David S. Riley's interest in the history, methodology and results of homeopathic drug provings began with his exposure to homeopathy in 1988 and his later study at the Hahnemann College of Homeopathy in Albany, California. The homeopathic drug provings published here are the result of his investigation of the research methods associated with homeopathic drug provings and contemporary research methodology. Dr. Riley has developed explicit and transparent research tools for (1) symptom selection criteria, (2) electronic data collection, and (3) blinding to reduce bias. These homeopathic drugs provings follow good clinical practice research guidelines (GCP) and incorporate the guidelines suggested by Dr. Samuel Hahnemann more than 200 years ago

Dr E A Farrington's Clinical Materia Medica is over 100 years old, and what a gem it is. Though it is a very nicely written book, it is not as popular as Kent's Lectures on Materia Medica. B Jain have revamped this jewel.

This book is based on 30 years of experience as a clinician and teacher. The subject is the most important part for a successful practice. The Materia Medica is a vast ocean and the symptoms under each remedy innumerable. As said by Dr Kent, "All who would memorise the Materia Medica must ignominiously fall". In this book author has tried to cope up with the shortcomings in grasping the Materia Medica.

The salient features of this edition are: Constitutional, specific, biochemic and pathological indications; Dosage, repetition and duration of action; Relationship of remedies; Comparison with other remedies; Causes and disease complaints and characteristics; Generals and modalities.

Excerpt from Manual of Homoeopathic Medicine, Vol. 1: Part First, Materia Medica, or a Summary of the Homoeopathic Medicine, With Clinical Observations As We have been especially desirous to make it a practical resume, we have quoted for each one of our indications the authority on which it rests. The original Materia Medica should contain all accessory details, and as that which the French Homeopaths possess does not contain one half the facts we have contributed, we propose to publish hereafter, in addition to our Manual, a much more explicit and voluminous work, which, besides the Observations contained

in the works of hahnemann, shall give all those of other Homeopathic physicians, as well as our own, in detail. We anticipate the accomplishment of this project when the voice of the Homeopathic physicians shall render it possible by their support; and indeed, this large work would have been published before this, if the time required for its execution would not have too far postponed the publication of this Manual, which we have so long promised to the French physicians. The study of 'sarcodes is one of the most greyarea of homeopathic materia medica, which has not yet been thoroughly explored. Most of the sarcodes are not proved as per standard guidelines of Dr Hahnemann nor majority of them been clinically verified. On scrutiny of the available literature on sarcodes, a lot of differences and contradictions are witnessed which lead to confuson in the minds of the readers, particularly in respect to their sources, preparation, clinical applicability, effective potencies and doses etc., There is no clarity whether sarcodes should be earmarked as a separate class of 'animal kingdom'. Moreover the signs and symptoms of each sarcode are not documented uniformly in different homoeopathic Materia Medicas, which naturally confounds the readers.
