Masterarbeit aus dem Jahr 2015 im Fachbereich Didaktik - Englisch - Pädagogik, Sprachwissenschaft, University of Education, Sprache: Deutsch, Abstract: The major problem investigated in this study is the difficulties senior high school students encounter in the use of concord in English grammar. The purpose of the

Download File PDF High School English Grammar By Wren And Martin Free

study was to identify these concord learning challenges, find out why those challenges exist and find appropriate ways to help the students. The instruments used to collect data were intervention tests. The research design included pre-intervention, intervention and post-intervention. The study discovered that most of the students could not apply the rules of concord correctly. They had very serious problems with subject-verb concord. Most students applied concord rules correctly to a very large extent after they were taken through the rules guiding concord in the intervention procedure. In conclusion, this research has proved that an

intervention procedure is very important in assisting students to overcome their concord learning challenges.
