This seminal work focuses on human development from middle childhood to middle adulthood, through analysis of the groundbreaking Jyväskylä Longitudinal Study of Personality and Social Development (JYLS). The JYLS project, which began in 1968, has generated extensive publications over many years but this is the first comprehensive summary that presents the conceptual framework, the research design and methodology, and the findings. The study looks at the development over time of issues related to personality, identity, health, anti-social behavior, and well-being and is unparalleled in its duration, intensity, comprehensiveness and psychological richness. The thorough synthesis of this study illustrates that there are different paths to adulthood and that human development cannot be described in average terms. The 42-year perspective that the JYLS provides shows the developmental consequences of children's differences in socioemotional behavior over time, and the great significance of children's positive socioemotional behavior for their further development until middle age. Not only will the book be an invaluable tool for those considering research methods and analysis on large datasets, it is ideal reading for students on lifespan courses and researchers methodologically interested in longitudinal research.

Presents a fictionalized account of the life of Mary Rowlandson, a Puritan woman living in the Massachusetts Bay Colony who was captured by Native American in 1675 and who developed empathy for her captors before she was released eight months later.

On a moonlit night in 1903, a mysterious young woman flees alone across the Canadian wilderness, one quick step ahead of her pursuers. Mary Boulton is nineteen years old, half mad, and widowed - by her own hand. Tearing through the forest with dogs howling in the distance, she is desperate, her nerves burning, and she is certain of one thing only - that her every move is being traced. Two red-headed brothers, rifles across their backs, lurch close behind her: monstrous figures, identical in every way, with the predatory look of hyenas. She has murdered their brother, and their cold lust for vengeance is unswerving. As the widow scrambles to stay ahead of them, the burden of her existence disintegrates into a battle in which the dangers of her own mind become more menacing than the dangers of the night. Along the way, the steely outlaw encounters a changing cast of misfits and eccentrics. Some, like the recluse known as 'The Ridgerunner', provide a brief respite from her solitude; others, like the Reverend Bonnycastle, offer support only to reveal that they too have their own demons raging inside. As she is plunged further away from civilisation, her path from retribution to redemption slowly unfurls. A startling transformation of the classic western narrative, The Outlander is the haunting tale of one young woman's deliberate journey deep into the wild.
