"Dr. Allison McWilliams has hit the nail right on the head and provides focused, effective and actionable ideas for recent college grads who are getting too much inspiration and too little useable help addressing the substantial challenge of building their lives after college. Much of the literature for this audience patronizingly over-compliments them ("You are amazing and can do anything ') or over-criticizes them ("Today's young adults are so entitled - they're

impossible "). Neither of these categorizations is accurate or helpful - quite the opposite. Dr. McWilliams distills her substantial experience in working in some of the most advanced career-preparatory institutions in the country well by picking five key areas for grads to focus their efforts in building a life they own and can love. Her assessments of what's needed directly complements our decade-plus of work in the Stanford Life Design Lab. Her counsel spans the wide swath of necessary critical skills ranging from forming deep habits of personal reflection to navigating the tactical constraints of that tough first job out of college many grads will get. She tells it like it is without making

After studying it, too, you'll be prepared for interviews, or you will be after you conducted the practice sessions where someone sits and asks you potential questions. It makes you think on your feet! This book makes a world of difference in helping you stay away from vague and long-winded answers and you will be finally able to connect with prospective employers, including the one that will actually hire you. This book successfully challenges conventional job search wisdom and doesn't load you with

useful but obvious suggestions ('don't forget to wear a nice suit to your interview,' for example). Instead, it deliberately challenges conventional job search wisdom, and in so doing, offers radical but inspired suggestions for success. Think that 'companies approach hiring with common sense, logic, and good business acumen and consistency?' Think that 'the most qualified candidate gets the job?' Think again! Time and again it is proven that finding a job is a highly subjective business filled with innumerable variables. The triumphant jobseeker is the one who not only recognizes

The purpose of Your First Interview is to ease anxiety at a time that's usually characterized by sweaty palms and pounding hearts. Whether unemployment is at a record high or record low and the country's at war or at peace- these factors have little to do with the task at hand- the fact that the reader is facing their very first job interview and they need to get ready.

Too often, we fail to receive the coaching that we need to succeed in the workplace. Instead, we are left to figure it out for ourselves, learning by trial and error in a competitive and sometimes cutthroat world. In Indispensable, leadership development expert Meredith Whipple Callahan outlines how employees early in their careers can maximize their potential in the workplace.

## Download Free How To Get Your First Job And Build The Career You Want Over 100 Tips And Hints And A Clear Practical Step By Step Guide To Finding Your First Job And Building On It To Achieve An Amazing Career

Drawing from her own experiences and those of other high performers, Callahan offers sophisticated and pragmatic advice to help you to start strong in your career, increase productivity, and build professional development. With the tools in this book, you will learn how to raise issues in a direct and diplomatic way, contribute beyond your formal role, and communicate effectively by bringing context, purpose, and structure. Altogether, Indispensable gives a comprehensive view into what allows employees to excel and become indispensable to their organizations. For employees in the first decade of their careers, it is nothing short of required reading.
