*Offering comprehensive coverage of classical music, this guide surveys more than eleven thousand albums and presents biographies of five hundred composers and eight hundred performers, as well as twenty-three essays on forms, eras, and genres of classical music. Original.*

*This carefully graded, pedagogical performance edition contains 12 outstanding classical sonatas by Haydn, Mozart and Beethoven. Each sonata appears in its original form and comes complete with performance notes and clearly presented editorial markings.*

*Integrating Schenkerian tools and an innovative approach to harmony, David Damschroder provides numerous penetrating analyses of works by Haydn and Mozart. A series of introductory chapters assist readers in developing their analytical capacity. Beginning with short excerpts from string quartets, the study proceeds by assessing the inner workings of twelve expositions from Haydn piano sonatas, six arias in G minor from Mozart operas, and three rondos in D major from piano concertos by Haydn and Mozart. In the*

***Masterworks section that follows, Damschroder presents detailed analyses of six movements from symphonies, string quartets and opera by Haydn and Mozart, and compares his outcomes with those of other analysts, including Kofi Agawu, Robert O. Gjerdingen, James Hepokoski and Warren Darcy, Carl Schachter and James Webster. The book represents an important contribution to modern analytical discourse on a treasured body of music and an assessment of recent accomplishments within that realm.***

*Fundamentals of Musical Composition represents the culmination of more than forty years in Schoenberg's life devoted to the teaching of musical principles to students and composers in Europe and America. For his classes he developed a manner of presentation in which 'every technical matter is discussed in a very fundamental way, so that at the same time it is both simple and thorough'. This book can be used for analysis as well as for composition. On the one hand, it has the practical objective of introducing students to the process of composing in a systematic way, from the smallest to the largest forms; on the other hand, the author analyses in thorough detail and with numerous illustrations those particular sections in the works of the masters which relate to the compositional problem under discussion.*

By the 1840s Joseph Haydn, who died in 1809 as the most celebrated composer of his generation, had degenerated into the bewigged "Papa Haydn," a shallow placeholder in music history who merely invented the forms used by Beethoven. In a remarkable reversal, Haydn swiftly regained his former stature within the opening decades of the twentieth century. *Reviving Haydn: New Appreciations in the Twentieth Century* examines both the decline and the subsequent resurgence of Haydn's reputation in an effort to better understand the forces that shape critical reception on a broad scale. No single person or event marked the turning point for Haydn's reputation. Instead a broad resurgence reshaped opinion in Europe and the United States in short order. The Haydn revival engaged many of the music world's leading figures -- composers (Vincent d'Indy and Arnold Schoenberg), conductors (Arturo Toscanini), performers (Wanda

Landowska), critics (Lawrence Gilman), and scholars (Heinrich Schenker and Donald Tovey) -- each of whom valued Haydn's music for specific reasons and used it to advance particular goals. Yet each advocated for a rehearing and rereading of the composer's works, calling for a new appreciation of Haydn's music. Bryan Proksch is Assistant Professor of Music History at Lamar University.

SchenkerGUIDE is an accessible overview of Heinrich Schenker's complex but fascinating approach to the analysis of tonal music. The book has emerged out of the widely used website, [www.SchenkerGUIDE.com](http://www.SchenkerGUIDE.com), which has been offering straightforward explanations of Schenkerian analysis to undergraduate students since 2001. Divided into four parts, SchenkerGUIDE offers a step-by-step method to tackling this often difficult system of analysis. Part I is an introduction to Schenkerian analysis, outlining the concepts that are involved in analysis Part II outlines a unique and detailed working method to help students to get started on the process

analysis Part III puts some of these ideas into practice exploring the basics of a Schenkerian approach to form register, motives and dramatic structure Part IV provides a series of exercises from the simple to the more sophisticated, along with hints and tips for their completion.

A collection of all eight sonatas for Violin and Piano by Haydn. Both parts are included. Kalmus Editions are primarily reprints of Urtext Editions, reasonably priced and readily available. They are a must for students, teachers, and performers.

The keyboard music of such composers as Haydn, Mozart and Beethoven is among the most popular ever written yet surprisingly little is known about the instruments for which it was composed. This book fills that gap. Based on new evidence from surviving instruments and many contemporary newspaper advertisements, it traces the history and development of Viennese harpsichords, clavichords, and pianos in the eighteenth century, and their use by composers and performers of the time.

"The focus of this book is limited to the performance of late-eighteenth-century keyboard music"--Page xii.

These three volumes, in practical urtext-pedagogical editions, are designed with the idea that these precious works will be performed on the modern piano. With respect to the original text, Dr. Hinson offers many valuable, stylistically faithful suggestions for interpretation. Volume I is appropriate for progressing intermediate students, and provides a most effective introduction to the great Viennese Classical style. The comb binding creates a lay-flat book that is perfect for study and performance.

This detailed look at 14 sonatas casts new light on some of the most masterful pieces written for the piano and on their famous composers. Each composer's style and the intangible qualities that differentiate Haydn from Mozart, Beethoven from Schubert, and Liszt from Brahms are discussed. Such works as Haydn's Piano Sonata in C Minor, Mozart's Piano Sonata in C Major, Beethoven's Piano Sonata in E Major, Schubert's Piano Sonata in A Minor, and Brahms's Piano Sonata in F Minor are featured.

This definitive study of the life and works of Joseph Haydn represents half a century of research. As curator of the Gesellschaft der Musikfreunde in Vienna, Dr. Geiringer was in charge of one of the world's leading Haydn collections. His scholarly investigations took him to various monasteries, to libraries in Eisenstadt, Prague, Berlin, Paris, London, and Washington, D.C., and, as guest of the Hungarian government, to the previously almost inaccessible archives of the Princes of Esterhazy in Budapest.
