Until India gained its independence from Britain in 1947, one third of the country was ruled by a lazy, pampered group of 565 maharajahs, or princes. They led hedonistic lives with scores of wives and concubines, palaces and jewels, and spent much of their time playing polo and tiger hunting. The late Prime Minister Indira Gandhi taxed the maharajahs almost out of existence, and few physical traces of their former glory remain. However, a new breed of commercial princes has sprung up in their place.

How should you grow your organization? It's one of the most challenging questions an executive team faces—and the wrong answer can break your firm. The problem is most firms' growth strategies emphasize just one type of

growth—some focus on organic growth, others on M&A. When these strategies falter, the common response is simply to try harder—but firms falling into this “implementation trap” usually end up losing out to a competitor whose approach is more inclusive. So where do you start? By asking the right questions, argue INSEAD’s Laurence Capron and coauthor Will Mitchell, of the Rotman School of Management at the University of Toronto and Duke University’s Fuqua School of Business. Drawing on decades of research and teaching, Capron and Mitchell find that a firm’s aptitude for determining the best resource pathways for growth has a defining impact on its success. They’ve come up with a helpful framework, reflecting practices of a variety of successful global organizations, to determine which path is best for yours. The resource pathways framework is built around three strategic questions: • BUILD: Are your existing internal resources relevant for developing the new resources that you have targeted for growth? • BORROW: Could you obtain the targeted resources via an effective relationship with a

resource partner? • BUY: Do you need broad and deep relationships with your resource provider? Written for large multinationals and emerging firms alike, Build, Borrow, or Buy will help solve a perennial question and will guide you through change while priming your organization for optimal growth.

Articles with reference to India.

As an adult, I knew I would have to visit India, the place of my birth. My father was a British Indian Army Officer and my mother, the daughter of a soldier, was brought to India when she was 20 months old. She left India in 1947, married and with her two children, making a hurried exit before the partition of India. I have always felt I had India in my blood. My first breath, sound, taste, touch, and sight were of India. In March 2012, in my 67th year, I set off on a return journey, not as a tourist, but as an observer of India as a prodigal son. I wanted to immerse myself in the culture. What I found was a country and a people with which I felt completely at home. I basked in the inclusivity and generosity I received. I saw a country on the brink of great change as it collides with the 21st century. Hero on a Honda is a collection of observations and an informal account of my adventures in Rajasthan and Gujarat.
