Everywhere we look, people are using fashion to communicate self and society—who they are, and where they belong. Transglobal Fashion Narratives presents an international, interdisciplinary analysis of those narratives. Moving from sweatshop to runway, page to screen, camera to blog, and artist to audience, the book examines fashion as a mediated form of content in branding, as a literary and filmic device, and as a personal form of expression by industry professionals, journalists, and bloggers.

The concept of everyday struggles can enliven our understanding of the lives of young people and how social class is made and remade. This book invokes a Bourdieusian spirit to think about the ways young people are pushed and pulled by the normative demands directed at them from an early age, whilst they reflexively understand that allegedly available incentives for making the 'right' choices and working hard – financial and familial security, social status and job satisfaction – are a

declining prospect. In *Youth, Class and Everyday Struggles*, the figures of those classed as 'hipsters' and 'bogans' are used to analyse how representation works to form a symbolic and moral economy that produces and polices fuzzy class boundaries. Further to this, the practices of young people around DIY cultures are analysed to illustrate struggles to create a satisfying and meaningful existence while negotiating between study, work and creative passions. By thinking through different modalities of struggles, which revolve around meaning making and identity, creativity and authenticity, Threadgold brings Bourdieu's sociological practice together with theories of affect, emotion, morals and values to broaden our understanding of how young people make choices, adapt, strategise, succeed, fail and make do. *Youth, Class and Everyday Struggles* will appeal to undergraduate and postgraduate students, as well as postdoctoral researchers, of fields including: Youth Studies, Class and Inequality, Work and Careers, Subcultures, Media and Creative Industries, Social Theory and Bourdieusian Theory.

The Internet phenomenon that unleashed "adorable emo puppies with bed head, ironic sunglasses, and snobby musical tastes". (Entertainment Weekly) They spend their time sniffing around local farmer's markets, pawing through stacks of vinyl at the record store, and making biting remarks at the café. They're hipster puppies-and they're always snarky, impeccably accessorized, and undeniably adorable. From the site [hipsterpuppies.tumblr.com](http://hipsterpuppies.tumblr.com) comes never-before-seen photos of these pupsters at play, as well as some of the blog's most popular shots. With their oversized egos-and sunglasses-they run the gamut from music festival fauxhemians to ironic trucker-hat-wearing vegans. And they're guaranteed to melt readers' jaded hearts.

Insider twentysomething Christian journalist Brett McCracken has grown up in the evangelical Christian subculture and observed the recent shift away from the "stained glass and steeples" old guard of traditional Christianity to a more unorthodox, stylized 21st-century church. This change raises a big issue for the church in our postmodern world: the question of cool. The question is whether or not Christianity can be, should be, or is, in fact, cool. This probing book is about an emerging category of Christians McCracken calls "Christian hipsters"--the unlikely fusion of the American obsessions with worldly "cool" and otherworldly religion--an analysis of what they're about, why they exist, and what it all means for Christianity and the church's relevancy and hipness in today's youth-oriented culture.

**Decolonising Gender in South Asia is the first full-length compilation of cutting-edge research on the challenging debates around decolonial thought and gender studies in South Asia. The book elaborates on various ways of thinking about gender outside the epistemic frame of coloniality/modernity that is bound to the European colonial project. Following Walter Dignolo, the book calls for epistemic disobedience using border thinking as the necessary condition for thinking decolonially. Borders in this case are conceptualised not just as geographical borders of nation states, they also signify the borders of modern/colonial world, epistemic and ontological orders that the gendered and racialised populations of ex-colonies inhabit. Dwelling, thinking and writing from these borders create conditions of epistemic disobedience to coloniality/modernity discourses of the West. The contributors to this collection, all ethnic minority women from South Asia and the South Asian diaspora, write from and about these borders that challenge the colonial universality of thinking about gender. They are writing from, and with, subalternised racial/ethnic/sexual spaces and bodies located geographically in South Asia and South Asian diasporic contexts. In this way, when coloniality/modernity is shaping universalist understandings of gender, we are able to use a broader canon of thought to produce a more pluriversal understanding of the world. The chapters in this book were originally published as a special issue of Third World Thematics. Who was the turn-of-the-century hipster? Who is free enough of the hipster taint to write this history without contempt or nostalgia? Why are we tempted to declare the neo-hipster moment over, when the hipster's "global brand" has just reached its apotheosis? A panel of n+1 writers, including Mark Greif, Christian Lorentzen, and Jace Clayton (aka dj/rupture) invited the public to join an investigation into the rise and fall of the contemporary hipster. Their debate took place at the New School University in New York City, and was followed by articles, responses, and essays, all printed here for the first time. "The hipster is that person, overlapping with declassing or disaffiliating groupings—the starving artist, the starving graduate student, the neo-bohemian, the vegan or bicyclist or skatepunk, the would-be blue-collar or post-racial individual—who in fact aligns himself both with rebel subculture and with the dominant class, and opens up a poisonous conduit between the two." "Isn't hipsterism, like, the best thing that's happened at the end of the Bush years?" "The truth was that there was no culture worth speaking of, and the people called hipsters just happened to be young, and more often than not, funny looking."

Fashion design begins in the designer's creative mind, and drawing is the crucial next step to communicating creative ideas to others to bring those ideas to reality. Clear, expressive drawings engage and bring together people in patternmaking, production, marketing, and all other facets of the fashion business, ensuring that everyone shares the same vision that originates with the designer. students how best to translate their ideas into drawings. She opens with basic drawing skills using both hand tools and computer techniques before moving on to applying those skills to both the human figure and the specifics of various types of clothing. Throughout the book she exposes designers to myriad techniques and styles, encouraging each individual to discover what works best for him or her. Each chapter ends with practice exercises as well as visual references to review and reinforce material learned in the chapter lessons. Videos demonstrating hands-on examples can be viewed at [waveland.com/Hagen](http://waveland.com/Hagen), with emphasis on distressed fabrics and novelty treatments. 84 pages of color present a wide variety of rendering techniques.

This book will broaden readers' understanding of the links between the music and fashion industries. It highlights the challenges currently facing the fashion industry in terms of hyper-competition, definition of ever-faster trends, changing consumer demands etc. In fact, the fashion industry is heavily influenced by the digital revolution in the music industry, which has changed the face of individual music consumption and social reference, and therefore, also has impacts on fashion consumption and social reference. This understanding is crucial in order to realign any fashion company's strategies to the demands of modern fashion consumers. In terms of content, the book first discusses the social perspective of fashion and music. This includes an analysis of music as a key influencer of fashion trends, both theoretically and on the basis of a case study on grunge music. Then the role of music in the fashion business is addressed, and covers in-store music and the role of music in fashion communication. Following up, the role of fashion in the music business is analyzed. This includes the trend of co-design of fashion collections, music artists' role of differentiation by style, and the market for music fashion merchandise articles (both theoretically and drawing on a case study). In closing, potential lessons learned from the music industry are developed for the fashion industry. This includes an analysis of the digital revolution and the advent of the crowdfunding idea (both theoretically and in a case study).

Sincerity: How a moral ideal born five hundred years ago inspired religious wars, modern art, hipster chic, and the curious notion that we all have something to say (no matter how dull)

Made in Brooklyn

A Current Scientific Vision From the International Fashion and Design Congress

“A serious and engaging cultural history painted on an admirably large canvas.”—Laura Kipnis, *New York Times Book Review* What do John Calvin, Sarah Palin, Jean-Jacques Rousseau, and Bon Iver have in common? A preoccupation with sincerity. With deep historical perspective and a brilliant contemporary spin, R. Jay Magill Jr. tells the beguiling tale of sincerity’s theological past, its current emotional resonance, and the deep impact it has had on the Western soul. At a time when politicians are scrutinized less for the truth of what they say than for how much they really mean it, *Sincerity* provides a wide-ranging examination of a moral ideal that remains a strange magnetic north in our secular moral compass.

PRAISE FOR [stuffhipstershate.tumblr.com](http://stuffhipstershate.tumblr.com) "Depressingly astute." --The New Yorker "Wickedly funny." --The Frisky From the dive bars of Brooklyn's Williamsburg to the dirty alleys of San Francisco's Mission, the urban hipster has redefined American cool with a sighing disdain for everything mainstream. Hipsters are easily identified by their worn-out shoes, fixies and PBR tallboys, but until now no one had investigated beyond the hipster look to the even more hilarious hipster psyche. With personally researched articles, revealing illustrations and helpful charts and graphs, *Stuff Hipsters Hate* exposes the bottomless well of impassioned scorn that motivates the ever-apatetic hipster, including: **MATING AND SOCIAL HATES** buying you a drink monogamy texting back in a timely fashion **APPAREL AND GROOMING HATES** high heels muscles being asked about their tattoos **WORK AND LIFE HATES** full-time jobs knowing their bank balance enthusiasm

This book examines the complexities of the hipster through the lens of art history and cultural theory, from Charles Baudelaire’s flâneur to the contemporary “creative” borne from creative industries policies. It claims that the recent ubiquity of hipster culture has led many artists to confront their own significance, responding to the mass artification of contemporary life by de-emphasising the formal and textual deconstructions so central to the legacies of modern and postmodern art. In the era of creative digital technologies, long held characteristics of art such as individual expression, innovation, and alternative lifestyle are now features of a flooded and fast-paced global marketplace. Against the idea that artists, like hipsters, are the “foot soldiers of capitalism”, the institutionalized networks that make up the contemporary art world are working to portray a view of art that is less a discerning exercise in innovative form-making than a social platform—a forum for populist aesthetic pleasures or socio-political causes. It is in this sense that the concept of the hipster is caught up in age-old debates about the relation between ethics and aesthetics, examined here in terms of the dynamics of global contemporary art.

The Hipster Handbook

hip•ster - \hip-stur (s)\ n. One who possesses tastes, social attitudes, and opinions deemed cool by the cool. (Note: it is no longer recommended that one use the term "cool"; a Hipster would instead say "deck.") The Hipster walks among the masses in daily life but is not a part of them and shuns or reduces to kitsch anything held dear by the mainstream. A Hipster ideally possesses no more than 2% body fat. Clues You Are a Hipster 1. You graduated from a liberal arts school whose football team hasn't won a game since the Reagan administration. 2. You frequently use the term "postmodern" (or its commonly used variation "PoMo") as an adjective, noun, and verb. 3. You carry a shoulder-strap messenger bag and have at one time or another worn a pair of horn-rimmed or Elvis Costello-style glasses. 4. You have refined taste and consider yourself exceptionally cultured, but have one pop vice (ElimiDATE, Quiet Riot, and Entertainment Weekly are popular ones) that helps to define you as well-rounded. 5. You have kissed someone of the same gender and often bring this up in casual conversation. 6. You spend much of your leisure time in bars and restaurants with monosyllabic names like Plant, Bound, and Shine. 7. You bought your dishes and a checkered tablecloth at a thrift shop to be kitschy, and often throw vegetarian dinner parties. 8. You have one Republican friend whom you always describe as being your "one Republican friend." 9. You enjoy complaining about gentrification even though you are responsible for it yourself. 10. Your hair looks best unwashed and you position your head on your pillow at night in a way that will really maximize your cowlicks. 11. You own records put out by Matador, DFA, Definitive Jux, Dischord, Warp, Thrill Jockey, Smells Like Records, and Drag City.

hipster. Stereotypically associated with nerd glasses, beards and buns, boho clothing, and ironic T-shirts, hipsters represent a (post-)postmodern (post-)subculture whose style, aesthetics, and practices have increasingly become mainstream. Hipster Culture is the first comprehensive collection of original studies that address the hipster and hipster culture from a range of cultural studies perspectives. Analyzing the cultural, economic, aesthetic, and political meanings and implications of a wide range of phenomena prominently associated with hipster culture, the contributors bring their expertise and own research perspectives to bear, thus shaping the volume's transnational and intersectional approach. Chapters address global and local manifestations of hipster culture, processes of urban gentrification and cultural appropriation, alternative foodways and eclectic fashion styles, the significance of nostalgia, retro technologies and social media, and the aesthetics and cultural politics of literature, film, art, and music marked by self-reflexivity, irony, and a simultaneous longing for an earnest authenticity. Hipster Culture explores the diversification of hipster culture, sheds light on popular constructions of the hipster as cultural Other, and critically investigates hipster culture's entanglements with and challenges to dominant cultural discourses of gender, ethnicity, race, sexuality, age, religion, and nationality.
