poignant and straightforward presentation of sickness and healing, righteousness opposing wrong doing, and the eventual triumph of the human spirit despite overwhelming obstacles and barriers. This very personal account of war and its aftermath was written to benefit combat veterans agonized by severe and chronic Post Traumatic Stress Disorder (PTSD), composed by one who is living the nightmare, one of their own, a fellow warrior. In the broader scope, this account is meant to help them, and their friends and loved ones to better understand this overwhelming psychological, involuntary, and innate response to continual, life threatening situations. This book will bring them to the realization that they are not alone in their sufferings, help is as close as the nearest Veterans Administration Medical Center and any caring individual who has read and benefited from the pages of this presentation. Furthermore, it is meant to assist, comfort, understand and equally as important, accept those who gave their best to defend and protect us. It's not only the GI I am talking about but also the police officer, the fireman, and the rescue personnel... all those who are "damned if they do and damned if they don't!" All the brave men and women who place their lives in jeopardy, everyday, for the sake of others... for the sake of something bigger than self! This presentation addresses every symptom, obstacle or negative circumstance a PTSD victim will likely experience or encounter, and must overcome, if he or she expects some semblance of peace, love, success, respect, and dignity in their lives! Victims of terror and natural disasters will benefit from this writing as well. In my opinion there is little, if any, significant difference between combat PTSD and PTSD manifested as a result of traumatic events that occur in the "civilian" world. This work is not an ordinary, run of the mill "shoot 'em up" military memoir! PTSD negatively impacts every interpersonal relationship! This book clearly and frankly relates, in vivid detail, how PTSD affects victims in the work place and social settings. In today's fast paced, very competitive, high stress work-a-day world virtually every victim's well being, employment and/or career is at risk. There are no immunities or safe harbors! This account addresses those many complex issues and more! All who read this narrative will profit from its message! Spouses, grown children, friends, relatives, employers,

supervisors, human resource managers, co-workers and the general public will benefit from first hand knowledge and look with newfound compassion and understanding on those who defend(ed) their life, limbs and freedoms on a daily basis. The future isn't about where we will work, but how. For years we have struggled to balance work and life, with most of us feeling overwhelmed and burned out because our relationship to work is broken. This "isn't just a book about remote work. It's a book that helps us imagine a future where our lives—at the office and home—are happier, more productive, and genuinely meaningful" (Charles Duhigg, best-selling author of *The Power of Habit*). *Out of Office* is a book for every office worker – from employees to managers – currently facing the decision about whether, and how, to return to the office. The past two years have shown us that there may be a new path forward, one that doesn't involve hellish daily commutes and the demands of jam-packed work schedules that no longer make sense. But how can we realize that future in a way that benefits workers and companies alike? Based on groundbreaking reporting and interviews with workers and managers around the world, *Out of Office* illuminates the key values and questions that should be driving this conversation: trust, fairness, flexibility, inclusive workplaces, equity, and work-life balance. Above all, they argue that companies need to listen to their employees – and that this will promote, rather than impede, productivity and profitability. As a society, we have talked for decades about flexible work arrangements; this book makes clear that we are at an inflection point where this is actually possible for many employees and their companies. *Out of Office* is about so much more than zoom meetings and hybrid schedules: it aims to reshape our entire relationship to the office.

A contemporary follow-up to the groundbreaking *Power of Maps*, this

book takes a fresh look at what maps do, whose interests they serve, and how they can be used in surprising, creative, and radical ways. Denis Wood describes how cartography facilitated the rise of the modern state and how maps continue to embody and project the interests of their creators. He demystifies the hidden assumptions of map making and explores the promises and limitations of diverse counter-mapping practices today. Thought-provoking illustrations include U.S. Geological Survey maps; electoral and transportation maps; and numerous examples of critical cartography, participatory GIS, and map art. The book will be important reading for geographers and others interested in maps and their political uses. It will also serve as a supplemental text in advanced undergraduate- and graduate-level courses such as Cartography, GIS, Geographic Thought, and History of Geography.

For more than twenty years, life coach and Steubenville speaker Paul George has helped fellow Catholics discover their purpose by searching themselves, reorganizing their priorities, and establishing a personal relationship with Jesus Christ. In his debut book, George invites you to pursue authentic happiness by surrendering your life to God and focusing on simple joys: daily prayer, a minimalist lifestyle, meaningful relationships, and an ongoing pursuit of God's will. Rethink Happiness is an essential self-help guide for all of us seeking to define our purpose in life. Chock-full of relatable stories about George and his life-long work in ministry, this book will help you discover that true happiness is found when we are totally oriented to God. With the same high energy he brings to his talks to youth and adult audiences, George will help you identify what you're truly looking for in life. The book opens with the idea that we are all searching for happiness but looking in the wrong places. We're hungry for God's love, but we're stuffing ourselves with shallow relationships and unchecked materialism. George invites you to rethink this formula, by first recognizing that it's God you want and then surrendering everything to him. Embedded in Catholic wisdom, truth, and the basic tenants of living a meaningful life, this book will teach you to reconsider your priorities in light of God's love; rethink how you spend your time and money; focus on building meaningful and healthy relationships; reject the dizzying pursuit of fame and prestige; seek self-worth in relationship with God; and serve God in the simplest way: by loving others. Rethink Happiness dares you to live differently. Satisfy your appetite for happiness once and for all by rooting yourself in God and opening to the joy only he can offer.

Where does anxiety come from? Where do bad behaviors start? Why does fear take over? We might say these things come from our jobs, financial circumstances, or challenging people. All these things can be stressful, but they are not the cause of stress, anxiety, and fear. So, what is? Our thoughts are the cause. When we encounter a situation, our initial thought drives everything. That thought leads to an emotion. The emotion leads to a behavior or action. The behavior or action affects relationships. Then we have the result. The result stems from that first thought. Attempting to change your behavior would be impossible without changing your thoughts. You might change for a week or two, but if you don't change your thought processes, that behavior will come back. In my years as a therapist, I have walked many people through this transformational process into real life-change. Romans 12:2 says, "Do not conform to the pattern of this world, but be transformed by the renewing of your mind." ReFocus focuses on replacing harmful mindsets that promote negative emotions like depression, anxiety, fear, and self-loathing with God's truth. Toxic mindsets fuel negative emotions and produce destructive behaviors. We cannot be truly free of toxicity until we transform our thinking.

This book offers a multitude of provocative new perspectives on one of the most iconic composers in the Western classical tradition. Its collective rethinking of some of our most cherished narratives and deeply held beliefs about Johann Sebastian Bach will allow readers to see the man in a new light and to hear his music with new ears. The difference between going into the ministry at the age of 20 or 30, rather than at 50, might simply be that someone asked sooner rather than later, 'Have you thought about being ordained?' Especially when we are young, it is easy to feel that we might be inadequate for the job, but the Bible is encouragingly littered with stories of individuals who didn't feel up to what God called them to be! Hearing the Call stresses that our very humanness, our sense of inadequacy, can be a gift in ministry and allow God's grace to flow. Gordon Mursell's wise reflections on several relevant biblical passages wonderfully complement Jonathan Lawson's vivid recounting of his wide experience with young vocations. He illustrates this with real-life stories from young people he has counseled and encouraged.

In a culture obsessed with happiness, this wise, stirring book points the way toward a richer, more satisfying life. Too many of us believe that the search for meaning is an esoteric pursuit—that you have to travel to a distant monastery or page through dusty volumes to discover life's secrets. The truth is, there are untapped sources of meaning all around us—right here, right now. To explore how we can craft lives of meaning, Emily Esfahani Smith synthesizes a kaleidoscopic array of sources—from psychologists, sociologists, philosophers, and neuroscientists to figures in literature and history such as George Eliot, Viktor Frankl, Aristotle, and the Buddha. Drawing on this research, Smith shows us how cultivating connections to others, identifying and working toward a purpose, telling stories about our place in the world, and seeking out mystery can immeasurably deepen our lives. To bring what she calls the four pillars of meaning to life, Smith visits a tight-knit fishing village in the Chesapeake Bay, stargazes in West Texas, attends a dinner where young people gather to share their experiences of profound loss, and more. She also introduces us to compelling seekers of meaning—from the drug kingpin who finds his purpose in helping people get fit to the artist who draws on her Hindu upbringing to create arresting photographs. And she explores how we might begin to build a culture that leaves space for introspection and awe, cultivates a sense of community, and imbues our lives with meaning. Inspiring and story-driven, *The Power of Meaning* will strike a profound chord in anyone seeking a life that matters.

Every day we witness the impact of poverty, injustice, disaster, and disease. Our desire as followers of Christ is to respond with compassion, love, and grace. In recent years, the church has responded in an unprecedented way to the needs in the world. Still, we see little in the way of true progress and transformation. In addition, despite our good intentions, we may be doing more harm than good. Speaking from his experience as a mission mobilizer, John

Bailey shares real-life stories from the journey. Stories of success and failure reveal that a better way is not only possible, but it is within reach. *Journey to a Better Way* seeks to investigate some of the core reasons why we do not have the impact we hope to have when we face these social, physical, and spiritual ills. Looking through the lens of the Wesleyan mission heritage, *Journey to a Better Way* explores correct motives, healthy mission models, and unity in the body of Christ as critical areas to consider if we hope to perform better missions.

This volume examines how *Saving Our Lives Hear Our Truths*, or SOLHOT, a radical youth intervention, provides a space for the creative performance and expression of Black girlhood and how this creativity informs other realizations about Black girlhood and womanhood. Founded in 2006 and co-organized by the author, SOLHOT is an intergenerational collective organizing effort that celebrates and recognizes Black girls as producers of culture and knowledge. Girls discuss diverse expressions of Black girlhood, critique the issues that are important to them, and create art that keeps their lived experiences at its center. Drawing directly from her experiences in SOLHOT, Ruth Nicole Brown argues that when Black girls reflect on their own lives, they articulate radically unique ideas about their lived experiences. She documents the creative potential of Black girls and women who are working together to advance original theories, practices, and performances that affirm complexity, interrogate power, and produce humanizing representation of Black girls' lives. Emotionally and intellectually powerful, this book expands on the work of Black feminists and feminists of color and breaks intriguing new ground in Black feminist thought and methodology.

Follow your heart. You do you. You are enough. We take these slogans for granted, but what if this path to personal happiness leads to a dead-end? In Rethink Your Self, Trevin Wax encourages you to rethink some of our society's most common assumptions about identity and the road to happiness. Most people define their identity and purpose by first looking in (to their desires), then looking around (to express their uniqueness), and finally—maybe—looking up (to add a spiritual dimension to life). Rethink Your Self proposes a counter-intuitive approach: looking up before looking in. It's only when we look up to learn who we were created to be that we discover our true purpose and become our truest selves.

Youth ministry succeeds because it directly reflects Jesus Christ's approach. It's not overvalued today; it's undervalued. The hard work required for its success has been misunderstood and misrepresented. The first part of the book establishes that case and analyzes the pros and cons of current, varying philosophies and approaches, merging their best aspects into the holistic approach demonstrated by Christ. Part 2 introduces Attachment Relationship Ministry (ARM), a lens distinguishing four primary adolescent relational styles depending on how secure or insecure teens are with God and parents. Part 3 encourages strategic relational ministry sensitive to those styles, explaining why youth leader efforts succeed or fail. Chapters offer realistic discipleship and evangelism suggestions depending on attachment styles and practically empowering youth workers (volunteers, newbies, experts, and interns) to focus energy and time more wisely. These recommendations relate to spiritual formation, leadership selection, parental approach, and trending issues, such as ministry to LGBTQIA teens. For too many teens today, feeling insecure in crisis is a way of life. Learn how to take what you've done well and make it better. All church leaders should read this book, logging the critical importance of providing ministry specifically targeting teenagers today.

are six years old? No wonder it's so hard to change! Even when we're committed to making a change in life, it's always an uphill battle. But there is a secret to lasting change that God gave us long before modern neuroscience and self-help gurus were the norm. **Rethink How You Think** is for anyone who has been frustrated by an inability to change habits, overcome fears, or keep up new healthy patterns of living and thinking. Dr. David Stoop shows readers that the true way to lasting change is in the renewing of our minds, which we accomplish when we faithfully read God's Word and meditate on it daily. He clearly shows how to move from fear to love, from resentment to gratitude, from lust to purity, from loneliness to connection, from idolatry to contentment, and from mistrust to trust. Anyone eager to find change that lasts will welcome this practical and encouraging message.

In a culture saturated with fast-paced living and modern technology, this book addresses the neglected practice of meeting with God the creator amongst creation. It is an encouragement to rediscover creation and through it hear God calling you to a new and adventurous life.

An unidentified virus is decimating the world. A highly ranked government scientist who had previously warned against such a potential peril is quick to recognize its virulence and the devastation it could cause. He convinces the president of the US to isolate all units of the Navy currently at sea and urgently transfer equipment and scientists to these vessels to commence development of a cure. The world is rapidly succumbing to the pandemic except for one city, the most isolated capital city in the world, where early advice enabled the government to close down all transport links (rail, road, air and sea). This effectively quarantined the population, though not without some necessary harsh actions. Aware that this city could not maintain its uninfected status without armed forces assistance, the US navy ships are ordered there immediately and placed under command of its government. This decision benefits the US fleet as they could not remain at sea for the duration required to develop a cure, so this secure land base was vital if mankind was to have a future. Quick responses from the UK and France allowed some of their ships to set sail before they too were decimated. Although there are problems with their vessels they too join the US ships and place themselves under command of the local government. The search for a cure is not the only priority, as many isolated communities around the world have made contact with the city seeking urgent assistance. Helping these people was of vital importance if mankind was to be saved. But anarchy reigned where survivors with a natural immunity to the virus had reverted to a dark ages mentality at an alarmingly rapid rate; gangs roamed the streets, taking what they wanted and raiding communities that had managed to isolate themselves from the plague. Realising that when and if a cure is found, this city will be the most powerful force left in the world, the politics of the future must be decided... Meanwhile, at city offices, the Premier of the state is desperately organizing an

authority that supersedes all previous levels of government to overcome the bureaucratic quagmire that has arisen. Actions must be rapidly approved and carried out in this time of crisis, so to that end, and based mainly on a strong sense of perception, he appoints an unusual young man to this senior position.

Tired of trying to attain the mythical work-life balance and constantly feeling frustrated? Are you giving yourself a C- for your performances at work and at home? Teresa A. Taylor knows that trying to be a career woman and a mom can leave you feeling tired and defeated, and she wants you to take a new approach. She herself rapidly ascended through the ranks to become COO of a Fortune 200 company while raising two boys with her working husband, and in *The Balance Myth*, she shows you how you can do it too. Taylor takes you along to a meeting in the White House, to union negotiations, and to her sons' soccer practices as she shares her candid, humorous, and heartfelt stories. Based on these real-life experiences and the lessons she learned from them, she shares the key to living with multiple responsibilities: integrating—not bifurcating—your personal and professional worlds. In addition, she offers insights about leading with integrity; surrounding yourself with positive resources; pushing through adversity; and celebrating accomplishments—especially your own. Taylor couldn't take the mother out of the career woman or vice versa, and she believes that you shouldn't have to either. Don't search for balance; the answers are within you! -- Written in an engaging voice, Teresa Taylor, the high-profile COO of Qwest who orchestrated a \$20 billion acquisition in the telecom industry, uses memoir and real-life examples to deliver valuable business perspectives that illustrate how she rose to the top of a Fortune 200 company while also raising her two sons with her working husband and maintaining fulfilling family relationships. Taylor illustrates that executives (as well as professionals with executive ambitions) don't have to sacrifice a successful family life for a corner office position—and she provides the keys to managing these multiple responsibilities based on her experience.

The original edition of *Rethinking Our Classrooms*, published in 1994, sold more than 175,000 copies and has been used by teachers and teacher educators throughout the United States and the world. This new edition contains some of the best classroom writing we've published over the past five years, along with the most popular articles from the original edition, completely updated resource sections, and a new "Beyond the Classroom" chapter. There are new essays on science and environmental education, immigration and language, military recruitment, early childhood education, teaching about the world through mathematics, and gay and lesbian issues. Nowhere is the connection between critical teaching and effective classroom

practice clearer or more accessible. A great resource for new and veteran K-12 teachers, as well as teacher education and staff development programs. For many of us, work is a source of anxiety rather than joy, and our workplace routine has become a strain on our lives. This unique book explores whether it's possible to develop a world of work which is, in fact, joyful, fulfilling and good for our health. Insightful and practical, Hearing our Calling traces the history of work, challenging current work practices and routines we take for granted. Drawing on her extensive work with different organisations, the author exposes the corporate world and reveals a surprising and beautiful alternative. She argues that we all have a 'calling', and that hearing it is especially important in times of widespread unemployment and economic hardship. This lucid and readable book invites us to think differently about how and where we work, both individually and as a society, and offers the potential for real change.
