***A powerful coming-of-age novel pulled from personal experience about the meaning of friendship, the joyful beginnings of romance, and the racism and religious intolerance that can both strain a family to the breaking point and strengthen its bonds. Growing up in an affluent suburb of New York City, sixteen-year-old Nevaeh Levitz never thought much about her biracial roots. When her Black mom and Jewish dad split up, she relocates to her mom's family home in Harlem and is forced to confront her identity for the first time. Nevaeh wants to get to know her extended family, but because she inadvertently passes as white, her cousin thinks she's too privileged, pampered, and selfish to relate to the injustices African Americans face on a daily basis. In the meantime, Nevaeh's dad decides that she should have a belated bat mitzvah instead of a sweet sixteen, which guarantees social humiliation at her posh private school. But rather than take a stand, Nevaeh does what she's always done when life gets complicated: she stays silent. Only when Nevaeh stumbles upon a secret from her mom's past, finds herself falling in love, and sees firsthand the prejudice her family faces that she begins to realize she has her own voice. And choices. Will she continue to let circumstances dictate her path? Or will she decide once for all who and where she is meant to be? This self-help book is based on the true story of what happened to me; it will help you and your family spot a con in time. It will assist you in the awareness of what you should look out for before it's too late. In reality, it becomes a domino effect that you lose all your money, lifestyle, family, dignity and self-respect. Knowing how to gain insight of what to look for will help you regain your life and save you from a world of betrayal and loneliness. Because of my inquisitive nature, I needed to know how he did this, and why it happened to me. Many people, mostly family, wanted to understand and help but became lost and unaware, only to find out the truth when it was too late. When this all started happening to me I felt empowered and capable of doing anything. My emotions were high; I was in love and felt like I could achieve anything, do anything, get whatever I wanted. I felt high on life. I never realized how unhappy I was with my life and how lonely I really was. But it came crashing down hard, leaving me devastated, broke, and alone. My family changed how they felt about me; I became labeled because in reality they felt robbed and cheated because of what the con did. They didn't know how to handle the pain and rejection, because I became someone they didn't know and the impact was traumatic and devastating. I feel it is my duty to stop you from making the same mistake I made. It's surmountable and very lonely when you end up losing yourself, money, and your family in a blink of an eye. I guarantee it will happen if you do not look at the warning signs, and as hard as it was for me to write this book, I had to, because I believe that your life is worth saving. You deserve better than what the con is playing you for, because the outcome is that you end up feeling like a fool. You deserve better and I don't want what happened to me to happen to you. I never felt so empty, vulnerable, and alone, and sadly, when you are conned on the internet-even though at the time you think you're a princess or queen or a king in a fairy tale-you keep going. You don't want it to stop. I don't want you to believe every word they say. Then one day what you perceived to be real with all your heart and soul becomes a darkness, a shadow that will haunt you with great remorse and suffering. I wanted you to see how hard you will or could fall if you don't stop, if you don't look for signs and warnings that it will be too late. You will lose yourself if you don't. My hope is that you will try to find out what these signs are before you become a victim of a terrible crime, because that is what it is: a crime, without any chance of ever seeing a cent of your money again. Everything you have, gone. The worst part is what it does to your family. I was never a materialistic person, but I love my family with all my heart, and the fact that this happened and how they feel about me has crushed my spirits and left a hole in my heart. I just pray that you take time to think about the actions of what it will do to you if you don't look at the ramifications. Take the time to look at the consequences before it is too late, before you lose the most precious thing you have in this world: your family. I wanted to create a self-help book to give you the knowledge to grow and become aware of what is really happening. I was naïve. I want you to have a better chance at life that the one I live in now. In closing, I don't what you to live in the darkness, I want you to live in the light, and most of all I don't want you to get conned. I want you to have the foresight and knowledge to be able to see past what I would have loved to have known before this happened to me. You deserve better, remember that.

**NEW YORK TIMES BESTSELLER ONE OF TIME'S 100 BEST BOOKS OF THE YEAR** Sex and the City meets Bad Blood and Catch Me if You Can in the astonishing true story of Anna Delvey, a young con artist posing as an heiress in New York City—as told by the former Vanity Fair photo editor who got seduced by her friendship and then scammed out of more than \$62,000. Rachel DeLoache Williams's new friend Anna Delvey, a self-proclaimed German heiress, was worldly and ambitious. She was also generous—picking up the tab for lavish dinners at Le Coucou, infrared sauna sessions at HigherDOSE, drinks at the 11 Howard Library bar, and regular workout sessions with a celebrity personal trainer. When Anna proposed an all-expenses-paid trip to Marrakech at the five-star La Mamounia hotel, Rachel jumped at the chance. But when Anna's credit cards mysteriously stopped working, the dream vacation quickly took a dark turn. Anna asked Rachel to begin fronting costs—first for flights, then meals and shopping, and, finally, for their \$7,500-per-night private villa. Before Rachel knew it, more than \$62,000 had been charged to her credit cards. Anna swore she would reimburse Rachel the moment they returned to New York. Back in Manhattan, the repayment never materialized, and a shocking pattern of deception emerged. Rachel learned that Anna had left a trail of deceit—and unpaid bills—wherever she'd been. Mortified, Rachel contacted the district attorney, and in a stunning turn of events, found herself helping to bring down one of the city's most notorious con artists. With breathless pacing and in-depth reporting from the person who experienced it firsthand, My Friend Anna is an unforgettable true story of “glamour, greed, lust for power” (The New York Times), and female friendship.

When she joined a spiritual organization in an attempt to regain control of her life, Karen Jonson had no clue that she would one day become a Hindu nun living in the US ashram of two men she called her gurus. She certainly never guessed that both of them would turn out to be conmen and that she would expose their dark secrets to the world. But that is exactly what happened. Her mission led her in several directions - including approaching an investigative reporter and an FBI agent, organizing a group of ex-devotees to support the gurus' victims, sharing insider information with prosecuting attorneys, and using social media to expose the organization.Sex, Lies and Two Hindu Gurus chronicles a world that is spoken of only in hushed whispers. It exposes the twisted goings-on inside the dubious spiritual cult she was part of and gives readers a rare insight into a dangerous con game. The perversions the gurus indulged in, how they preyed upon the vulnerabilities of their followers, swindled them and ruined their lives, and why no one has stopped the fake gurus from sexually violating underage girls - every detail comes under scrutiny. It is a thriller comparable to any piece of fiction. It is also a crime drama, and a cautionary tale for people seeking to connect with the divine.

When Vannevar Bush, Franklin D. Roosevelt's chief scientific adviser, sat down in 1945 to write a magazine article about the future, he had no idea what he was beginning. Bush's vision of a desktop computer that would contain all of human knowledge inspired the scientists who built the Internet. In the early 1990s, when a British computer programmer devised the World Wide Web and an Illinois student invented an easy-to-use Web browser, the Internet was transformed from a scientific curiosity into the biggest gold rush since the Klondike. In Dot.con, John Cassidy, one of the country's leading financial journalists and a staff writer at the New Yorker, relates the stories of Netscape, Yahoo!, America Online, Amazon.com, and other Internet companies, large and small. In a lively and entertaining narrative, Cassidy traces the rise of Internet stocks and the development of a populist stock market culture to the end of the Cold War. He shows how an unscrupulous alliance of entrepreneurs such as Jeff Bezos, venture capitalists such as John Doerr, stock analysts such as Mary Meeker, and investment bankers such as Frank Quattrone helped turn an exciting technological development into an unstable and dangerous speculative bubble. Cassidy doesn't restrict his attention to Silicon Valley and Wall Street. He demonstrates how many prominent journalists and policy makers helped to expand and prolong the bubble, particularly Alan Greenspan, the chairman of the Federal Reserve. But in the end, Cassidy concludes, responsibility for the Internet boom and bust cannot be placed on any one individual. It was a nationwide epizootic that involved tens of millions of Americans. And now that it is over, the country as a whole is paying a heavy price for succumbing to greed and wishful thinking. An artful blend of storytelling, history, and economics, Dot.con provides the first complete and authoritative account of the biggest financial story of the modern era.

*"It's a startling and disconcerting read that should make you think twice every time a friend of a friend offers you the opportunity of a lifetime."*—Erik Larson, #1 New York Times bestselling author of *Dead Wake* and bestselling author of *Devil in the White City* *Think you can't get conned? Think again. The New York Times bestselling author of Mastermind: How to Think Like Sherlock Holmes explains how to spot the con before they spot you. "[An] excellent study of Con Artists, stories & the human need to believe"*—Neil Gaiman, via Twitter *A compelling investigation into the minds, motives, and methods of con artists—and the people who fall for their cons over and over again. While cheats and swindlers may be a dime a dozen, true conmen—the Bernie Madoffs, the Jim Bakkers, the Lance Armstrongs—are elegant, outsized personalities, artists of persuasion and exploiters of trust. How do they do it? Why are they successful? And what keeps us falling for it, over and over again? These are the questions that journalist and psychologist Maria Konnikova tackles in her mesmerizing new book. From multimillion-dollar Ponzi schemes to small-time frauds, Konnikova pulls together a selection of fascinating stories to demonstrate what all cons share in common, drawing on scientific, dramatic, and psychological perspectives. Insightful and gripping, the book brings readers into the world of the con, examining the relationship between artist and victim. The Confidence Game asks not only why we believe con artists, but also examines the very act of believing and how our sense of truth can be manipulated by those around us.*

*"Hype is the best kind of nonfiction: juicy, sharp, savage and wildly entertaining, with a celebrity behaving badly on every page. What more could you want?"* -Cat Marnell, New York Times-bestselling author of *How to Murder Your Life* *From former Vice journalist and executive producer of hit Netflix documentary Fyre comes an eye-opening look at the con artists, grifters and snake oil salesmen of the digital age—and why we can't stop falling for them. We live in an age where scams are the new normal. A charismatic entrepreneur sells thousands of tickets to a festival that never happened. Respected investors pour millions into a start-up centered around fake blood tests. Reviewers and celebrities flock to London's top-rated restaurant that's little more than a backyard shed. These unsettling stories of today's viral grifters have risen to fame and hit the front-page headlines, yet the curious conundrum remains:*

*Why do these scams happen? Drawing from scientific research, marketing campaigns, and exclusive documents and interviews, former Vice reporter Gabrielle Bluestone delves into the irresistible hype that fuels our social media ecosystem, whether it's from the trusted influencers that peddled Fyre or the consumer reviews that sold Juicero. A cultural examination that is as revelatory as it is relevant, Hype pulls back the curtain on the manipulation game behind the never-ending scam season—and how we as consumers can stop getting played.*

*How and Why I Conned the Bookies is the true story of a gambler out of control. Author Jason Haddigan spent much of his life on the road, scamming bookmakers to fuel a gambling addiction that simply meant him returning virtually every penny in lost bets. It is a roller-coaster story that begins on England's south coast as a child feeding fruit machines with pocket money and only ends following his extradition from the USA after playing and losing in the casinos of Las Vegas. In-between are his daunting accounts of a chaotic early life in the shadow of his father, also an inveterate gambler one.*

*We are profoundly social creatures--more than we know. In Social, renowned psychologist Matthew Lieberman explores groundbreaking research in social neuroscience revealing that our need to connect with other people is even more fundamental, more basic, than our need for food or shelter.*

*Because of this, our brain uses its spare time to learn about the social world--other people and our relation to them. It is believed that we must commit 10,000 hours to master a skill. According to Lieberman, each of us has spent 10,000 hours learning to make sense of people and groups by the time we are ten. Social argues that our need to reach out to and connect with others is a primary driver behind our behavior. We believe that pain and pleasure alone guide our actions. Yet, new research using fMRI--including a great deal of original research conducted by Lieberman and his UCLA lab--shows that our brains react to social pain and pleasure in much the same way as they do to physical pain and pleasure. Fortunately, the brain has evolved sophisticated mechanisms for securing our place in the social world. We have a unique ability to read other people's minds, to figure out their hopes, fears, and motivations, allowing us to effectively coordinate our lives with one another. And our most private sense of who we are is intimately linked to the important people and groups in our lives. This wiring often leads us to restrain our selfish impulses for the greater good. These mechanisms lead to behavior that might seem irrational, but is really just the result of our deep social wiring and necessary for our success as a species. Based on the latest cutting edge research, the findings in Social have important real-world implications. Our schools and businesses, for example, attempt to minimize social distractions. But this is exactly the wrong thing to do to encourage engagement and learning, and literally shuts down the social brain, leaving powerful neuro-cognitive resources untapped. The insights revealed in this pioneering book suggest ways to improve learning in schools, make the workplace more productive, and improve our overall well-being.*

*The uproarious, bestselling true story of the world's most sought-after con man, immortalized by Leonardo DiCaprio in DreamWorks' feature film of the same name, from the author of Scam Me If You Can. Frank W. Abagnale, alias Frank Williams, Robert Conrad, Frank Adams, and Robert Monjo, was one of the most daring con men, forgers, imposters, and escape artists in history. In his brief but notorious criminal career, Abagnale donned a pilot's uniform and copiloted a Pan Am jet, masqueraded as the supervising resident of a hospital, practiced law without a license, passed himself off as a college sociology professor, and cashed over \$2.5 million in forged checks, all before he was twenty-one. Known by the police of twenty-six foreign countries and all fifty states as "The Skywayman," Abagnale lived a sumptuous life on the lam--until the law caught up with him. Now recognized as the nation's leading authority on financial foul play, Abagnale is a charming rogue whose hilarious, stranger-than-fiction international escapades, and ingenious escapes--including one from an airplane--make Catch Me If You Can an irresistible tale of deceit.*

Nominated for a 2017 Anthony Award, BEWARE THE SHILL concludes this thrilling trilogy from Shamus Award-winning author John Shepphird.
