By Antonio Tabucchi, one of the most renowned voices in European literature and the foremost Italian writer of his generation, The Woman of Porto Pim is made up of enchanting, hallucinatory fragments that take place on the Azores Islands off the coast of Portugal. Told by a visiting Italian writer unearthing legends, relics and histories of the inhabitants, the tales shed light on a local restaurant proprietress’s impossible love with an Azorean fisherman during WWII, a dazzling whaling expedition of eras past, shipwrecks both metaphorical and real, and a playful look at humankind from the perspective of a whale. From the Trade Paperback edition.

Now in its sixth edition, the Harbrace Handbook for Canadians remains the most comprehensive handbook for students. It provides the clearest explanations, the easiest-to-find information, the most up-to-date source documentation, and the greatest number of exercises. Freaturing, in turn, discussion on the punctuation marks, the sentence, the paragraph, and the essay, the Harbrace Handbook is authoritative on grammar and usage as well as the art and craft of the essay. Whatever the nature of a writing assignment, students rely on the Harbrace Handbook for the guidance they need to produce clear, correct, and well-argued work. The Harbrace Handbook now includes a free subscription to InfoTrac College Edition - a great resource for students preparing research papers. **What If? is the first handbook for writers based on the idea that specific exercises are one of the most useful and provocative methods for mastering the art of writing fiction. With more than twenty-five years of experience teaching creative writing between them, Anne Bernays and Pamela Painter offer more than seventy-five exercises for both beginners and more experienced writers. These exercises are designed to develop and refine two basic skills: writing like a writer and, just as important, thinking like a writer. They deal with such topics as discovering where to start and end a story; learning when to use dialogue and when to use indirect discourse; transforming real events into fiction; and finding language that both sings and communicates precisely. What If? will be an essential addition to every writer’s library, a welcome and much-used companion, a book that gracefully borrows a whisper from the muse.**

**The detailed, practical, step-by-step advice in this user-friendly guide will help students and researchers to communicate their work more effectively through the written word. Covering all aspects of the writing process, this concise, accessible resource is critically acclaimed, well-structured, comprehensive, and entertaining. Self-help exercises and abundant examples from actual typescripts draw on the authors’ extensive experience working both as researchers and with them. Whilst retaining the user-friendly and pragmatic style of earlier editions, this third edition has been updated and broadened to incorporate such timely topics as guidelines for successful international publication, ethical and legal issues including plagiarism and falsified data, electronic publication, and text-based talks and poster presentations. With advice applicable to many writing contexts in the majority of scientific disciplines, this book is a powerful tool for improving individual skills and an eminently suitable text for classroom courses or seminars.**

"At long last, a discussion of plagiarism that doesn't stop at 'Don't do it or else,' but does full justice to the intellectual interest of the topic!" ---Gerald Graff, author of Clueless in Academe and 2008 President, Modern Language Association This collection is a timely intervention in national debates about what constitutes original or plagiarized writing in the digital age. Somewhat ironically, the Internet makes it both easier to copy and easier to detect copying. The essays in this volume explore the complex issues of originality, imitation, and plagiarism, particularly as they concern students, scholars, professional writers, and readers, while also addressing a range of related issues, including copyright conventions and the ownership of original work, the appropriate dissemination of innovative ideas, and the authority and role of the writer/author. Throughout these essays, the contributors grapple with their desire to encourage and maintain free access to copyrighted material for noncommercial purposes while also respecting the reasonable desires of authors to maintain control over their own work. Both novice and experienced teachers of writing will learn from the contributors' practical suggestions about how to fashion unique assignments, teach about proper attribution, and increase students' involvement in their own writing. This is an anthology for anyone interested in how scholars and students can navigate the sea of intellectual information that characterizes the digital/information age. "Eisner and Vicinus have put together an impressive cast of contributors who cut through the war on plagiarism to examine key specificities that often get blurred by the rhetoric of slogans. It will be required reading not only for those concerned with plagiarism, but for the many more who think about what it means to be an author, a student, a scientist, or anyone who negotiates and renegotiates the meaning of originality and imitation in collaborative and information-intensive settings." ---Mario Biagioli, Professor of the History of Science, Harvard University, and coeditor of Scientific Authorship: Credit and Intellectual Property in Science "This is an important collection that addresses issues of great significance to teachers, to students, and to scholars across several disciplines. . . . These essays tackle their topics head-on in ways that are both accessible and provocative." ---Andrea Lunsford, Louise Hewlett Nixon Professor of English, Claude and Louise Rosenberg Jr. Fellow, and Director of the Program in Writing and Rhetoric at Stanford University and coauthor of Singular Texts/Plural Authors: Perspectives on Collaborative Writing digitalculturebooks is an imprint of the University of Michigan Press and the Scholarly Publishing Office of the University of Michigan Library dedicated to publishing innovative and accessible work exploring new media and their impact on society, culture, and scholarly communication. Written and peer reviewed by experts in practice and academia, the 19th edition of the Handbook of Nonprescription Drugs: An Interactive Approach to Self-Care is an authoritative resource for students and for health care providers who counsel and care for patients undertaking self-treatment;nonprescription drugs, nutritional supplements, medical foods, nondrug and preventive measures, and complementary therapies. Its goal is to develop the knowledge and problem-solving skills needed to assess a patient’s health status and current practice of self-treatment, to determine whether self-care is necessary or appropriate, and, if appropriate, to recommend safe and effective self-care measures.

"Deserves a place alongside George Orwell’s 'Politics and the English Language'. . . . one of the most important political books of this perilous summer." ---The Washington Post "A must-read"—Salon "Highly recommended"—Jack Shafer, Politico Featured in "The Best New Books to Read This Summer" and "Lit Hub’s Most Anticipated Books of 2020"—Literary Hub Historic levels of polarization, a disaffected and frustrated electorate, and widespread distrust of government, the news media, and traditional political leadership set the stage in 2016 for an unexpected, unlikely, and unprecedented presidential contest. Donald Trump’s campaign speeches and other rhetoric seemed on the surface to be simplistic, repetitive, and disorganized to many. As Demagogue for President shows, Trump’s campaign strategy was anything but simple. Political communication expert Jennifer Mercieca shows how the Trump campaign expertly used the common rhetorical techniques of a demagogue, a word with two contradictory definitions—"a leader who makes use of popular prejudices and false claims and promises in order to gain power" or "a leader championing the cause of the common people in ancient times" (Merriam-Webster, 2019). These strategies, in conjunction with post-rhetorical public relations techniques, were meant to appeal to a segment of an already distrustful electorate. It was an effective tactic. Mercieca analyzes rhetorical strategies such as argument ad hominem, argument ad baculum, argument ad populum, reification, paralipsis, and more to reveal a campaign that was morally repugnant to some but to others a brilliant appeal to American exceptionalism. By all accounts, it fundamentally changed the discourse of the American public sphere.

How to End Your Dependency on Cooked Food

**Why do we overeat time and time again? Why do we make poor diet choices while we want to be healthy? What makes losing weight so difficult? These and many other vital questions are addressed in 12 Steps to Raw Foods in an open and sincere dialogue. Based on the latest scientific research, Victoria Boutenko explains the numerous benefits of choosing a diet of fresh rather than cooked foods. This book contains self-tests and questionnaires that help the reader to determine if they have hidden eating patterns that undermine their health. Using examples from life, the author explores the most common reasons for people to make unhealthy eating choices. Rather**

than simply praising the benefits of raw foods, this book offers helpful tips and coping techniques to form and maintain new, healthy patterns. Learn how to make a raw food restaurant card that makes dining with co-workers easy and enjoyable. Discover three magic sentences that enable you to refuse your mother-in-law's apple pie without offending her. Find out how to sustain your chosen diet while traveling. These are only a few of the many scenarios that Boutenko outlines. Written in a convenient 12-step format, this book guides the reader through the most significant physical, psychological, and spiritual phases of the transition from cooked to raw foods. Embracing the raw food lifestyle is more than simply turning off the stove. Such a radical change in the way we eat affects all aspects of life. Boutenko touches on the human relationship with nature, the value of supporting others, and the importance of living in harmony with people who don't share the same point of view on eating. Already a classic, this enhanced second edition is aimed at anyone interested in improving their health through diet.

Introductory textbook and survey course on the general faith and practice of the Anglican Church, in ten lessons and with five appendices, including discussions of participation in an Anglican service, the "Via Media", the "Textus Receptus", canon law, and a final examination for confirmation.

Linda Nilson puts forward an innovative but practical and tested approach to grading--the specifications grading paradigm--which restructures assessments to streamline the grading process and greatly reduce grading time, empower students to choose the level of attainment they want to achieve, reduce antagonism between the evaluator and the evaluated, and increase student receptivity to meaningful feedback, thus facilitating the learning process - all while upholding rigor. In addition, specs grading increases students' motivation to do well by making expectations clear, lowering their stress and giving them agency in determining their course goals. Among the unique characteristics of the schema, all of which simplify faculty decision making, are the elimination of partial credit, the reliance on a one-level grading rubric and the "bundling" of assignments and tests around learning outcomes. Successfully completing more challenging bundles (or modules) earns a student a higher course grade. Specs grading works equally well in small and large class settings and encourages "authentic assessment." Used consistently over time, it can restore credibility to grades by demonstrating and making transparent to all stakeholders the learning outcomes that students achieve.

For over thirty years, the Oxford C. S. Lewis Society has met weekly in the medieval colleges of the University of Oxford. During that time, it has hosted as speakers nearly all those still living who were associated with the Inklings--the Oxford literary circle led by C. S. Lewis--as well as authors and thinkers of a prominence that nears Lewis's own. C. S. Lewis and His Circle offers the reader a chance to join this unique group. Roger White has worked with Society past presidents Brendan and Judith Wolfe to select the most important talks, which are here made available to the wider public for the first time. They exemplify the best of traditional academic essays, thoughtful memoirs, and informal reminiscences about C. S. Lewis and his circle. The reader will reimagine Lewis's Cosmic Trilogy with former Archbishop of Canterbury Rowan Williams, read philosopher Elizabeth Anscombe's final word on Lewis's arguments for Christianity, hear the Reverend Peter Bide's memories of marrying Lewis and Joy Davidman in an Oxford hospital, and learn about Lewis's Narnia Chronicles from his former secretary. Representing the finest of both personal and scholarly engagement with C. S. Lewis and the Inklings, the talks collected here set a new tone for engagement with this iconic Oxford literary circle--a tone close to Lewis's own Oxford--bred sharpness and wryness, seasoned with good humor and genuine affection for C. S. Lewis and his circle.
