*Hangman Puzzles takes the famous two-player game and turns it into a one-player trivia game of deduction. On his run, he finds a dead man hanging from a tree. The book features 100 puzzles split into two sections with varying levels of difficulty. Each game has a category clue and a unique way of solving the puzzle. From simple vocabulary to extended quotes, you'll be guessing to solve a variety of words and phrases. Each puzzle comes with a category and a visual hint to help you solve the puzzle. Scratch off the letter's clue to find what positions in the phrase the letter falls on. If you guess wrong, you add another segment to the poor man's body. Guess wrong five times and you lose. ***Hangman is a simple word guessing game. Players try to figure out an unknown word by guessing letters. If too many letters that do not appear in the word are guessed, the player is hanged. Set up the game by drawing a gallow and a underline for each letter in the unknown word. As letters in the word are guessed, write them above the corresponding underline. If a letter not in the word is guess, draw a picture of a person on the gallow-one part for each incorrect letter guess. Most frequently, the person is drawn in 6 parts (for 6 letter guesses) in the order: head, body, left leg, right leg, left arm, right arm.***
