Robert F. Sibert Medal Winner Take to the sky with Apis, one honeybee, as she embarks on her journey through life! An Orbis Pictus Honor Book Selected for the Texas Bluebonnet Master List Finalist for the AAAS/Subaru SB&F Prize for Excellence in Science Books A tiny honeybee emerges through the wax cap of her cell. Driven to protect and take care of her hive, she cleans the nursery and feeds the larvae and the queen. But is she strong enough to fly? Not yet! Apis builds wax comb to store honey, and transfers pollen from other bees into the storage. She defends the hive from invaders. And finally, she begins her new life as an adventurer. The confining walls of the hive fall away as Apis takes to the air, finally free, in a brilliant double-gatefold illustration where the clear blue sky is full of promise-- and the wings of dozens of honeybees, heading out in search of nectar to bring back to the hive. Eric Rohmann's exquisitely detailed illustrations bring the great outdoors into your hands in this poetically written tribute to the hardworking honeybee. Award-winning author Candace Fleming describes the life cycle of the honeybee in accessible, beautiful language. Similar in form and concept to the Sibert and Orbis Pictus award book Giant Squid, Honeybee also features a stunning gatefold and an essay on the plight of honeybees. Cook Prize Honor Book A Kids' Book Choice Award Finalist An American Library Association Notable Children's Book A New York Public Library Best Book of the Year Named a Best Book of the Year by Kirkus Reviews, NPR, Shelf Awareness, School Library Journal, Publishers Weekly and more! The Sewists

The sewists are a new breed of designer-makers. From jewellery to bookbinding, felt craft to embroidery, screen-print to dressmaking, they

encompass all areas of art and craft, and often combine techniques in new ways. Author and fellow sewist Josephine Perry has interviewed 19 designers about their working life and inspiration, and persuaded each one to part with a project for readers to make. Projects include a cameo brooch using freehand machine embroidery, a fun fur and felt creature, a circus troupe decoration, block-printed napkins, subversive cross stitch and many more. Each project is clearly explained and includes step-by-step illustrations and specially commissioned photographs of the finished piece. Also included is a CD containing templates, stitch charts and a blouse pattern – everything you need to complete the projects in the book. Anyone who enjoys sewing and crafts, and can use a sewing machine, will relish *The Sewists*.

This groundbreaking handbook is a resource for artists, community activists and anyone wishing to reach beyond the facts and figures of science and technology to harness their creativity to make change in the world. This timely book explores the pivotal role artists play in re-thinking the future; re-inventing and re-imagining our world at a time of systemic change and uncertainty. *Playing for Time* identifies collaborative arts practices emerging in response to planetary challenges, reclaiming a traditional role for artists in the community as truth-tellers and agents of change. Sixty experienced artists and activists give voice to a new narrative – shifting society's rules and values away from consumerism and commodity towards community and collaboration with imagination, humour, ingenuity, empathy and skill. Inspired by the grass-roots Transition movement, modelling change in communities worldwide, *Playing for Time* joins the dots between key drivers of change – in energy, finance, climate change, food and community resilience – and 'recipes for action' for readers to take and try. Praise for *Playing for Time*... 'This book is full of wings – wings that are ancient practices, that are community, arts, modernity, wings of global learning for local concerns. Lucy Neal's anthology of possibility offers a salmagundi of thought, knowledge, options and hope. It's all here. An almanac to dip into and then create – in the kitchen and the window box and the garden, locally, in community, regionally, nationally, globally. The seeds of change are in us. This is a book to help us grow.' Stella Duffy, author and founder of Fun Palaces 'It's so important that the role of artists in making change is being systematically and beautifully addressed. *Playing for Time*, holds the keys to the possibility of transformative action.' Bill McKibben, environmentalist and founder of 350.org 'A remarkable book that pulls no punches. It's most enduring image is the poignant flock of passenger

pigeons, drawn in sand on Llangrannog beach in 2014, the 100th anniversary of their extinction. It's an image that will not leave my mind: a message of loss, but also of hope, from which we must, and can, learn.' Dame Fiona Reynolds, Chair of the Green Alliance *"Barren art", Kandinsky wrote, "is the child of its age". But prophetic, powerful art is the "mother of the future". A better world will be born of such art, and Lucy Neal's wonderful cornucopia should beat the elbow of everyone helping in its midwifery.'* Tom Crompton, Common Cause Foundation WWF *'A total delight'* Rob Hopkins, Co-founder Transition Movement *'A hand-book for life'* Rose Fenton, Director Free Word. *'A remarkable achievement'* Neil Darlison, Arts Council England *'Beautiful from the first sentence'* Laura Williams *'Deeply nourishing'* Mike Grenville *'A beauty of a book'* James Marriott, Platform
