"From the forty-year-old friendship between Vaughan Williams and Holst few letters survive: Holst kept less than fifty, Vaughan Williams less than a dozen. Even so, the correspondence gives a vivid impression of their deep, excited, and continuing interest in each other's work. These fragments of a lifelong conversation on music show the changing conditions from the nineties, when German influence dominated the scene, to the early nineteen-thirties, when English music was a firmly established and growing reality. The letters are supplemented by lectures and articles, unpublished or reprinted from sources long out of print. The book has been edited by Ursula Vaughan Williams and Imogen Holst." --Book jacket.

"Copiously documented chapters distill significant amounts of scholarship about the featured composers. Recommended"--Choice The turn of the 20th century was a time of great change in Britain. The empire saw its global influence waning and its traditional social structures challenged. There was a growing weariness of industrialism and a desire to rediscover tradition and the roots of English heritage. A new interest in English folk song and dance inspired art music, which many believed was seeing a renaissance after a period of stagnation since the 18th century. This book focuses on the lives of seven composers--Ralph Vaughan Williams, Gustav Holst, Ernest Moeran, George Butterworth, Philip Heseltine (Peter Warlock), Gerald Finzi and Percy Grainger--whose work was influenced by folk songs

and early music. Each chapter provides an historical background and tells the fascinating story of a musical life.

Serious scholarship on the music of Ralph Vaughan Williams is currently enjoying a lively revival after a period of relative quiescence, and is only beginning to address the enduring affection of concert audiences for his music. The essays that comprise this volume extend the study of Vaughan Williams's music in new directions that will be of interest to scholars, performers and listeners alike. This volume contains the work of eleven North American scholars who have been recipients of the Ralph Vaughan Williams Fellowship based at the composer's own school, Charterhouse, which was created and has been supported by the Carthusian Trust since 1985. This wide-ranging and detailed collection of essays covers the spectrum of genres in which Vaughan Williams wrote, including dance, symphony, opera, song, hymnody and film music. The contributors also employ a range of analytical and historical methods of investigation to illuminate aspects of Vaughan Williams's compositional techniques and influences, musical, literary and visual.

Ever since its premiere just before the composer's death, Vaughan Williams's Ninth Symphony has divided critical opinion and remained something of an enigma. Yet the composer thought highly of the work, and went against his usual practice by preserving all the sketches. This study, the first of its kind on a work of Vaughan Williams, analyses the symphony and traces its genesis through hundreds of pages of sketches and drafts; it also offers a general introduction to the composer's working methods. The

Get Free Heirs And Rebels Letters Written To Each Other And

manuscripts show how the composer worked meticulously to create the complex expressive ambivalence of the finished work, transforming in the process simpler conceptions redolent of his earlier music. Most crucially, however, the sketches reveal an underlying programme, centred on the theme of innocent sacrifice and drawing on Hardy's Tess of the D'Urbervilles, Stonehenge, and Salisbury Cathedral. Vaughan Williams's new musical path in the symphony, it emerges, was closely allied to the continuing evolution of his visionary agnosticism.

A New English Music

The book comprises a selection of some 750 letters of the composer, Ralph Vaughan Williams, selected from an extant corpus of about 3,300. The letters are arranged

chronologically and have been chosen to provide a cumulative pen-picture of the

composer in his own words. In general the letters reflect VW's major preoccupations:

musical, personal and political. It was not VW's way to discuss his inner creative

processes but he does discuss his music, once it had been written: for example there is

much to illustrate the process of 'washing the face' of his major pieces before, and after, they had reached the concert platform. There is correspondence with collaborators such as Gilbert Murray, Harold Child and Evelyn Sharpe who provided texts; with his publishers (mainly OUP) about printing scores and parts; with conductors such as Adrian Boult and John Barbirolli about performances. He was in regular correspondence with fellow composers such as Gustav Holst, George Butterworth, Gerald Finzi, Herbert Howells, John Ireland, Alan Bush and Rutland Boughton. There were his pupils: Elizabeth Maconchy and Cedric Thorpe Davie amongst others. A series of close personal friendships is well represented: his Cambridge contemporary and cousin Ralph Wedgwood, Edward Dent, and latterly Michael Kennedy. Above all there are insights on his lifelong devotion to his first wife, Adeline, and his growing friendship with Ursula Wood, who was to become his second wife.

From 1918 onwards, Boult became one of Vaughan Williams's most important interpreters, giving the world premieres of the Pastoral, Fourth and Sixth Symphonies, performing almost all his major works (not

only at home but with some of the world's greatest orchestras), and working in close collaboration with the composer on major projects including the first complete recording of Vaughan Williams's symphonies. Boult continued to be the most devoted advocate of Vaughan Williams's music to the end of his long career. As this book shows, Boult's scores include numerous annotations derived from conversations and correspondence with Vaughan Williams and these provide important evidence of the composer's wishes including adjustments to orchestration, comments on interpretation, dynamics, phrasing and revisions to Vaughan Williams's notoriously unreliable metronome marks. The evidence of these scores is considered alongside the extensive correspondence between Vaughan Williams and Boult, Boult's private diaries and other relevant documents including contemporary press reports. The book includes three substantial supplements: a detailed description of Boult's marked scores, a comprehensive list of Boult's Vaughan Williams performances and a discography including surviving recordings of unpublished broadcasts. It will be indispensable reading for scholars and students of Vaughan

The Choral-Orchestral Works of Ralph Vaughan Williams: Autographs, Context, Discourse combines contextual knowledge, a musical commentary, an inventory of the holograph manuscripts, and a critical assessment of the opus to create substantial and meticulous examinations of Ralph Vaughan Williams's choral-orchestral works. The contents include an equitable choice of pieces from the various stages in the life of the composer and an analysis of pieces from the various stages of Williams's life. The earliest are taken from the pre-World War I years, when Vaughan Williams was constructing his identity as an academic and musician—Vexilla Regis (1894), Mass (1899), and A Sea Symphony (1910). The middle group are chosen from the interwar period—Sancta Civitas (1925), Benedicite (1929), Magnificat (1932), Five Tudor Portraits (1935), Dona nobis pacem (1936)—written after Vaughan Williams had found his mature voice. The last cluster—Thanksgiving for Victory (1944), Fantasia (Quasi Variazione) on the 'Old 104' Psalm Tune (1949), Sons of Light (1950),

Hodie (1954), The Bridal Day/Epithalamion (1938/1957)—typify the works finished or revisited during the final years of the composer's life, near the end of the Second World War and immediately before or after his second marriage (1953).

Essays in Honour of Nicholas Temperley

Music and Performance Culture in Nineteenth-Century Britain: Essays in Honour of Nicholas Temperley is the first book to focus upon aspects of performance in the broader context of nineteenth-century British musical culture. In four Parts, 'Musical Cultures', 'Societies', 'National Music' and 'Methods', this volume assesses the role music performance

plays in articulating significant trends and currents of the cultural life of the period and includes articles on performance and individual instruments; orchestral and choral ensembles; church and synagogue music; music societies; cantatas; vocal albums; the middle-class salon, conducting; church music; and piano pedagogy. An introduction explores Temperley's vast contribution to musicology, highlighting his seminal importance in creating the field of nineteenth-century British music studies, and a bibliography provides an up-to-date list of his publications, including books and monographs, book chapters, journal articles, editions, reviews, critical editions, arrangements and compositions. Fittingly devoted to a significant element in Temperley's research, this book provides scholars of all nineteenth-century musical topics the opportunity to explore the richness of Britain's musical history. This is the first book-length survey of 20th -century British music for solo organ. Beginning with a discussion of British organ music in the last decades of the Victorian era, the book focuses on the pieces that the composers wrote, their musical style, possible influences on the composition of specific works, and the details of their composition. Arranged in chronological order according to date of birth are detailed studies on important composers that made especially significant contributions to organ music including Parry, Stanford, Healey Willan, Herbert

Howells, Percy Whitlock, Francis Jackson, Peter Racine Fricker, Arthur Wills, and Kenneth Leighton. Composers' biographies, the role of organs and organ building developments, influential political and sociological events, and aesthetic aspects of British musical life are also discussed in detail. In the concluding chapter, the author discusses the major phases and achievements of the century and gauges what may lie ahead in the new millennium. A comprehensive Catalog of Works provides titles of works, dates of composition, details of publishers, and the dates of publication. More than 60 music examples, 12 black and white photos, and an up-to-date bibliography are included.

A Kirkus Reviews Best Nonfiction of 2011 title In the late 1960s, with popular culture hurtling forward on the sounds of rock music, some brave musicians looked back instead, trying to recover the lost treasures of English roots music and update them for the new age. The records of Fairport Convention, Pentangle, Steeleye Span, and Nick Drake are known as "folk rock" today, but Rob Young's epic, electrifying book makes clear that those musicians led a decades-long quest to recover English music—and with it, the ancient ardor for mysticism and paganism, for craftsmanship and communal living. It is a commonplace that rock and R&B came out of the folk and blues revivals of the early 1960s, and Young shows, through enchanting storytelling and

brilliant commentary, that a similar revival in England inspired the Beatles and Pink Floyd, Led Zeppelin and Traffic, Kate Bush and Talk Talk. Folklorists notated old songs and dances. Marxists put folk music forward as the true voice of the people.

Composers like Benjamin Britten and Ralph Vaughan Williams devised rich neo-traditional pageantry. Today, the pioneers of the "acid folk" movement see this music as a model for their own. Electric Eden is that rare book which has something truly new to say about popular music, and like Greil Marcus's Lipstick Traces, it uses music to connect the dots in a thrilling story of art and society, of tradition and wild, idiosyncratic creativity.

"This single-volume life-and-works biography of Ralph Vaughan Williams provides a contemporary reassessment of one of the twentieth century's most versatile, influential, and enduringly popular British musicians. Throughout his wide-ranging career-as composer, conductor, editor, scholar, folksong collector, teacher, author, administrator, and philanthropist-Vaughan Williams worked tirelessly to improve the standards and quality of British musical life. His compelling and original musical language-inspired in part by elements drawn from English folksong, French impressionism, Wagnerian post-chromaticism, Tudor-era sacred music, and Anglican hymnody-presented a distinctively British response to musical modernism over his sixty-year-long career, and in works ranging from art songs for amateurs to perhaps the finest symphonic cycle of the twentieth century. Alternating between biographical and analytical chapters, it draws upon previously inaccessible primary sources alongside a wealth of secondary material to craft a concise and engaging overview of Vaughan Williams's life and music"--

This volume gathers together a cross-section of essays and book chapters dealing with the ways in which musicians and their music have been pressed into the service of political, nationalist and racial ideologies. Arranged chronologically according to their subject matter, the selections cover Western and non-Western musics, as well as art and popular musics, from the eighteenth century to the present day. The introduction features detailed commentaries on sources beyond those included in the

Art and Ideology in European Opera

This book explores the hitherto neglected history of the campaign for state funding of the arts. By focusing on the important but forgotten movements for music and drama subsidy before and during WWII, Howard Webber makes an important contribution to the history of arts subsidy. Before the Arts Council rediscovers three forgotten but influential campaigns for state support of the arts in Britain in the 1930s and wartime. Webber's impressive historical excavation challenges existing scholarship, which argues that arts subsidy was the result of the war, and instead re-situates the campaign's origins in the pre-war years. Webber does so by drawing on correspondence from influential figures including Ralph Vaughan Williams, John Maynard Keynes and J.B Priestley, along with extensive use of

government papers. Before the Arts Council is a lively, compelling and scrupulously researched account of a subject consistently misunderstood and misrepresented. It changes our understanding of an aspect of British cultural history we thought we knew well. It will appeal to students of twentieth century social and political history and to anyone with a general interest in the arts and in this period.

Music in the Women's Institute has become stereotyped by the ritualistic singing of Jerusalem at monthly meetings. Indeed, Jerusalem has had an important role within the organization, and provides a valuable means within which to assess the organization's relationship with women's suffrage and the importance of rurality in the Women's Institute's identity. However, this book looks beyond Jerusalem by examining the full range of music making within the organization and locates its significance within a wider historical-cultural context. The Institute's promotion of conducting - a regular part of its musical activity since the 1930s - is discussed within the context of embodying overtly feminist sentiments. Lorna Gibson concludes that a redefinition of the term 'feminism' is needed and the concept of 'gendered spheres' of conducting provides a useful means of understanding the Institute's policy. The organization's promotion of folk song is also examined and reveals the Institute's contribution to the Folk Revival, as well

as providing a valuable context within which to understand the National Federation's first music commission, Ralph Vaughan Williams's Folk Songs of the Four Seasons (1950). This work, and the Institute's second commission, Malcolm Williamson's *The Brilliant and the Dark* (1969), are examined with the context of the organization's music policy. In addition to discussing the background to the works, issues of critical reception are addressed. The book concludes with an Epilogue about the National Society Choir (later known as the Avalon Singers), which tested the organization's commitment to amateur music making. The book is the result of meticulous work undertaken in the archives of the National Federation, the BBC Written Archives Centre, the V&A archives, the Britten-Pears Library, the Ralph Vaughan Williams Library, the Women's Library and the Newspaper Library. At this book's core is a critical edition of letters exchanged over 50 years between Anglo-Irish composer Elizabeth Maconchy (1907-1994) and the Welsh composer Grace Williams (1906-1977). These two innovative and talented women are highly regarded for their music, their professional activities and their roles in British musical life. The edition comprises around 200 letters from 1927 to 1977, none of which have been published before, along with scholarly introductions and contextualizations. Interwoven commentaries, in tandem with carefully constructed appendices,

frame the letter texts. Moreover, the commentaries and introductory essays highlight and track the development of important themes and issues that characterize the study of twentieth-century British music today. This edition presents a dialogue, through both sides of a unique correspondence, offering an alternative commentary on musical and cultural developments of this period.

on his music is currently enjoying a revival. 2008 marks the 50th anniversary of Vaughan Williams passing (and 2007 his 135th birthday); his work particularly his orchestral music will likely find themselves programmed widely for this season, and groups like the RVW Society which regularly hold symposiums may have events planned in honor of the composer. OUP-UK will be publishing a volume of Vaughan Williams Letters, edited by Hugh Cobbe, likely to pub in 2008. We should consider promoting the two volumes together. This collection brings together a host of lively writings some for the first time, and many for the first time since their initial publication by one of the most articulate, beloved and engaging English composers. Making available essays, articles, broadcasts, and speech transcripts from 1901-1958, Vaughan Williams on Music exemplifies the multi-faceted nature of his contributions: active supporter of amateur music and English music, a leader in the folksong revival, educator, performer, and polemicist. Vaughan Williams was one of the cultural giants of his day, a figure of iconic stature whose influence stretched far beyond musical circles; his friendships with Bertrand Russell and G. M. Trevelyan, and his tireless work on behalf of a variety of organizations and causes, from Jewish refugees to the Third Programme, gave him a unique place in British national life. He also had a powerful influence in the United States, at a time when the special relationship was approaching its zenith. Through all these perspectives, the words are unmistakably those of a practicing composer a young composer at the turn of the last century, trying to find his own musical voice amid widely diverse stylistic influences of the dominant and successful figures of Brahms, Strauss, and Tchaikovsky, and a mature composer in the mid-century, having found that glorious voice which continues to resound across the globe. The volume will be an important contribution to the literature not only on

British music, but also on nineteenth- and twentieth-century British cultural and intellectual life as a whole, placing Vaughan Williams's political and aesthetic thought in a broader cultural perspective. It will be a welcome read as well for the general audience which loves the music of Vaughan Williams, that will be listening to and remembering the composer as this anniversary of his death approaches.

An icon of British national identity and one of the most widely performed twentieth-century composers, Ralph Vaughan Williams has been as much misunderstood as revered; his international impact and enduring influence on areas as diverse as church music, film scores and popular music has been insufficiently appreciated. This volume brings together a team of leading scholars, examining all areas of the composer's output from new perspectives, and re-evaluating the cultural politics of his lifelong advocacy for the music-making of ordinary people. Surveys of major genres are complemented by chapters exploring such topics as the composer's relationship with the BBC and his studies with Ravel; uniquely, the book also includes specially commissioned interviews with major living composers Peter Maxwell Davies, Piers Hellawell, Nicola LeFanu and Anthony Payne. The Companion is a vital resource for all those interested in this pivotal figure of modern music.

This Companion celebrates the extraordinary riches of the twentieth-century operatic repertoire in a collection of specially commissioned essays written by a distinguished team of academics, critics and practitioners. Beginning with a discussion of the century's vital inheritance from late-romantic operatic traditions in Germany and Italy, the text embraces fresh investigations into various aspects of the genre in the modern age, with a comprehensive coverage of the work of individual composers from Debussy and Schoenberg to John Adams and Harrison Birtwistle. Traditional stylistic

categorizations (including symbolism, expressionism, neo-classicism and minimalism) are reassessed from new critical perspectives, and the distinctive operatic traditions of Continental and Eastern Europe, Russia and the Soviet Union, the United Kingdom and United States are subjected to fresh scrutiny. The volume includes essays devoted to avant-garde music theatre, operettas and musicals, filmed opera, and ends with a discussion of the position of the genre in today's cultural marketplace.

Music is a tremendously powerful channel through which people develop their personal and social identities. Music is used to communicate emotions, thoughts, political statements, social relationships, and physical expressions. But, just as language can mediate the construction and negotiation of developing identities, so music can also be a means of communication through which aspects of people's identities are constructed. Music can have a profound influence on our developing sense of identity, our values, and our beliefs, be it from rock music, classical music, or jazz. Musical identities (MacDonald, Hargreaves and Miell, 2002) was unique in being in being one of the first books to explore this fascinating topic. This new book documents the remarkable expansion and growth in the study of musical identities since the publication of the earlier work. The editors identify three main features of current psychological approaches to musical identities, which concern their definition, development, and the identification of individual differences, as well as four main real-life contexts in which musical identities have been investigated, namely in music and musical institutions; specific geographical communities; education; and in health and well-being. This conceptual framework provides the rationale for the structure of the Handbook. The book is divided into seven main sections. The first, 'Sociological, discursive and narrative approaches',

Get Free Heirs And Rebels Letters Written To Each Other And

includes several general theoretical accounts of musical identities from this perspective, as well as some more specific investigations. The second and third main sections deal in depth with two of the three psychological topics described above, namely the development of and individual differences in musical identities. The fourth, fifth and sixth main sections pursue three of the real-life contexts identified above, namely 'Musical institutions and practitioners', 'Education', and 'Health and well-being'. The seventh and final main section of the Handbook - 'Case studies' - includes chapters which look at particular musical identities in specific times, places, or contexts. The multidisciplinary range and breadth of the Handbook's contents reflect the rapid changes that are taking place in music, in digital technology, and in their role in society as a whole, such that the study of musical identity is likely to proliferate even further in the future.

Hamish MacCunn's career unfolded amidst the restructuring of British musical culture and the rewriting of the Western European political landscape. Having risen to fame in the late 1880s with a string of Scottish works, MacCunn further highlighted his Caledonian background by cultivating a

Scottish artistic persona that defined him throughout his life. His attempts to broaden his appeal ultimately failed. This, along with his difficult personality and a series of poor professional choices, led to the slow demise of what began as a promising career. As the first comprehensive study of MacCunn's life, the book illustrates how social and cultural situations as well as his personal relationships influenced his career. While his fierce loyalty to his friends endeared him to influential people who helped him throughout his career, his refusal of his Royal College of Music degree and his failure to complete early commissions assured him a difficult path. Drawing upon primary resources, Oates traces the development of MacCunn's music chronologically, juxtaposing his Scottish and more cosmopolitan compositions within a discussion of his life and other professional activities. This picture of MacCunn and his music reveals on the one hand a talented composer who played a role in establishing national identity in British music and, on the other, a man who unwittingly sabotaged his own career. By the 1840s Joseph Haydn, who died in 1809 as the most celebrated composer of his generation, had degenerated into the bewigged "Papa Haydn," a shallow placeholder in music history who merely invented the forms used by Beethoven. In a remarkable reversal, Haydn swiftly regained his former stature within the opening decades of the twentieth century.

Reviving Haydn: New Appreciations in the Twentieth Century examines both the decline and the subsequent resurgence of Haydn's reputation in an effort to better understand the forces that shape critical reception on a broad scale. No single person or event marked the turning point for Haydn's reputation. Instead a broad resurgence reshaped opinion in Europe and the United States in short order. The Haydn revival engaged many of the music world's leading figures -- composers (Vincent d'Indy and Arnold Schoenberg), conductors (Arturo Toscanini), performers (Wanda Landowska), critics (Lawrence Gilman), and scholars (Heinrich Schenker and Donald Tovey) -- each of whom valued Haydn's music for specific reasons and used it to advance particular goals. Yet each advocated for a rehearing and rereading of the composer's works, calling for a new appreciation of Haydn's music. Bryan Proksch is Assistant Professor of Music History at Lamar University.

The author of several books on music and culture looks at the various roles of music during World War I, from "La Marseillaise" to "Over There," and examines music's ability to reflect the profound doubts, passions, and aspirations of society, both during the war and in its aftermath. First published in 2011, this text provides citations to the core Holst literature. The volume is intended for students and researchers, as well as those seeking an introduction to Holst. The inclusion of materials for the non-specialist seems entirely appropriate as Holst devoted much of his career to teaching amateur musicians. The contents of this book presents a selective, annotated list of essential materials published through the end of 2009, although a very few exceptions were made for a limited number of post-2009 print and web resources.

This controversial study isolates and identifies the intellectual, social, and political assumptions which surrounded English music in the early-20th century. The

authors deconstruct the established meanings of music in this period, arguing that music was not just for the elite, but it had come to represent a stronghold of national values, reflecting the reassuring "Englishness" of middle-class life as well.

The history of women in the opera is a grand story. Women were singers and patrons, of course, but from opera's beginnings in Renaissance Italy, they were also opera composers and librettists. At first it was exclusively for the nobility. In the 19th century, with the emergence of the middle class and the rise of nationalism, there were more public theaters and opera seemed to be everywhere. This meant more opportunities for composers, though men predominated. This book focuses on the women, from the 16th century to today, who had successful careers in opera, many of them well known in their time.
