paragraph reading passages were specifically written to aid students in “Making an Inference.” **SPECIFIC SKILL: INFERENCE** Making an inference is one of the more challenging comprehension skills. Students must add their own knowledge and experience to what has been read. It’s a higher-level, critical-thinking skill. Making an inference is basically making an educated guess based on what you know and what you’ve read. **READING PASSAGES** Each card has four, short, one-paragraph reading passages. The reading passages are written in such a way that students should be able to make an educated guess about what the text infers. The reading passages are arranged in ascending order. The progression allows

### **The Stranger**

The acclaimed novel of love, ambition, and Arctic adventure “told with fin de siècle elegance”—with an introduction by Philip Pullman (Kirkus Reviews). It is July 1897, at the northernmost reach of the inhabited world. Swedish inventor Gustav Crispin is determined to become the first person to set foot on the North Pole, and return, borne by hot air balloon. Making the expedition with two companions—an American journalist and a young, French-speaking adventurer—all three climb into the small wicker gondola and cuts the ropes. But as Gustav pursues his history-making ambition, and their flimsy balloon is battered by Arctic winds, his mind returns again and again

## File Type PDF How To Answer Inference Questions

to his fraught romance with the beautiful Luisa. Nominated for the National Book Award in 1977, *The Balloonist* was hailed by Mary Renault as a “tour de force.” The story of Gustav Crispin is “chilling and comic by turn . . . An unusual mixture of Arctic adventure and Parisian love story with philosophic overtones” (Kirkus Reviews).

A strange glowing stone picked up on a sea voyage captivates a ship's crew and has a terrible transforming effect on them.
