

## Heroes Of The Environment True Stories Of People Who Are Helping To Protect Our Planet

***The staggering story of an unlikely band of mothers in the 1970s who discovered Hooker Chemical's deadly secret of Love Canal—exposing one of America's most devastating toxic waste disasters and sparking the modern environmental movement as we know it today. Lois Gibbs, Luella Kenny, and other mothers loved their neighborhood on the east side of Niagara Falls. It had an elementary school, a playground, and rows of affordable homes. But in the spring of 1977, pungent odors began to seep into these little houses, and it didn't take long for worried mothers to identify the curious scent. It was the sickly sweet smell of chemicals. In this propulsive work of narrative storytelling, NYT journalist Keith O'Brien uncovers how Gibbs and Kenny exposed the poisonous secrets buried in their neighborhood. The school and playground had been built atop an old canal—Love Canal, it was called—that Hooker Chemical, the city's largest employer, had quietly filled with twenty thousand tons of toxic waste in the 1940s and 1950s. This waste was now leaching to the surface, causing a public health crisis the likes of which America had never seen before and sparking new and specific fears. Luella Kenny believed the chemicals were making her son sick. O'Brien braids together previously unknown stories of Hooker Chemical's deeds; the local newspaperman, scientist, and congressional staffer who tried to help; the city and state officials who didn't; and the heroic women who stood up to corporate and governmental indifference to save their families and their children. They would take their fight all the way to the top, winning support from the EPA, the White House, and even President Jimmy Carter. By the time it was over, they would capture America's imagination. Sweeping and electrifying, Paradise Falls brings to life a defining story from our past, laying bare the dauntless efforts of a few women who—years before Erin Brockovich took up the mantle— fought to rescue their community and their lives from the effects of corporate pollution and laid foundation for the modern environmental movement as we know it today.***

***Through candid interviews with close friends, family, and the Beach Boys themselves, this biography portrays and evaluates all those who propelled the California myth, and the group who sang about it, into world-wide prominence. With dozens of photos, this book recounts the bitter saga of the American dream realized and distorted, and the music that survived. 66 photos.***

***Violent crime has been rising sharply in many American cities after two decades of decline. Homicides jumped nearly 17 percent in 2015 in the largest 50 cities, the biggest one-year increase since 1993. The reason is what Heather Mac Donald first identified nationally as the "Ferguson effect": Since the 2014 police shooting death of Michael Brown in Ferguson, Missouri, officers have been backing off of proactive policing, and criminals are becoming emboldened. This book expands on Mac Donald's groundbreaking and controversial reporting on the Ferguson effect and the criminal-justice system. It deconstructs the central narrative of the Black Lives Matter movement: that racist cops are the greatest threat to young black males. On the contrary, it is criminals and gangbangers who are responsible for the high black homicide death rate. The War on Cops exposes the truth about officer use of force and explodes the conceit of "mass incarceration." A rigorous analysis of data shows that crime, not race, drives police actions and prison rates. The growth of proactive policing in the 1990s, along with lengthened sentences for violent crime, saved thousands of minority lives. In fact, Mac Donald argues, no government agency is more dedicated to the proposition that "black lives matter" than today's data-driven, accountable police department. Mac Donald gives voice to the many residents of high-crime neighborhoods who want proactive policing. She warns that race-based attacks on the criminal-justice system, from the White House on down, are eroding the authority of law and putting lives at risk. This book is a call for a more honest and informed debate about policing, crime, and race.***

***This book offers a highly revealing and troubling view of today's high school students and the ways they pursue high grades and success. Denise Pope, veteran teacher and curriculum expert, follows five motivated and successful students through a school year, closely shadowing them and engaging them in lengthy reflections on their school experiences. What emerges is a double-sided picture of school success. On the one hand, these students work hard in school, participate in extracurricular activities, serve their communities, earn awards and honours, and appear to uphold school values. But on the other hand, they feel that in order to get ahead they must compromise their values and manipulate the system by scheming, lying, and cheating. In short, they do school, that is, they are not really engaged with learning nor can they commit to such values as integrity and community. The words and actions of these five students - two boys and three girls from diverse ethnic and socioeconomic backgrounds - underscore the frustrations of being caught in a grade trap that pins future success to high grades and test scores. Their stories raise critical questions that are too important for parents, educators, and community leaders to ignore. Are schools cultivating an environment that promotes intellectual curiosity, cooperation, and integrity? Or are they fostering anxiety, deception, and hostility? Do today's schools inadvertently impede the very values they claim to embrace? Is the success that current assessment practices measure the kind of success we want for our children?***

These true stories show you how God is at work in Iran through the lives of missionaries and Iranian believers. More Muslims in Iran have come to Christ in the last thirty years than in the thirteen hundred years that Islam has been in the country.

Fire Child, Water Child is a revolutionary guide to parenting a child with attention-deficit hyperactivity disorder (ADHD) that does not rely on medication or pathologizing your child's challenges. This method, created by pediatrician and ADHD specialist Stephen Scott Cowan, helps you identify your child's unique focusing style—wood, fire, earth, metal, or water—and calm the stress that can contribute to your child's ADHD symptoms. This personalized approach will help your child reduce impulsive behavior, regulate attention, and handle school and home routines with confidence. What is your child's ADHD style? • The Wood Child An adventurous explorer, the Wood child is always on the move and gets frustrated easily. • The Fire Child The Fire child is outgoing, funny, and can be prone to mood swings and impulsive actions. • The Earth Child The cooperative, peacemaking Earth child can feel worried or indecisive when stressed. • The Metal Child The Metal child is comforted by routine and finds it difficult to shift attention from task to task. • The Water Child An imaginative dreamer, the Water child struggles to keep track of time.

In this new series, based on real-life animal tales, discover that not all heroes wear capes - some have four legs, a wet nose, and a brave heart. Big or small, fall in love with animal friends who have lived truly wild lives. Read about Fluffles, the koala, who held strong

through the bushfires in South Australia with bravery. While she healed she found other koalas to snuggle up with. Their cuddles for one another helped make the whole outback feel better. Hugs were an act of heroism! This heartwarming story has a fact section at the back, so you can learn more about koalas and how you can help them. Adorable illustrations from Rachel Qiuqi will make you want to hug the page. Also debuting for the series is Onyx, based on the reintroduction of wolves of Yellowstone Park. And there's even more heartwarming stories to come! Sterling the Moose and Talala the Leopard.

This anthology provides an historical overview of the scientific ideas behind environmental prediction and how, as predictions about environmental change have been taken more seriously and widely, they have affected politics, policy, and public perception. Through an array of texts and commentaries that examine the themes of progress, population, environment, biodiversity and sustainability from a global perspective, it explores the meaning of the future in the twenty-first century. Providing access and reference points to the origins and development of key disciplines and methods, it will encourage policy makers, professionals, and students to reflect on the roots of their own theories and practices.

Heroes of the Environment True Stories of People Who Are Helping to Protect Our Planet Chronicle Books

Be inspired and amazed by these incredible Aboriginal and Torres Strait Islander icons! With colourful artwork and evocative writing, this book tells stories every Australian should know. Powerful and exciting: here are seven inspiring stories about Aboriginal and Torres Strait Islander people from history. Amongst these are Patyegarang, a Darug woman who worked with a British officer of the First Fleet, teaching him words from local Aboriginal languages - together they made the first written record of any Aboriginal languages; Mohara Wacando-Lifu, a woman of Torres Strait Islander, Niue Islander and Papua New Guinea heritage and the first Indigenous woman to receive the Royal Humane Society's Gold Medal for bravery; Yarri and Jacky Jacky, who led the rescue of sixty-nine people during the Gundagai floods of 1852. Each colourful spread in this illustrated book tells a compelling story.

A New York Times bestseller. From FOX & Friends Weekend cohost Pete Hegseth comes a collection of inspiring stories from fifteen of America's greatest heroes—highly decorated Navy SEALs, Army Rangers, marines, Purple Heart recipients, combat pilots, a Medal of Honor recipient, and more—based on FOX Nation's hit show of the same name. After three Army deployments—earning two Bronze Stars and a Combat Infantryman's Badge—Pete Hegseth knows what it takes to be a modern warrior. In *Modern Warriors* he presents candid, unfiltered conversations with fellow modern warriors and digs for real answers to key questions like: What inspired them to serve? What is their legacy? What does sacrifice really mean to them? How do they handle loss? And what can civilians learn from this latest generation of veterans? From the skies over Afghanistan to the seas of the Mediterranean to the treacherous streets of Iraq, these brave men and women take you inside the firefight, sharing the harrowing realities of war. Hegseth uses their experiences to facilitate conversations about the raw truths of combat, including the difficulties of transitioning back home, while also celebrating these soldiers' contributions to preserving our nation's most precious gift—freedom. In addition to the oral history, *Modern Warriors* presents dozens of personal, rarely shared photos from the battlefield and the home front. Together these stories and images provide an unvarnished representation of battlefield leadership, military morale, and the strain of war. This book is the perfect keepsake and gift for anyone who wants to know what it means, and what it truly takes, to be a patriot.

The Watchman didn't arrive in a Batmobile but drove a tan, four-door Pontiac. He was in costume, of course—a trench coat, motorcycle gloves, army boots, a domino mask, and a red hooded sweatshirt emblazoned with a W logo. Journalist Tea Krulos had spoken to him over the phone but never face-to-mask. By the end of the interview, he wasn't sure if the Watchman was delightfully eccentric or completely crazy. But he was going to find out. *Heroes in the Night* traces Krulos's journey into the strange subculture of Real Life Superheroes, random citizens who have adopted comic book & – style personas and hit the streets to fight injustice. Some concentrate on humanitarian or activist missions—helping the homeless, gathering donations for food banks, or delivering toys to children—while others actively patrol their neighborhoods looking for crime to fight. By day, these modern Clark Kents work as dishwashers, pencil pushers, and executives in Fortune 500 companies. But by night, only the Shadow knows. Well, the Shadow and Tea Krulos. Through historical research, extensive interviews, and many long hours walking patrol in Brooklyn, Seattle, San Diego, Minneapolis, and Vancouver, British Columbia, Krulos discovered what being a RLSH is all about. He shares not only their shining, triumphant moments but some of their ill-advised, terrifying disasters as well. It's all part of the life of a superhero. As the Watchman explains, &“If everyone made little changes in what they did, gave a little more to charity, watched out for their neighbors, we wouldn't have the problems that we have.&”

How Understanding the Five Types of ADHD Can Help You Improve Your Child's Self-Esteem and Attention

*Thirteen thrilling true stories of courage and heroism. From firefighters battling a blazing nuclear reactor, to a helicopter rescue team on board a fast sinking ship and one housewife's brave defiance of the Gestapo, this book contains inspiring tales of extraordinary courage from everyday people. A gripping and engaging collection of amazing real life stories, perfect for readers who prefer fact to fiction.*

*Navy SEAL sniper and New York Times bestselling author Brandon Webb's personal account of eight of his friends and fellow SEALs who made the ultimate sacrifice. "Knowing these great men—who they were, how they lived, and what they stood for—has changed my life. We can't let them be forgotten. We've mourned their deaths. Let's celebrate their lives."—Brandon Webb As a Navy SEAL, Brandon Webb rose to the top of the world's most elite sniper corps, experiencing years of punishing training and combat missions from the Persian Gulf to Afghanistan. Along the way, Webb served beside, trained, and supported men he came to know not just as fellow warriors, but as friends*

*and, eventually, as heroes. This is his personal account of eight extraordinary SEALs who gave all for their comrades and their country with remarkable valor and abiding humanity: Matt "Axe" Axelson, who perished on Afghanistan's Lone Survivor mission; Chris Campbell, Heath Robinson, and JT Tumilson, who were among the casualties of Extortion 17; Glen Doherty, Webb's best friend, killed while helping secure the successful rescue and extraction of American CIA and State Department diplomats in Benghazi; and other close friends, classmates, and fellow warriors. These are men who left behind powerfully instructive examples of what it means to be alive—and what it truly means to be a hero. INCLUDES PHOTOGRAPHS*

*An inspiring look at the hidden stars in every field who perform essential work without recognition In a culture where so many strive for praise and glory, what kind of person finds the greatest reward in anonymous work? Expanding from his acclaimed Atlantic article, "What Do Fact-Checkers and Anesthesiologists Have in Common?" David Zweig explores what we can all learn from a modest group he calls "Invisibles." Their careers require expertise, skill, and dedication, yet they receive little or no public credit. And that's just fine with them. Zweig met with a wide range of Invisibles to discover first hand what motivates them and how they define success and satisfaction. His fascinating subjects include: \* a virtuoso cinematographer for major films. \* the lead engineer on some of the world's tallest skyscrapers. \* a high-end perfume maker. \* an elite interpreter at the United Nations. Despite the diversity of their careers, Zweig found that all Invisibles embody the same core traits. And he shows why the rest of us might be more fulfilled if we followed their example.*

*From beloved children's book creator Crockett Johnson comes the timeless classic Harold and the Purple Crayon! This imagination-sparking picture book belongs on every child's digital bookshelf. One evening Harold decides to go for a walk in the moonlight. Armed only with an oversize purple crayon, young Harold draws himself a landscape full of wonder and excitement. Harold and his trusty crayon travel through woods and across seas and past dragons before returning to bed, safe and sound. Full of funny twists and surprises, this charming story shows just how far your imagination can take you. "A satisfying artistic triumph." —Chris Van Allsburg, author-illustrator of The Polar Express Share this classic as a birthday, baby shower, or graduation gift!*

This inspiring book presents the true stories of 12 people from across North America who have done great things for the environment. Heroes include a teenage girl who figured out how to remove an industrial pollutant from the Ohio River, a Mexican superstar wrestler who works to protect turtles and whales, and a teenage boy from Rhode Island who helped his community and his state develop effective e-waste recycling programs. Plenty of photographs and illustrations bring each compelling story vividly to life.

They dress up at night, fight crime, and save people from crimes and other personal disasters. Across North America, there are more than 600 costumed heroes patrolling the streets. Nadia Fezzani has visited them, patrolled with them, and faced death with them to bring this in-depth look at the lives and origins of real life super heroes.

**EYE TO EYE WITH DEATH: THE WOLF PROJECT** Hordes of bloodthirsty wolves are slaughtering the arctic caribou, and the government's Wildlife Service assigns naturalist Farley Mowat to investigate. Mowat is dropped alone onto the frozen tundra, where he begins his mission to live among the howling wolf packs and study their ways. Contact with his quarry comes quickly, and Mowat discovers not a den of marauding killers but a courageous family of skillful providers and devoted protectors of their young. As Mowat comes closer to the wolf world, he comes to fear with them the onslaught of bounty hunters and government exterminators out to erase the noble wolf community from the Arctic. Never Cry Wolf is one of the brilliant narratives on the myth and magic of wild wolves and man's true place among the creatures of nature. "We have doomed the wolf not for what it is, but for what we deliberately and mistakenly perceive it to be — the mythologized epitome of a savage, ruthless killer — which is, in reality, no more than the reflected image of ourself." — From the new Preface

Presents the true stories of twelve people from across North America who have done great things for the environment, from a teenage girl who figured out how to remove an industrial pollutant from the Ohio River to a Mexican superstar wrestler who protects turtles and whales.

The Brave Koala Who Held Strong Through A Bushfire

Twenty-one bestselling authors have written short stories to accompany Jonathan Diaz's fantastical photographs of children with cancer.

• New York Times bestseller • The 100 most substantive solutions to reverse global warming, based on meticulous research by leading scientists and policymakers around the world "At this point in time, the Drawdown book is exactly what is needed; a credible, solution-by-solution narrative that we can do it. Reading it is an effective inoculation against the widespread perception of helplessness and that we cannot and will not solve the climate crisis. Reported by-effects include increased determination and a sense of grounded hope." —Gretchen Stoknes, Author, What We Think About When We Try Not To Think About Global Warming "There's been no real way for ordinary people to get an understanding of what they can do and what impact it can have. There remains no single, comprehensive, reliable collection of carbon-reduction solutions across sectors. At least until now. . . . The public is hungry for this kind of practical wisdom." —Liam Clancy, Director of the Institute of the Environment and Sustainability, UCLA In the face of widespread fear and apathy, an international coalition of business, government, professionals, and scientists have come together to offer a set of realistic and bold solutions to climate change. One hundred practical practices are described here—some are well known; some you may have never heard of. They range from clean energy to ecological agriculture in lower-income countries to land use practices that pull carbon out of the air. The solutions exist, are economically viable, and are being implemented throughout the world are currently enacting them with skill and determination. If deployed collectively on a global scale over the next 10 years, they represent a credible path forward, not just to slow the earth's warming but to reach drawdown, that point in time when greenhouse gases in the atmosphere peak and begin to decline. These measures promise cascading benefits to human health, security, and the planet.

being—giving us every reason to see this planetary crisis as an opportunity to create a just and livable world.

Imagine a killer with the infectiousness of the common cold and power of the Black Death. Imagine something so deadly that it kills all of those it touches. Imagine an organism against which there is no defence. But you don't need to imagine. Such a killer exists. Its name is Ebola. The Hot Zone tells what happens when the unthinkable becomes reality: when a deadly virus, from the rain forest, crosses continents and infects a monkey house ten miles from the White House. Ebola is that reality. It has the power to decimate a population. Try not to panic. It will be back. There is nothing you can do...

The struggle of three brothers to stay together after their parent's death and their quest for identity among the conflicting forces of an adolescent society.

*Get young fans dreaming big with this collection of fifty inspirational lives from the world of football. What made Pele the greatest player of all time? How did Nadia Nadim flee from Afghanistan and end up playing for Manchester City? Who was the Liverpool player who invented the world's most popular football boot? This collection of fifty biographies brings together the incredible true stories of the game's greatest legends who changed the world of football. Empowering and inspirational, this is the perfect book to get young fans dreaming big both on and off the pitch ...*

*It takes a graveyard to raise a child. Nobody Owens, known as Bod, is a normal boy. He would be completely normal if he didn't live in a graveyard, being raised by ghosts, with a guardian who belongs to neither the world of the living nor the dead. There are adventures in the graveyard for a boy—an ancient Indigo Man, a gateway to the abandoned city of ghouls, the strange and terrible Smeer. But if Bod leaves the graveyard, he will be in danger from the man Jack—who has already killed Bod's family.*

*"Social activism combines with environmentalism in this picture book bio of Julia Butterfly Hill and Luna, the thousand-year-old redwood tree whose life she saved"--*

*Zero's Heroes is the 1981 true story of personal trainer Kirk Lawrence being hired by San Francisco 49ers tight end Charle Young. Their backgrounds were like night and day, but for six months their training was legendary. Charle's results included helping lead the Niners to Super Bowl XVI and receiving his hometown's Key to the City. Kirk's life improved and it fueled his fitness career success, where he meets Joanie Greggains and helps make an impact on morning television. Kirk continued coaching fitness and leading the huge Dole Cup tournament in Japan. Grit, persistence and determination make the difference. Just go on a personal quest to be your best. Rest, but Don't Quit!*

*Slaughterhouse-Five*

*Modern Warriors*

*A Treasury of Modern-day Fairy Tales Written by Best-selling Authors*

*Duffy's Lucky Escape*

*The Most Comprehensive Plan Ever Proposed to Reverse Global Warming*

*Living Water in the Desert*

*Percy Jackson is about to be kicked out of boarding school...again. And that's the least of his troubles. Lately, mythological monsters and the gods of Mount Olympus seem to be walking straight out of the pages of Percy's Greek mythology textbook and into his life. Book #1 in the NYT best-selling series, with cover art from the feature film, The Lightning Thief.*

*Duffy's lucky escape is an engaging story about the global problem of ocean plastic, highlighting to children the relationship between humans and wildlife and the dangers animals face in their own natural habitats. Stunning artwork captures the imagination of young readers and brings to life a very real threat to our oceans.*

*Christopher McDougall's journey begins with a story of remarkable athletic prowess: On the treacherous mountains of Crete, a motley band of World War II Resistance fighters—an artist, a shepherd, and a poet—abducted a German commander from the heart of the Axis occupation. To understand how, McDougall retraces their steps across the island that birthed Herakles and Odysseus, and discovers ancient techniques for endurance, sustenance, and natural movement that have been preserved in unique communities around the world. His search takes us scrambling over rooftops with a Parkour crew in London, foraging for greens with a ballerina in Brooklyn, tossing heavy pieces of driftwood on a Brazilian beach with the creator of MovNat—and, finally, to our own backyards. Natural Born Heroes will inspire readers to unleash the extraordinary potential of the human body and climb, swim, skip, throw, and jump their way to heroic feats.*

*Kurt Vonnegut's masterpiece, Slaughterhouse-Five is "a desperate, painfully honest attempt to confront the monstrous crimes of the twentieth century" (Time). Selected by the Modern Library as one of the 100 best novels of all time Slaughterhouse-Five, an American classic, is one of the world's great antiwar books. Centering on the infamous World War II firebombing of Dresden, the novel is the result of what Kurt Vonnegut described as a twenty-three-year struggle to write a book about what he had witnessed as an American prisoner of war. It combines historical fiction, science fiction, autobiography, and satire in an account of the life of Billy Pilgrim, a barber's son turned draftee turned optometrist turned alien abductee. As Vonnegut had, Billy*

experiences the destruction of Dresden as a POW. Unlike Vonnegut, he experiences time travel, or coming "unstuck in time." An instant bestseller, *Slaughterhouse-Five* made Kurt Vonnegut a cult hero in American literature, a reputation that only strengthened over time, despite his being banned and censored by some libraries and schools for content and language. But it was precisely those elements of Vonnegut's writing—the political edginess, the genre-bending inventiveness, the frank violence, the transgressive wit—that have inspired generations of readers not just to look differently at the world around them but to find the confidence to say something about it. Authors as wide-ranging as Norman Mailer, John Irving, Michael Crichton, Tim O'Brien, Margaret Atwood, Elizabeth Strout, David Sedaris, Jennifer Egan, and J. K. Rowling have all found inspiration in Vonnegut's words. Jonathan Safran Foer has described Vonnegut as "the kind of writer who made people—young people especially—want to write." George Saunders has declared Vonnegut to be "the great, urgent, passionate American writer of our century, who offers us . . . a model of the kind of compassionate thinking that might yet save us from ourselves." More than fifty years after its initial publication at the height of the Vietnam War, Vonnegut's portrayal of political disillusionment, PTSD, and postwar anxiety feels as relevant, darkly humorous, and profoundly affecting as ever, an enduring beacon through our own era's uncertainties.

*Drawdown*

*Heroes, Rebels and Innovators*

*The Graveyard Book*

*The Jungle Book*

*Among Heroes*

*The Hot Zone*

*Inspiring Aboriginal and Torres Strait Islander people from history*

Discusses the reckless annihilation of fish and birds by the use of pesticides and warns of the possible genetic effects on humans.

Everything about Sarah Bernhardt is fascinating, from her obscure birth to her glorious career--redefining the very nature of her art--to her amazing (and highly public) romantic life, to her indomitable spirit. Well into her seventies, after the amputation of her leg, she was performing under bombardment for soldiers during World War I and toured America for the ninth time. Though the Bernhardt literature is vast, this is the first English-language biography to appear in decades, tracking the trajectory through which an illegitimate--and scandalous--daughter of a Jewish courtesan transformed herself into the most famous actress who ever lived, and into a national icon, a symbol of France.--From publisher description.

Fourteen-year-old Jason Walker is transported to a strange world called Lyrian, where he joins Rachel, who was also drawn there from our world, and a few rebels, to piece together the Word that can destroy the malicious wizard emperor, Surroth.

Now a National Bestseller! Climate change is real but it's not the end of the world. It is not even our most serious environmental problem. Michael Shellenberger has been fighting for a greener planet for decades. He helped save the world's last unprotected redwoods. He co-created the predecessor to today's Green New Deal. And he led a successful effort by climate scientists and activists to keep nuclear plants operating, preventing a spike of emissions. But in 2019, as some claimed "billions of people are going to die," contributing to rising anxiety, including among adolescents, Shellenberger decided that, as a lifelong environmental activist, leading energy expert, and father of a teenage daughter, he needed to speak out to separate science from fiction. Despite decades of news media attention, many remain ignorant of basic facts. Carbon emissions peaked and have been declining in most developed nations for over a decade. Deaths from extreme weather, even in poor nations, declined 80 percent over the last four decades. And the risk of Earth warming to very high temperatures is increasingly unlikely thanks to slowing population growth and abundant natural gas. Curiously, the people who are the most alarmist about the problems also tend to oppose the obvious solutions. What's really behind the rise of apocalyptic environmentalism? There are powerful financial interests. There are desires for status and power. But most of all there is a desire among supposedly secular people for transcendence. This spiritual impulse can be natural and healthy. But in preaching fear without love, and guilt without redemption, the new religion is failing to satisfy our deepest psychological and existential needs.

The author presents his perspectives and opinions on the proposed "carbon taxes" and energy regulations currently part of the global warming debate among members of the Congress and the U.S. government.

A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O' Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.
