

Herding Tigers Be The Leader That Creative People Need

The Game Changer is a business parable about innovation and business transformation, wrapping time honored principles in an engaging, fictional tale. It reveals the narrative behind a technology company founded by a game changing CEO/inventor that has reluctantly taken in funding, and nearly misses the gift of being able to grow at a much faster pace. He and his team initially feel the pressure of investor's quarter-to- quarter profit metrics, but through a series of unusual and intertwined events, they find their entrepreneurial spirit and energy ignited again. They are empowered to change every area of the company, providing value back to their investors, and eventually to the public after their IPO. Written for anyone interested in entrepreneurship, innovation, leadership and personal growth.

The Business Skills Every Creative Needs! Remaining relevant as a creative professional takes more than creativity--you need to understand the language of business. The problem is that design school doesn't teach the strategic language that is now essential to getting your job done. Creative Strategy and the Business of Design fills that void and teaches left-brain business skills to right-brain creative thinkers. Inside, you'll learn about the business objectives and marketing decisions that drive your creative work. The curtain's been pulled away as marketing-speak and business jargon are translated into tools to help you: Understand client requests from a business perspective Build a strategic framework to inspire visual concepts Increase your relevance in an evolving industry Redesign your portfolio to showcase strategic thinking Win new accounts and grow existing relationships You already have the creativity; now it's time to gain the business insight. Once you understand what the people across the table are thinking, you'll be able to think how they think to do what we do.

The modern workplace is built on teamwork, but for many workers this structure feels like a necessary evil—an impediment rather than a perpetuator of success and fulfillment. The traditional approach to teamwork often pits individuals against one another with a “me-first” mentality, leading to dysfunctional teams that fail to accomplish their purpose. Fortunately, there is a better way to work. In this salient book, Russ Sarratt and Rusty Chadwick provide a framework for a different kind of team—one where personal excellence and sacrificial service at the individual level changes the narrative of the larger group. No matter the industry or profession, the success of a team and the fulfillment of its members depend on each individual's ability and desire to contribute. Team Work introduces 13 timeless principles of teamsmanship—simple but transformative values that are revolutionizing the way teams function. Whether at work, at home, on the athletic field, or in the community, the principles of Team Work will help you develop a clear understanding of how to move your team forward and thrive in the process.

When times are particularly difficult, and you are likely to slip into despair, some of the greatest pop songs can provide true comfort to make it through the pain. The problem with advice in general is that we often don't take it. The great thing about advice songs is that you can kick back and listen to someone else coach you through a tough situation while rocking out at the same time. This wonderful book lists 250 of the best pop songs for those times that solid life advice is needed. The songs represent all popular music styles from the last fifty years, from rock to folk, and from punk to hip hop. There are for example many times in which the three words "let it be" are words of wisdom. Although the lyrics may have originally been written in reference to interpersonal difficulties within the Beatles, the song does possess a universality that makes "Let It Be" one of the great advice pop songs of all time. Other famous pop music advice to live by: "You Can't Always Get What You Want" by The Rolling Stones "If You Love Somebody, Set Them Free" by Sting "Don't Worry, Be Happy" by Bobby McFerrin "Always Look on the Bright Side of Life" by Eric Idle Don't Eat the Yellow Snow (Frank Zappa) is a collection of all the famous advice songs and many surprises as well. It gives the reader the song titles, painted by hand by the designer, and a striking quote from the song lyrics as well as indices on artist and themes. This well produced, iconic looking album of words of wisdom from pop music is the perfect gift for music lovers of all ages.

"The ultimate all-in-one guide to becoming a great leader."—Daniel Pink From the creator and host of *The Learning Leader Show*, "the most dynamic leadership podcast out there" (*Forbes*) that will "help you lead smarter" (*Inc.*), comes an essential tactical guide for newly promoted managers. Every year, millions of top performers are promoted to management-level jobs—only to discover that the tactics that got them promoted are not the tactics that will make them effective in their new role. In *Welcome to Management*, Ryan Hawk provides practical, actionable advice and tools designed to ensure that transition is a successful one. He presents a new actionable three-part framework distilled from best practices drawn from in-depth interviews with over 300 of the most forward-thinking leaders around the world, as well as his own professional experience going from exceptional individual producer to new leader. Learn how to:

- lead yourself: build skills and earn credibility. Compliance can be commanded, but commitment cannot. People reserve their full capacity for emotional commitment for leaders they find credible, and credibility must be earned.
- build your team: develop a healthy and sustainable culture of mutual trust and respect that creates cohesion. This includes effective hiring and firing practices.
- lead your team: set a clear strategy and vision for your team, communicate effectively, and ultimately drive the results the organization is counting on your team to deliver.

Through case studies, hundreds of interviews, and personal stories, the book will help high performers make the leap from individual contributor to manager with greater ease, grace, courage, and effectiveness. *Welcome to management!*

Identifies the importance of a conscious, planned and shared collaborative environment that promotes teamwork, creativity and enthusiasm, revealing counter-intuitive facts while sharing research-based examples that identify the essential components of an effective team. 15,000 first printing.

How Great Organizations Do Ordinary Things in Extraordinary Ways

Reflections on Character and Leadership is the first of the three books in the Manfred Kets de Vries on the Couch series. Here, Kets de Vries looks at entrepreneurship, the pathology of leadership, and the personality of the leader. The reader will visit the disturbed inner worlds of leaders like Alexander the Great, Shaka Zulu and Robert Maxwell, discover how to distinguish between a cold fish and a live volcano, and identify impostors, despots, organizational fools and global leaders. The book highlights the

basic principles of the clinical paradigm—the process of putting organizations and the individuals who lead them on the psychoanalyst's couch. It includes studies of personality archetypes and the effects they have on organizational life and culture—and the effects that organizations have on them. Referring frequently to key management concepts, Kets de Vries looks not only at what happens when things go wrong, but also at how to create the psychological and organizational space to make sure that things go right. About the series: The series offers an overview of Kets de Vries's work spanning four decades, a period in which he has established himself as the leading figure in the clinical study of organizational leadership. The books in this series contain a representative selection of Kets de Vries' writings about leadership from a wide variety of published sources and cover character and leadership in a global context, career development and leadership in organizations. The original essays were all written or published between 1976 and 2008. Updated where appropriate and revised by the author, they present a digest of the work of one of the most influential management thinkers of the present day.

Five common problems your team is susceptible to—and the one thing you can do to fix all of them There are so many ways a team can go wrong. Does your team make decisions so slowly that nothing ever gets done, or does it go too fast and miss critical issues that come back to bite you later? Does your team bicker endlessly or smile and nod while avoiding the tough issues? Too often, team dysfunction leads to abysmal productivity and zero innovation for your organization, as well as misery and wasted time for you. Most team members sit and wait, feeling trapped in a team that just isn't working. You First: Inspire Your Team to Grow Up, Get Along, and Get Stuff Done presents a radical new idea: you can change your team. Author Liane Davey shows how you, from any seat at the table, even without support from your colleagues or your team leader, can transform even a toxic team. It starts with living up to five responsibilities that will change the workings of even the most dysfunctional team. Addresses the five most common ways your team can become toxic Gives you a diagnostic to see if your team is at risk Doles out practical suggestions to deal with the crisis in the short-term Instructs you on how to disrupt the patterns that leave you in an endless cycle of dysfunction Replaces those patterns with positive interactions and even productive conflict Gives you the right words to say to change your team for the better—starting today Written by Liane Davey, PhD, a highly sought-after consultant and Principal of Knightsbridge Leadership Solutions and the Vice President of Global Solutions and Team Effectiveness Designed for front line employees, middle managers, executives, or anyone who works regularly in teams, You First will help you figure out how to make your team happier, healthier, and more productive.

Many of us assume that our creative process is beyond our ability to influence, and pay attention to it only when it isn't working properly. For the most part, we go about our daily tasks and everything just "works." Until it doesn't. Adding to this lack of understanding is the rapidly accelerating pace of work. Each day we are face escalating expectations and a continual squeeze to do more with less. We are asked to produce an ever-increasing amount of brilliance in an ever-shrinking amount of time. There is an unspoken (or spoken!) expectation that we'll be accessible 24/7, and as a result we frequently feel like we're "always on." Now business creativity expert Todd Henry explains how to unleash your creative potential. Whether you're a creative by trade or an "accidental creative," this book will help you quickly and effectively integrate new ideas into your daily life.

The more traditional forms of leadership that are based on static hierarchies and professional distance between leaders and followers are growing increasingly outdated and ineffective. As organizations face more complex interdependent tasks,

leadership must become more personal in order to insure open trusting communication that will make more collaborative problem solving and innovation possible. Without open and trusting communications throughout organizations, they will continue to face the productivity and quality problems that result from reward systems that emphasize individual competition and “climbing the corporate ladder”. Authors Edgar Schein and Peter Schein recognize this reality and call for a reimagined form of leadership that coincides with emerging trends of relationship building, complex group work, diverse workforces, and cultures in which everyone feels psychologically safe. Humble Leadership calls for “here and now” humility based on a deeper understanding of the constantly evolving complexities of interpersonal, group and intergroup relationships that require shifting our focus towards the process of group dynamics and collaboration. Humble Leadership at all levels and in all working groups will be the key to achieving the creativity, adaptiveness, and agility that organizations will need to survive and grow.

decades of experience, to recapture the enthusiasm, curiosity, and fearlessness of youth to take on new challenges? With the right mindset—with Rookie Smarts—you can. In a rapidly changing world, experience can be a curse. Careers stall, innovation stops, and strategies grow stale. Being new, naïve, and even clueless can be an asset. For today's knowledge workers, constant learning is more valuable than mastery. In this essential guide, leadership expert Liz Wiseman explains how to reclaim and cultivate this curious, flexible, youthful mindset called Rookie Smarts. She argues that the most successful rookies are hunter-gatherers—alert and seeking, cautious but quick like firewalkers, and hungry and relentless like pioneers. Most importantly, she identifies a breed of leaders she refers to as “perpetual rookies.” Despite years of experience, they retain their rookie smarts, thinking and operating with the mindsets and practices of these high-performing rookies. Rookie Smarts addresses the questions every experienced professional faces: “Will my knowledge and skills become obsolete and irrelevant? Will a young, inexperienced newcomer upend my company or me? How can I keep up?” The answer is to stay fresh, keep learning, and know when to think like a rookie. Rookie Smarts isn't just for professionals seeking personal renewal; it is an indispensable resource for all leaders who must ensure their workforces remains vital and competitive.

*What does it really mean to take a leadership role? In this book, learn how true leaders are made and how you can be one too No one is born to lead. This is the idea at the heart of this thoughtful book on true leadership. While popular culture feeds us images of the stereotypical leader—charismatic, powerful, decisive—the truth is, with the right amount of self-knowledge and authenticity, anyone can be a good leader. There are countless courses and books available on leadership technique, decision-making and public speaking, but *How to Be a Leader* by Martin Bjerregaard and Cosmina Popa aims to give you the tools to understand and bring out your own individual leadership style. With an in-depth look at what it really means to lead, and the differences between being a manager and being a leader, this book invites you to explore and learn about the unique leader in you.*

*They're often behind the scenes, letting their work take center stage. But now Nathan Williams, founder and creative director of Kinfolk magazine and author of *The Kinfolk Table*, *The Kinfolk Home*, and *The Kinfolk Entrepreneur*—with over 250,000 copies in print combined—brings more than 90 of the most iconic and influential creative directors into the spotlight. In *The Eye*, we meet fashion designers like Claire Waight Keller and Thom Browne. Editorial directors like Fabien Baron and Marie-Amélie Sauvé. Tastemakers like Grace Coddington and Linda Rodin. We learn about the books they read, the mentors who guided them, their individual techniques for achieving success. We learn how they developed their eye—and how they've used it to communicate visual ideas that have captured generations and will shape the future. As an entrepreneur whose own work is defined by its specific and instantly recognizable aesthetic, Nathan Williams has a unique vision of contemporary culture that will make this an invaluable book for art directors, designers, photographers, stylists, and any creative professionals seeking inspiration and advice.*

*Cofounder of *Fast Company* magazine and bestselling author of *Mavericks at Work* and *Practically Radical* shows how true business innovation can spring from the unlikeliest places. Far away from Silicon Valley, in familiar, traditional, even unglamorous fields, ordinary people are unleashing extraordinary advances that amaze customers, energize employees, and create huge economic value. Their secret? They understand that the work of inventing the future doesn't just belong to geeks designing mobile apps and virtual-reality headsets, or to*

social-media entrepreneurs hoping to launch the next Facebook. Some of today's most compelling organizations are doing brilliant things in simple settings such as retail banks, office cleaning companies, department stores, small hospitals, and auto dealerships. William C. Taylor, cofounder of Fast Company and best-selling author of Practically Radical, traveled thousands of miles to visit these hotbeds of simple brilliance and unearth the principles and practices behind their success. He offers fascinating case studies and powerful lessons that you can apply to do ordinary things in extraordinary ways, regardless of your industry or profession. Consider, for instance, how... ·Miami Beach's dazzling 1111 Lincoln Road reimaged the humble parking garage as a high-profile public space that hosts weddings, yoga classes, and celebrity gatherings. ·USAA, the financial-services giant that provides soldiers and their families with insurance and banking products, inspires frontline employees to deliver legendary service by immersing them in military culture. ·Pal's Sudden Service, a fast-food chain with a cult following, serves up burgers and fries with such speed and accuracy that companies from other industries pay to learn from its astonishing discipline. ·Lincoln Electric, a manufacturer based in Euclid, Ohio, dominates its ultracompetitive markets with a fierce devotion to quality and productivity. But the key to its prosperity is a share-the-wealth model that gives everybody a sense of security and a piece of the action. It has maintained a strict no-layoff pledge since 1958. As Taylor writes: "The story of this book, its message for leaders who aim to do something important and build something great, is both simple and subversive: In a time of wrenching disruptions and exhilarating advances, of unrelenting turmoil and unlimited promise, the future is open to everybody. The thrill of breakthrough creativity and breakaway performance . . . can be summoned in all sorts of industries and all walks of life, if leaders can reimagine what's possible in their fields." Simply Brilliant shows you how.

Zombies and voodoo collide in this Anita Blake, Vampire Hunter, novel from #1 New York Times bestselling author Laurell K. Hamilton. Becoming the fiancée of master vampire Jean-Claude is wreaking havoc with Anita Blake's reputation as a hardass—to some extent. Luckily, in professional circles, she's still the go-to expert for zombie issues. And right now, the FBI is having one hell of a zombie issue. Someone is producing zombie porn. Anita has seen her share of freaky undead fetishes, so this shouldn't bother her. But the women being victimized aren't just mindless, rotting corpses. Their souls are trapped behind their eyes, signaling voodoo of the blackest kind. It's the sort of case that can leave a mark on a person. And Anita's own soul may not survive unscathed...

From the author of Die Empty and The Accidental Creative, a new framework for understanding what motivates us and why. What drives us to unleash our best work? And how do we tap into that drive to get superior results with our managers, coworkers, and direct reports? As Todd Henry reveals in this illuminating book, drawing on decades of research and interviews with over 100,000 people, the answer is not one size fits all: some people are energized by a race against the clock, while others put in extra effort only when they feel part of a team. For still others, nothing is as motivating as the possibility of public recognition. Henry shows, in fact, that there are twenty-seven "motivational themes", each with its own unique DNA. For instance: · Those driven to Achieve Potential strive to build an ideal future, even when others may not see as far ahead. · Those needing to Overcome must conquer whatever obstacles come their way, no matter how difficult or time-consuming. · Those who strive to Comprehend and Express are obsessed with mastering new skills and showing off what they know--which is often a lot. · Those who want to Make It Right thrive when systems are running smoothly and usually know the "proper way" to do things. The Motivation Code teaches us to decode our Core Motivation so that we can have conversations, make decisions, and even choose career paths that lead us to experience engagement and fulfillment. Once we know how to activate our inner drivers, we can transform the work we do into work we love.

Silicon Valley visionary John Chambers shares the lessons that transformed a dyslexic kid from West Virginia into one of the world's best business leaders and turned a simple router company into a global tech titan. When Chambers joined Cisco in 1991, it was a company with 400 employees, a single product, and about \$70 million in revenue. When he stepped down as CEO in 2015, he left a \$47 billion tech giant that was the backbone of the internet and a leader in areas from cybersecurity to data center convergence. Along the way, he had acquired 180 companies and turned more than 10,000 employees into millionaires. Widely recognized as an innovator, an industry leader, and one of the world's best CEOs, Chambers has outlasted and outmaneuvered practically every rival that ever tried to take Cisco on--Nortel, Lucent, Alcatel, IBM, Dell, and Hewlett-Packard, to name a few. Now Chambers is sharing his unique strategies for winning in a digital world. From his early lessons and struggles with dyslexia in West Virginia to his bold bets and battles with some of the biggest names in tech, Chambers gives readers a playbook on how to act before the market shifts, tap customers for strategy, partner for growth, build teams, and disrupt themselves. He also adapted those lessons to transform government, helping global leaders like French President Emmanuel Macron and Indian Prime Minister Narendra Modi to create new models for growth. As CEO of JC2 Ventures, he's now investing

in a new generation of game-changing startups by helping founders become great leaders and scale their companies. Connecting the Dots is destined to become a business classic, providing hard-won insights and critical tools to thrive during the accelerating disruption of the digital age.

A clash between the ideology of growth and the growth of ideas, between control and creativity, between measurement and the immeasurable, between predictability and the fickle muses of inspiration in engulfing our boardrooms. In this scathing swipe at the institutionalised idiocy that is stifling creativity just at the time the world needs it most Gordon Torr draws from the leading lights of creativity research to demolish the myths that surround the generation of ideas in the modern organisation. The curse of the brainstorm, the commoditisation of creative talent, the deskilling of the imagination, the startling inadequacies of management theory – these and the many other horrors of idea-assassination that run rampant in creative sector companies are dissected and disembowelled in this hilarious expose of the drama that unfolds every time a new idea slides across the boardroom table. This book sets out to address the black hole that surrounds the management of creative people, debunking many myths of creativity, and outlining a revolutionary approach to the pressing issue of creative productivity in the contemporary creative sector company. A handbook of tools, techniques, methods and practical ideas whose USP is a framework for thinking about efficient creative management – how to extract value from creative time. Gordon Torr presents a logical argument that puts in place the building blocks of the author's knowledge and experience towards the final architecture. "We need them as never before. And we know that they're somehow different. Yet the productive management of creative people is an almost totally neglected science. I doubt if there's a single industry that wouldn't gain immediate advantage from Gordon Torr's scrupulous and enlightening detective work." - Jeremy Bullmore

Leadership first, location second As more organizations adopt a remote workforce, the challenges of leading at a distance become more urgent than ever. The cofounders of the Remote Leadership Institute, Kevin Eikenberry and Wayne Turmel, show leaders how to guide their teams by recalling the foundational principles of leadership. The authors' "Three-O" Model refocuses leaders to think about outcomes, others, and ourselves—elements of leadership that remain unchanged, whether employees are down the hall or halfway around the world. By pairing it with the Remote Leadership Model, which emphasizes using technology as a tool and not a distraction, leaders are now able to navigate the terrain of managing teams wherever they are. Filled with exercises that ensure projects stay on track, keep productivity and morale high, and build lasting relationships, this book is the go-to guide for leading, no matter where people work.

E. H. Gombrich's Little History of the World, though written in 1935, has become one of the treasures of historical writing since its first publication in English in 2005. The Yale edition alone has now sold over half a million copies, and the book is available worldwide in almost thirty languages. Gombrich was of course the best-known art historian of his time, and his text suggests illustrations on every page. This illustrated edition of the Little History brings together the pellucid humanity of his narrative with the

images that may well have been in his mind's eye as he wrote the book. The two hundred illustrations—most of them in full color—are not simple embellishments, though they are beautiful. They emerge from the text, enrich the author's intention, and deepen the pleasure of reading this remarkable work. For this edition the text is reset in a spacious format, flowing around illustrations that range from paintings to line drawings, emblems, motifs, and symbols. The book incorporates freshly drawn maps, a revised preface, and a new index. Blending high-grade design, fine paper, and classic binding, this is both a sumptuous gift book and an enhanced edition of a timeless account of human history.

*A practical handbook for every manager charged with leading teams to creative brilliance, from the author of *The Accidental Creative and Die Empty*. Doing the work and leading the work are very different things. When you make the transition from maker to manager, you give ownership of projects to your team even though you could do them yourself better and faster. You're juggling expectations from your manager, who wants consistent, predictable output from an inherently unpredictable creative process. And you're managing the pushback from your team of brilliant, headstrong, and possibly overqualified creatives. Leading talented, creative people requires a different skill set than the one many management books offer. As a consultant to creative companies, Todd Henry knows firsthand what prevents creative leaders from guiding their teams to success, and in *Herding Tigers* he provides a bold new blueprint to help you be the leader your team needs. Learn to lead by influence instead of control. Discover how to create a stable culture that empowers your team to take bold creative risks. And learn how to fight to protect the time, energy, and resources they need to do their best work. Full of stories and practical advice, *Herding Tigers* will give you the confidence and the skills to foster an environment where clients, management, and employees have a product they can be proud of and a process that works. Become the leader others want to follow Forget everything you know about motivating others and building a harmonious workplace. If you want to get the best out of people, you must be willing to fight. But, that doesn't mean you become a dominator, nor does coddling others work. The best leader you've ever had in your life was a liberator—someone willing to fight for your highest good, even at a personal cost. Inside, global leadership experts Jeremie Kubicek and Steve Cockram explain what made that leader so unique, how to become that person yourself, and how to share the same gift with others. Be one of the few that people actually want to follow Learn the lost art of leadership—the intentional calibration of support and challenge for everyone you lead, your team and your family Become a multiplication master as you learn to bring the best out of people for their highest good and that of the whole team Overhaul entire cultures by focusing on the transformation and empowerment of sub-culture leaders *The 100x Leader* will help you become—and build—leaders worth following.*

*The next step in personal effectiveness, by the acclaimed author of *The Accidental Creative and Die Empty*. There has never been a better time to build an audience around your idea or product. But with so many people and companies clamoring for attention, it's also more challenging than ever to do work that deeply resonates with the marketplace and creates true and lasting impact.*

According to Todd Henry, the key to standing apart from the noise is to find your unique voice. Those who identify and develop their voices will gain more attention and wield more influence. But first they have to identify what they truly stand for, develop a compelling vision, and become masters of expressing their ideas in whatever media they choose. Henry offers strategies, exercises, and true stories that illustrate the five attributes of resonant work: • Authenticity: Uncover the narratives that are at the core of your personal and professional identity. • Uniqueness: Identify what makes your work distinct from that of others, and learn to creatively package and present your message. • Consonance: Cultivate internal consistency and harmony in your work. • Empathy: Listen to your audience's aspirations and struggles to make your message more compelling. • Timing: Learn how to coordinate your work with ideas that already have cultural momentum. Making your work speak is a life-long process of trial, error, and realignment. Henry's book will help readers build a body of work that resonates deeply and achieves lasting impact.

What does it take to lead people into a burning building? How do the leaders of the New York City Fire Department develop so much grace under pressure that their subordinates will risk their very lives for them? As a high-ranking officer of the FDNY, John Salka is a practicing and teaching high-stakes leadership. In *First In, Last Out*, he explains the department's unique strategies and how they can be applied by leaders in any field—as he has taught them to organizations around the country. In a tough-talking, no-nonsense style, Salka uses real-world examples to convey leadership imperatives such as: first in, last out—your people need to see you taking the biggest risk, as the first one to enter the building and the last to leave manage change—the fire you fought yesterday is not the one you'll be fighting tomorrow communicate aggressively—fires worth more than 20,000 gallons of water create an execution culture—focus your people on the flames, not the smoke commit to your vision the way you would like things to be to color how things are develop your people—let them feel a little heat today or they'll get burned tomorrow by harrowing real-life situations, the principles in *First In, Last Out* will help managers become more confident, coherent, and commanding. An adventure tale, historical memoir, and hunting journal in a single, enthralling narrative. At the tender age of seven, little William shot a chipmunk and was "imbued with the spirit of sportsmanship." In the following years of his colorful life, Allen wore many hats, living as a miner, blacksmith, gunsmith, prospector, freighter, and even dentist. Above all, however, was his passion for adventure, the hunt, and the West. Native Americans in the waning light of the late nineteenth century in Dakota Territory. A born observer, Allen describes a world that no longer existed. Allen's accounts of life in the frontier wilderness—hunting otters and grizzly bears, a second-hand account on the tragedy of the Battle of the Little Bighorn, witnessing a battle between a rattlesnake and an eagle, and brutal fights and lifelines between Sioux and Crow Indians—reflect a lost era of romantic heroism, untouched nature, and early Western sentiments, both antiquated and alive. Not only the thrilling memoir of one man's life, *Adventures with Indians and Game* is also a compendium of Western hunting, track, hunt, and kill for entertainment—in a time when hunting for pleasure, rather than food, in the West was a foreign concept. As a pioneer in the field of hunting as a sport in the West, Allen provides a significant historical account of the spirit that spearheaded it. A teetotaler and a naturalist, Allen's narrative voice is strong, straightforward, and immediate, even though he died in 1944. *Adventures with Indians and Game* is an adventure tale and hunting journal that promises an enthralling and eye-opening read.

In times of constant change, adaptive leadership is critical. This Harvard Business Review collection brings together the seminal ideas and thrive in challenging environments, from leading thinkers on the topic—most notably Ronald A. Heifetz of the Harvard Kennedy School and Cambridge Leadership Associates. The Heifetz Collection includes two classic books: *Leadership on the Line*, by Ron Heifetz and Marty Linsky, and *The Practice of Adaptive Leadership*, by Heifetz, Linsky, and Alexander Grashow. Also included is the popular Harvard Business Review article "Leadership in a (Permanent) Crisis," written by all three authors. Available together for the first time, this collection includes full digital versions of each work. Adaptive leadership is a practical framework for dealing with today's mix of urgency, high stakes, and uncertainty. It has been used by individuals, organizations, businesses, and governments worldwide. In a world of challenging environments, adaptive leadership serves to distinguish the essential from the expendable, beginning the meaningful process of adaptation, and changing the status quo. Ronald A. Heifetz is a cofounder of the international leadership and consulting practice Cambridge Leadership Associates (CLA) and the founding director of the Center for Public Leadership at the Harvard Kennedy School. He is renowned worldwide for his innovative work on the practice and teaching of adaptive leadership. Linsky is a cofounder of CLA and has taught at the Kennedy School for more than twenty-five years. Alexander Grashow is a Senior
