***Noted music education and arts activist Charles Fowler has inspired music educators for more than 60 years. In this book, editor Craig Resta brings together the most important of Fowler's writings from the journal Musical America for new generations of readers. Here, Fowler speaks to many timeless issues including creativity and culture in the classroom, school funding, reform and policy, assessment and pedagogy, and equality and pluralism in music education. The articles are both research-based and practical, and helpful for many of the most important concerns in school-based advocacy and scholarly inquiry today. Resta offers critical commentary with compelling background to these enduring pieces, placing them in a context that clarifies the benefit of their message to music and arts education. Fowler's words speak to all who have a stake in music education: students, teachers, parents, administrators, performers, community members, business leaders, arts advocates, scholars, professors, and researchers alike. Valuing Music in Education is ideal for everyone who understands the critical role of music in schools and society. (Piano Instruction). From Duke Ellington, to Chick Corea, Bill Evans, Oscar***

The jazz trio of Hank Jones

*(Artist Transcriptions). One of the founding fathers of jazz*

*sax, Coleman Hawkins blazed the trail for future generations of saxophonists. This collection features note-for-note tenor sax transcriptions for 16 highlights from Hawkins' vast repertoire, including: April in Paris \* Body and Soul \* Flyin' Hawk \* Honeysuckle Rose \* The Man I Love \* Mood Indigo \* Picasso \* Riff tide \* Self Portrait (Of the Bean) \* Stuffy \* You'd Be So Nice to Come Home To \* and more. Features a bio and a newly updated discography, complete with notes about the recordings (date, location, players, original issue info, etc.).*

*It's nineteen fifty-something, in a dark, cramped, smoke-filled room. Everyone's wearing black. And on-stage a tenor is blowing his heart out, a searching, jagged saxophone journey played out against a moody, walking bass and the swish of a drummer's brushes. To a great many listeners--from African American aficionados of the period to a whole new group of fans today--this is the very embodiment of jazz. It is also quintessential hard bop. In this, the first thorough study of the subject, jazz expert and enthusiast David H. Rosenthal vividly examines the roots, traditions, explorations and permutations, personalities and recordings of a climactic period*

*in jazz history. Beginning with hard bop's origins as an amalgam of bebop and R&B, Rosenthal narrates the growth of a movement that embraced the heavy beat and bluesy phrasing of such popular artists as Horace Silver and Cannonball Adderley; the stark, astringent, tormented music of saxophonists Jackie McLean and Tina Brooks; the gentler, more lyrical contributions of trumpeter Art Farmer, pianists Hank Jones and Tommy Flanagan, composers Benny Golson and Gigi Gryce; and such consciously experimental and truly one-of-a-kind players and composers as Andrew Hill, Sonny Rollins, John Coltrane, Thelonious Monk, and Charles Mingus. Hard bop welcomed all influences--whether Gospel, the blues, Latin rhythms, or Debussy and Ravel--into its astonishingly creative, hard-swinging orbit. Although its emphasis on expression and downright "badness" over technical virtuosity was unappreciated by critics, hard bop was the music of black neighborhoods and the last jazz movement to attract the most talented young black musicians. Fortunately, records were there to catch it all. The years between 1955 and 1965 are unrivaled in jazz history for the number of milestones on vinyl. Miles Davis's Kind of Blue, Charles Mingus's Mingus Ah Um,*

*Thelonious Monk's Brilliant Corners, Horace Silver's Further Explorations--Rosenthal gives a perceptive cut-by-cut analysis of these and other jazz masterpieces, supplying an essential discography as well. For knowledgeable jazz-lovers and novices alike, Hard Bop is a lively, multi-dimensional, much-needed examination of the artists, the milieus, and above all the sounds of one of America's great musical epochs.*

*Once upon a time Linus Torvalds was a skinny unknown, just another nerdy Helsinki techie who had been fooling around with computers since childhood. Then he wrote a groundbreaking operating system and distributed it via the Internet -- for free. Today Torvalds is an international folk hero. And his creation LINUX is used by over 12 million people as well as by companies such as IBM. Now, in a narrative that zips along with the speed of e-mail, Torvalds gives a history of his renegade software while candidly revealing the quirky mind of a genius. The result is an engrossing portrayal of a man with a revolutionary vision, who challenges our values and may change our world.*

*Jazz from Detroit* explores the city's pivotal role in shaping the course of modern and contemporary jazz. With more than two dozen in-depth profiles of remarkable Detroit-bred musicians, complemented by a generous selection of photographs, Mark Stryker makes Detroit jazz come alive as he draws out significant connections between the players, eras, styles, and Detroit's distinctive history. Stryker's story starts in the 1940s and '50s, when the auto industry created a thriving black working and middle class in Detroit that supported a vibrant nightlife, and exceptional public school music programs and mentors in the community like pianist Barry Harris transformed the city into a jazz juggernaut. This golden age nurtured many legendary musicians—Hank, Thad, and Elvin Jones, Gerald Wilson, Milt Jackson, Yusef Lateef, Donald Byrd, Tommy Flanagan, Kenny Burrell, Ron Carter, Joe Henderson, and others. As the city's fortunes change, Stryker turns his spotlight toward often overlooked but prescient musician-run cooperatives and self-determination groups of the 1960s and '70s, such

*as the Strata Corporation and Tribe. In more recent decades, the city's culture of mentorship, embodied by trumpeter and teacher Marcus Belgrave, ensured that Detroit continued to incubate world-class talent; Belgrave protégés like Geri Allen, Kenny Garrett, Robert Hurst, Regina Carter, Gerald Cleaver, and Karriem Riggins helped define contemporary jazz. The resilience of Detroit's jazz tradition provides a powerful symbol of the city's lasting cultural influence. Stryker's 21 years as an arts reporter and critic at the Detroit Free Press are evident in his vivid storytelling and insightful criticism. Jazz from Detroit will appeal to jazz aficionados, casual fans, and anyone interested in the vibrant and complex history of cultural life in Detroit.*

The well-respected New Yorker jazz writer shares his lifetime passion for this great American music form, including his observations of Duke Ellington, Mahalia Jackson, and Charles Mingus, among many others. Reprint. The familiar history of jazz music in the United States begins with its birth in New Orleans, moves upstream along the Mississippi River to Chicago, then by rail into New York before exploding across the globe. That telling of history,

however, overlooks the pivotal role the nation's capital has played for jazz for a century. Some of the most important clubs in the jazz world have opened and closed their doors in Washington, DC, some of its greatest players and promoters were born there and continue to reside in the area, and some of the institutions so critical to national support of this uniquely American form of music, including Congress, the Smithsonian Institution, the Kennedy Center, the Library of Congress and the Historical Society of Washington, D.C., are rooted in the city. Closer to the ground, a network of local schools like the Duke Ellington High School for the Performing Arts, jazz programs at the University of the District of Columbia and Howard University, churches, informal associations, locally focused media, and clubs keeps the music alive to this day. Noted historians Maurice Jackson and Blair Ruble, editors of this book, present a collection of original and fascinating stories about the DC jazz scene throughout its history, including a portrait of the cultural hotbed of Seventh and U

Streets, the role of jazz in desegregating the city, a portrait of the great Edward "Duke" Ellington's time in DC, notable women in DC jazz, and the seminal contributions of the University of District of Columbia and Howard University to the scene. The book also includes three jazz poems by celebrated Washington, DC, poet E. Ethelbert Miller. Collectively, these stories and poems underscore the deep connection between creativity and place. A copublishing initiative with the Historical Society of Washington, DC, the book includes over thirty museum-quality photographs and a guide to resources for learning more about DC jazz.

Jazz is a music born in the United States and formed by a combination of influences. In its infancy, jazz was a melting pot of military brass bands, work songs and field hollers of the United States slaves during the 19th century, European harmonies and forms, and the rhythms of Africa and the Caribbean. Later, the blues and the influence of Spanish and French Creoles with European classical training nudged jazz further along in its development. As it moved through the swing era of the 1930s, bebop of the 1940s, and cool jazz of the 1950s, jazz

continued to serve as a reflection of societal changes. During the turbulent 1960s, freedom and unrest were expressed through Free Jazz and the Avant Garde. Popular and world music have been incorporated and continue to expand the impact and reach of jazz. Today, jazz is truly an international art form. This second edition of Historical Dictionary of Jazz contains a chronology, an introduction, and an extensive bibliography. The dictionary section has over 1,500 cross-referenced entries on musicians, styles of jazz, instruments, recording labels, bands and bandleaders, and more. This book is an excellent resource for students, researchers, and anyone wanting to know more about Jazz.

Presents a history of bebop from its roots in the late 1930s; describes the musicians, bands, and composers who contributed to this style of jazz; and evaluates key bebop recordings.
