He plays hard, works hard, and plans to take his business international with the aid of an advantageous marriage. The morning Artemis storms into Jack's office and accuses him of sabotaging her project all of his well laid plans fly out the window. Someone dangerous is targeting Artemis and her build site. Someone who will stop at nothing to get their hands on her project. Can she trust Jack to help her or is he part of the problem?

Storm isn't happy about his mate leaving the safety of Vespia, but also wants to prove that Heather is happy and safe under his care. He knows Ialag and is worried the man is going to try to take his mate from him again. His fears become very real when Ialag kidnaps her. Now he has to find a way to bring her home. *Since early childhood, Sara Kent has been experimented on—and dominated by—an alien scientist desperate to save his dying race of male clones. She has passed every test, first out of fear, later because her children—the product of asexual genetic splicing—are being held hostage on the alien's spacecraft. As long as she cooperates, they're safe, which means she'll do anything, including engaging in a brief sexual liaison with a random stranger so that the alien can study them. Unfortunately, Clay Ryerson—the hot guy she picks up in a bar for that purpose—falls madly in love with her and refuses to break up despite her every effort. The more she pushes him away, the more determined he becomes to rescue her from whatever is keeping them apart. Sara knows from brutal experience that she and the children aren't the only ones in danger. This alien will kill anyone who gets too close to his precious specimen, including a handsome would-be hero with a death wish.*

*Every night for three years the vengeful King Shahriyar sleeps with a different virgin, executing her the next morning. To end this brutal pattern and to save her own life, the vizier's daughter, Shahrazad, begins to tell the king stories of adventure, love, riches and wonder - tales of mystical lands peopled with princes and hunchbacks, the Angel of Death and magical spirits, tales of the voyages of Sindbad, of Ali Baba outwitting a band of forty thieves and of jinnis trapped in rings and in lamps. The sequence of stories will last 1,001 nights.*

Attractive, young and equally strong-headed, Scarlett Sommerfield and Dev Bashir were never meant to be a match--at least if his very wealthy and traditional Indian parents have anything to say about it. So it's a good thing that they've despised each other for most of their young lives -- but that's about to change. Growing up poor and motherless, smart and ambitious Scarlett is graduating from high school and becoming a new adult in the big scary world without a safe place to land, so when she's invited to move in with her best friend's palatial home on the right side of the tracks for her senior year, things couldn't be better. There, she finds security and kindness--with the exception of her best friend's brooding and arrogant older brother, Dev, who returns home from college struggling with his own demons and seemingly focused on making her the object of his contempt. Over time--and some ill-timed run-ins--Scarlett learns that he's not at all what he seems, and a forbidden love sparks between them, burning out of control when she least expects it. But when there's fire, there's smoke, and controlling Mrs. Bashir catches onto their young romance...and everything goes to hell. Steeped in outdated rules and traditions about love and marriage, the matriarch of the Bashir Family makes no secret that Scarlett simply doesn't measure up as a match for their eldest son. And the very people who made her feel part of the family now want nothing more than to see her gone for good. Including her former best friend. Will Scarlett and Dev's love survive against his intolerant mother's sabotage, her personal misfortunes and a dark life-changing secret he's kept simmering just under the surface? Or will Scarlett end up back where she started: facing her future utterly alone. As wolves, Isobel, her kin, and a Highland slave are on the run from her Icelandic clan and now they must find a way to live in peace without anyone discovering they are wolves or Vikings. Wearing traditional Icelandic clothes, sailing a Viking longboat, and speaking with a Nordic accent, it won't be easy. Alasdair is the wolf pack leader of his Highland clan, in the middle of adding fortifications to his castle. He spies what he thinks is a small Viking longboat—which can mean raiders and a fight. But what he discovers is two adult wolf females, a grown male, and a female and male bairn on their shores. He can't imagine the family making the treacherous journey to his land all on their own, but he's captivated by Isobel, the woman who led her people to what she hopes will be safety. Not everyone in his pack welcomes the Vikings living among them though. And Isobel is a wild and unpredictable woman, which fascinates him all the more.

Who am I? What can I know? What ought I do? We needed to work through the most important spiritual lessons which all of us must learn: love, passion, betrayal and forgiveness. There is always a wilderness in us. It's a very necessary, crucial and divine detour to bring us home after a lifetime of running away. Many of us always want to fast track our lives journey. Just because you failed at a relationship doesn't mean you are a failure. We have to pass through the wilderness before getting to the promise land. There are many stumbling objects on the path. Wilderness is a bleak, numbing word that instantly calls to mind a feeling of hopelessness, nothingness, barrenness and most of all, powerlessness. There's a reason that the biblical expression "the voice of the one crying in the wilderness" has come to mean abjection. You can wail and gnash your teeth all you want, but in the Wilderness no one hears your heart tearing asunder except God, who promises to be with you there. Ironically, according to ancient legend, the word Wilderness didn't conjure up a place of punishment, but rather a place of spiritual growth, understanding, healing and accomplishment. It referred to a wellspring of Divine energy in the guise of despair, hardship and pain; your experience in the Wilderness was designed to prepare or propel you toward your destiny. Or pry you loose from whatever is holding you from it. Still, one does not enthusiastically sign up for the Wilderness cure the way we might for a restorative spell at Mount Everest. It's a confidence-building week in a retreat camp. Instead, we are usually thrust into the Wilderness by horrific circumstances that not only challenge our souls but seriously call into question our belief in God. In life, the smarter you are, the more things can scare you but to fear is one thing, to let fear grab you around the tail and swing you around is another. What difference does it make if the things you're scared of are real? You need to navigate your way through fear to achieve your big dream. The Israelites of the Old Testament were lucky. They wandered in the wilderness for forty years. Most of us stumble through trial, terror and triumphs of life's terrain a lot longer, usually until we're ready to come face-to-face with the truth about ourselves. But we don't know we're worthy of success until we set out in search of it. In this book, you will also get the insight to: "Know when to say no"; "Live to fight another day"; "Success is progress"; "Dream big"; "Go the extra mile"; "Who is your role model"; "The down fall of a man"; "Life is a risk"; "Give me another chance"; "Don't give up"; "Pride Goes before a fall"; "Courage to excel"; "Dwelling in Possibilities"; Making a difference in a chaotic World and many more. Get your copy now and you will be glad you did. • There are moments that have made a difference in the trajectory of your life: the successes and failure that have shaped you; the loves and hates, gains and losses, promises and pain that have bound you; the risks and ruins, tumults and triumphs that set you on your path. This is a unique book indeed - Starlight Organization • Hon. George Adioni Sinclair says; learn how to say 'I am sorry' even if you are right. If the message offends you in one way or the other, I am sorry. My apologies. - Reverend George-Blessing

"We each have Skype accounts and use them to discuss [Moby-Dick] face to face. Once a week, we spread the worded whale out in front of us; we dissect its head, eyes, and bones, careful not to hurt or kill it. The Professor and I are not whale hunters. We are not letting the whale die. We are shaping it, letting it swim through the Web with a new and polished look."—Tito Mukhopadhyay Since the 1940s researchers have been repeating claims about autistic people's limited ability to understand language, to partake in imaginative play, and to generate the complex theory of mind necessary to appreciate literature. In *See It Feelingly* Ralph James Savarese, an English professor whose son is one of the first nonspeaking autistics to graduate from college, challenges this view. Discussing fictional works over a period of years with readers from across the autism spectrum, Savarese was stunned by the readers' ability to expand his understanding of texts he knew intimately. Their startling insights emerged not only from the way their different bodies and brains lined up with a story but also from their experiences of stigma and exclusion. For Mukhopadhyay *Moby-Dick* is an allegory of revenge against autism, the frantic quest for a cure. The white whale represents the autistic's baffling, because wordless, immersion in the sensory. Computer programmer and cyberpunk author Dora Raymaker skewers the empathetic failings of the bounty hunters in Philip K. Dick's *Do Androids Dream of Electric Sheep?* Autistics, some studies suggest, offer instruction in embracing the nonhuman. Encountering a short story about a lonely marine biologist in Antarctica, Temple Grandin remembers her past with an uncharacteristic emotional intensity, and she reminds the reader of the myriad ways in which people can relate to fiction. Why must there be a norm? Mixing memoir with current research in autism and cognitive literary studies, Savarese celebrates how literature springs to life through the contrasting responses of unique individuals, while helping people both on and off the spectrum to engage more richly with the world.
