How many times can you cheat death on your path to enlightenment? Meet Ralph "Corky" Matson, a modern-day urban shaman who consistently beats the odds. In this captivating memoir, Matson leads us through Woodstock, down drug alleys, over mountain ashrams and around gamblers on a never-ending quest for higher consciousness as he struggles with his inner demons--and angels. Born to a devoted mother who struggled to protect him from the unjustified hatred of a tyrannical father, Matson grew up in poverty with a negative self-image that haunted him even as he associated with remarkable people such as Ram Dass, Timothy Leary, Rammurti S. Mishra, Swami Rama, Elias DeMohan and Patricia Cota Robles. His many brushes with death, including accidents, tumors, overdoses and heart failure only confirmed his spiritual beliefs and demonstrated the miraculous power of healing. Journey with him as he not only overcomes the hardships of an uncertain early life, but grieves the loss of two wives to illness and forgives the father who tormented him. There is a tangible love felt in these pages, for every character we encounter. Even in his depictions of heartbreak or cruelty, Matson

generously renders a world--and a philosophy--of devotion, kindness, and perseverance that is the underlying thread of his life story. Edgy, yet inspirational, Prodigious Son: A Memoir of Miracles offers hope and spiritual awakening in the middle of despair.

#1 SAN FRANCISCO CHRONICLE BESTSELLER • NAMED ONE OF THE BEST BOOKS OF THE YEAR BY THE CHICAGO TRIBUNE “A picaresque, swashbuckling adventure.”—The Washington Post Book World They’re an odd pair, to be sure: pale, rail-thin, black-clad Zelikman, a moody, itinerant physician fond of jaunty headgear, and ex-soldier Amram, a gray-haired giant of a man as quick with a razor-tongued witticism as with a sharpened battle-ax. Brothers under the skin, comrades in arms, they make their rootless way through the Caucasus Mountains, circa a.d. 950, living as they please and surviving however they can—as blades and thieves for hire and as practiced bambooizers, cheerfully separating the gullible from their money. But when they are dragooned into service as escorts and defenders to a prince of the Khazar Empire, they soon find themselves the half-willing generals in a full-scale revolution—on a road paved with warriors and whores, evil emperors and extraordinary elephants, secrets, swordplay, and such stuff as the grandest adventures are made of. Praise for Gentlemen of the Road “Within a few pages I was happily tangled in [Chabon’s] net of finely filigreed language, seduced by an old-school-style swashbuckling quest . . . laced with surprises and humor.”—San Francisco Chronicle “[Chabon] is probably the premiere prose stylist—the Updike—of his generation.”—Time “The action is intricate and exuberant. . . . It’s hard to resist its gathering momentum, not to mention the sheer headlong pleasure of Chabon’s language.”—The New York Times Book Review “[A] wild, wild adventure . . . abounds with lush language . . . This book roars to be read aloud.”—Chicago Sun-Times

Park asserts that one cannot grasp the full meaning of the sin and guilt of sinners until one has looked at the Korean concept of han--the relational consequence of sin--and shame of their victims. To reconcile with God and with other humans, one's sin must be repented, guilt must be forgiven, the han of those who have been wronged must be healed, and the shame which results from that wrong must be erased.

Nat Paradis is a Red Sox-loving part-time dad who manages Paradis' Last Convenient Store, the last convenient place to get gas—or anything—before the Canadian border to the north and the North Maine Woods to the west. When an old flame returns to town, Nat gets a chance to rekindle a romance he gave up on years ago. But sparks fly as he's forced to choose between new love and old. LAST GAS takes a hilarious and heartbreakingly hard look at love lost and found, and at what it means to "get back to happy."

How and why did St. Ignatius Loyola develop the Examen prayer? What is it supposed to accomplish for those who practice it? Why do people choose to forgo this discipline that has proved to be invaluable and essential to spiritual growth and the discernment of spirits over the centuries? What are the contemporary cultural crises confronting today's would-be Examen practitioners provoking distrust, fear, or dismissive attitudes towards it? How can an Examen faithful to Ignatius original method be modernized to address the mindset of today's Christians? This book in its three parts takes a new approach to answer these questions. It provides a new analysis on how Ignatius' spiritual Examen disciplines were developed, the challenges inherent in practicing them, and a dynamic new reading of the Examen called Sacred Story. This book will give you the spiritual tools you need for a practical, daily prayer discipline that incorporates principles of spiritual discernment.

Beliefs in witchcraft and demons still shape many societies and seem to be increasing rather than disappearing with modernization and urbanization. Witch hunts in Africa and Asia show the scope of the problem. The deliverance practices of Pentecostal and charismatic churches are widely controversial and their effects rather ambiguous. The contributions in this volume, written by experts and practitioners from four continents, analyze these phenomena from the perspectives of intercultural theology, anthropology and ethnology and describe the responses of Catholic and Protestant churches. Claudia Wahrisch-Oblau is a missiologist and heads the Evangelism Department of the United Evangelical Mission, Wuppertal, Germany. Henning Wrogemann is Professor for Missiology and Comparative Religion at the Protestant University Wuppertal/Bethel, Germany.

Encompassing a wide range of topics--from the timely (health care and business ethics) to the traditional (atonement, suffering and the kingdom of God)—this work features an easy-to-use reference system and eighteen articles that introduce readers to key themes in moral, pastoral and practical theology. Edited by David J. Atkinson and David F. Field with consulting editors Arthur Holmes and Oliver O'Donovan.

A Tale of Adventure

Gentlemen of the Road

Remember the view from atop a tree? You could survey the landscape like a monarch, escape your parents' watchful eye, and let your imagination run wild. Well, just because you've grown up, it doesn't mean you can't enjoy the sense of liberation a tree provides. Here is the most comprehensive guide ever to building your own castle in the air, be it a simple child's playhouse or an adult's cozy retreat with all the modern conveniences, including electricity. Peter Nelson, the nation's foremost authority on treehouses, tells you everything you need to know about designing and building the house that's right for you and your family. He gives you information on site selection (why some trees provide better homes than others), safety issues, tree care, advice on styles and materials, and other essential rules of thumb that will save time and money. Nelson walks you through the construction of four actual projects: a children's playhouse, a vacation home, an office, and a full-time residence. Whether you'd like to build your children a safe and fun place to play and dream, or you're contemplating your own retreat from the drudgeries of earthbound living, this practical, wildly fanciful guide will show you how to make your tree fantasies come true.

In The Amazing Adventures of Kavalier and Clay, prose magician Michael Chabon conjured the golden age of comic books, interwining history, legend and story-telling verve. In The Final Solution, he has condensed his boundless vision to create a short, suspenseful tale of compassion and wit that re-imagines the classic 19th-century detective story. In deep retirement in the English countryside, an 89-year old man, vaguely recollectd by the locals as a once-famous detective, is more concerned with his bookkeeping than his fellow man. Into his life wanders Linus Steinman, nine years old and mute, who has escaped from Nazi Germany with his sole companion: an African grey parrot. What is the meaning of the mysterious strings of German numbers the bird spews out—a top-secret SS code? The keys to a series of Swiss bank accounts? Or do they hold a significance at once more prosaic and far more sinister? Though the solution to this last case may be beyond even the reach of the once famed sleuth, the true story of the boy and his parrot is subtly revealed to the reader in a wrenching resolution to this brilliant homage. The Final Solution is a work from a master story-teller at the height of his powers.

"There is no doubt that the book is one of the most original and valuable contributions to the study of Teutonic Mythology that have appeared since the great work of Grimm."- Atheneum Viktor Rydberg (1828-1895) was an author, journalist, distinguished scholar and controversial religious dissenter. A most important Swedish writer who for many years was a significant influence on Swedish national culture, he was elected to the Swedish Academy in 1877. From 1884 - 1895 he was professor of cultural history at Stockholms Hoegskola.

Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

Nat Turner's name rings through American history with a force all its own. Leader of the most important slave rebellion on these shores, variously viewed as a murderer of unarmed women and children, an inspired religious leader, a fanatic—this puzzling figure represents all the terrible complexities of American slavery. And yet we do not know what he looked like, where he is buried, or even whether Nat Turner was his real name. In Nat Turner: A Slave Rebellion in History and Memory, Kenneth S. Greenberg gathers twelve distinguished scholars to offer provocative new insight into the man, his rebellion, and his time, and his place in history. The historians here explore Turner's slave community, discussing the support for his uprising as well as the religious and literary context of his movement. They examine the place of women in his insurrection, and its far-reaching consequences (including an extraordinary 1832 Virginia debate about ridding the state of slavery). Here are discussions of Turner's religious visions—the instructions he received from God to kill all of his white oppressors. Louis Masur places him against the backdrop of the nation's sectional crisis, and Douglas Egerton puts his revolt in the context of rebellions across the Americas. We trace Turner's passage through American memory through fascinating interviews with William Styron on his landmark novel, The Confessions of Nat Turner, and with Dr. Alvin Poussaint, one of the "ten black writers" of the 1960s who bitterly attacked Styron's vision of Turner. Finally, we follow Nat Turner into the world of Hollywood. Nat Turner has always been controversial, an emblem of the searing wound of slavery in American life. This book offers a clear-eyed look at one of the best known and least understood figures in our history.
