargain." —Booklist
