"Excellent." The Economist "A gripping account." South China Morning Post "Well worth reading." The Morning Star "A persuasive and readable narrative." History Today "Elegantly written." The Tablet "An excellent study." The Chartist "Engaging." Asia Times The events of 1949 in China reverberated across the world and throughout the rest of the century. That tumultuous year saw the dramatic collapse of Chiang Kai-shek's 'pro-Western' Nationalist government, overthrown by Mao Zedong and his communist armies, and the foundation of the People's Republic of China. China 1949 follows the huge military forces that tramped across the country, the exile of once-powerful leaders and the alarm of the foreign powers watching on. The well-known figures of the Revolution are all here. But so are lesser known military and political leaders along with a host of 'ordinary' Chinese citizens and foreigners caught in the maelstrom. They include the often neglected but crucial role played by the 'Guangxi faction' within Chiang's own regime, the fate of a country woman who fled her village carrying her baby to avoid the fighting, a prominent Shanghai business man and a schoolboy from Nanyang, ordered by his teachers to trek south with his classmates in search of safety. Shadowing both the leaders and the people of China in 1949, Hutchings reveals the lived experiences, aftermath and consequences of this pivotal year -- one in which careers were made and ruined, and popular hopes for a 'new China' contrasted with fears that it would change the country forever. The legacy of 1949 still resonates today as the founding myth, source of national identity and root of the political behaviour of modern China. Graham Hutchings has written a vivid, gripping account of the year in which China abruptly changed course, and pulled the rest of world history along with it.

Listing by companies from one country on the stock market of another country is a device often used both to raise capital in, and to increase bonding with, the target country. This book examines the listing by Chinese companies on the Hong Kong stock market. It discusses the extent of the phenomenon, compares the two different regulatory regimes, and explores the motivations for the cross-listing. It argues that a key factor, in addition to raising capital and bonding with the Hong Kong market, is Chinese companies' desire to encourage legal and regulatory reforms along Hong Kong lines in mainland China, in order to develop and open up China's domestic capital markets.

This book explains the key aspects of executing an international IPO. Packed with useful tips, it reviews rules and market practices from the US to Europe, the Middle East, and the Asia-Pacific region. Real-life case studies are used to illustrate all aspects of conducting an IPO, including documentation, valuation, as well as marketing issues. This new edition has been the subject of a complete and detailed revision, including new information pertaining to market developments. Some topics, such as spin-off offerings, SPACs, listing requirements, and due diligence have also been further expanded while some 15 additional IPOs have been included as examples to illustrate various aspects of new offerings. It is most suitable for entrepreneurs, chief executives, and CFOs of companies about to be floated, investor relations professionals, family offices, private equity, hedge fund and institutional investors, and finance students. It will also be of interest to market practitioners such as investment bankers in mergers and acquisitions, corporate finance, or equity capital markets departments, private bankers, as well as equity salespeople, traders, and research analysts. The book will appeal to those generally interested in financial markets and equity capital markets in particular. 'IPOs remain one of the most fascinating aspects of financial markets, but also one of its least understood. Espinasse has written a must-read primer for anyone interested in how IPOs work and what makes for a successful one. Read this book—and learn from one of the best.' –Herald van der Linde, CFA, chief Asia equity strategist at HSBC and author of Asia Stock Markets: From the Ground Up 'This third edition of IPO: A Global Guide provides a very readable, in-depth, and extremely well-structured guide and roadmap to the complex world of IPOs. It is laced with examples from across many markets and provides excellent practical advice and guidance on all aspects of the IPO process based on the author's substantial experience.' –Mike Trippitt, founder of Michael Joseph Consulting and banking expert 'A clear guide for anyone in the business of IPOs. It breaks down a complex subject into something simple and concise.' –Narayanan Somasundaram, regional finance editor of Nikkei Asia

" An interactive and empowering book " to help African American men and women create a new vision of better health and navigate the health care system (BET.com). According to the federal Office of Minority Health, African Americans " are affected by serious diseases and health conditions at far greater rates than other Americans. " In fact, African Americans suffer an estimated 85,000 excess deaths every year from diseases we know how to prevent: heart disease, stroke, cancer, high blood pressure, and diabetes. In this important and accessible book, Dr. Michelle Gourdine provides African Americans with the knowledge and guidance they need to take charge of their wellbeing. Reclaiming Our Health begins with an overview of the primary health concerns facing African Americans and explains who is at greatest risk of illness. Expanding on her career and life experiences as an African American physician, Dr. Gourdine presents key insights into the ways African American culture shapes health choices—how beliefs, traditions, and values can influence eating choices, exercise habits, and even the decision to seek medical attention. She translates extensive research into practical information and presents readers with concrete steps for achieving a healthier lifestyle, as well as strategies for navigating the health-care system. This interactive guide with illustrations is a vital resource for every African American on how to live a healthier and more empowered life, and an indispensable handbook for health-care providers, policy makers, and others working to close the health gap among people of color. Says Gourdine, " I wrote this book to empower our community to solve our own health problems and save our own lives. "
