*Are you hungry to help others through leadership but don't feel like you have the authority? One of the greatest myths of leadership is that you must be in charge in order to lead. Great leaders don't buy it. Great leaders--whether they have the official authority or not--learn how to be an influential presence wherever they are. In *How to Lead When You're Not in Charge*, author and pastor Clay Scroggins explains the nature of leadership and what's needed to be a great leader--even when you answer to someone else. Drawing from biblical principles and his experience as the lead pastor of Buckhead Church in Atlanta, Georgia, Clay will help you nurture your vision and cultivate influence with integrity and confidence, even when you lack authority in your organization or ministry. In this book, Clay will walk you through the challenge of leadership and the four basic behaviors all great leaders have and how to cultivate them: Leading yourself Choosing positivity Thinking critically Rejecting passivity With practical wisdom and humor, Clay Scroggins will help you free yourself to become the great leader you want to be so you can make a difference. Even when you're not in charge.*

----- *"This book will be one of the most, if not the most, pivotal leadership books you'll ever read." - Andy Stanley "If you're ready to lead right where you are, this book can show you how to start." - Dave Ramsey "Read this book! The marketplace is full of leadership messages, but this one is a stand out." - Louie Giglio*

*role players and faceless bureaucrats. What does it take to be a real leader—one who is confident in who she is and what she stands for, and who truly inspires people to achieve extraordinary results? Rob Goffee and Gareth Jones argue that leaders don't become great by aspiring to a list of universal character traits. Rather, effective leaders are authentic: they deploy individual strengths to engage followers' hearts, minds, and souls. They are skillful at consistently being themselves, even as they alter their behaviors to respond effectively in changing contexts. In this lively and practical book, Goffee and Jones draw from extensive research to reveal how to hone and deploy one's unique leadership assets while managing the inherent tensions at the heart of successful leadership: showing emotion and withholding it, getting close to followers while keeping distance, and maintaining individuality while "conforming enough." Underscoring the social nature of leadership, the book also explores how leaders can remain attuned to the needs and expectations of followers. Why Should Anyone Be Led By You? will forever change how we view, develop, and practice the art of leadership, wherever we live and work. Let's face it. In this chaotic world of teams, matrix management, and horizontal organizations, it's tougher than ever to get things done. How do you lead when you're not the one in charge? How can you be effective when joint action is needed? You need an edge in order to reach solutions and effectively work with others.*

**Personal relationships are the real bedrock of long-term success in any business and any industry. But in today's global economy, forging bonds across cultural divides requires a heightened level of sensitivity. In You Can't Lead with Your Feet on the Desk, the leader of Marriott International Lodging, Ed Fuller, delivers real-world advice on how to connect with, manage, and do business with people in any culture, including employees, suppliers, and customers who often have roots in other cultures. Fuller, who grew Marriott's international business from sixteen hotels in six countries to 400 properties in seventy countries, explains how to navigate cultural nuances and**

language differences, unfamiliar geography, and frustrating bureaucracy. Building trust, shared values, and commitment to a business partnership is harder in cross-cultural situations, but it can and must be done if you want to be successful in today's world. No matter the country or community, relationships are the currency of every culture. Fuller explains how to build these relationships, how to discover the other person's interests and needs—and why you have to get your feet off the desk, cross the cultural borders, and go meet them in the context in which they're most comfortable. Fuller prepares you for this journey with guiding principles for avoiding missteps and for creating lasting connections crucial to every business leader: Build relationships through mutual respect Earn trust quickly by delivering during a crisis Understand how verbal and nonverbal cues can make or break a deal Lead from the front and be willing to give yourself the tough jobs Learn the local customs and history in order to create positive relationships Your skills at forming and maintaining close ties with associates and partners give you the competitive advantage. So, ditch the desk, and learn how to overcome differences in today's multicultural business environment. "This is a must-read! **"What makes a leader? Can you really learn to lead? You might think that leaders need to be born with the right skills or personality attributes. Perhaps you believe you don't have the right experience or that you need to hold an important job to be a leader. Maybe you believe you need permission to lead. As Harvard Business School professor and business executive Robert Steven Kaplan explains in this powerful new book, leadership is accessible to all of us-today-and it starts with an ownership mind-set. You don't need an invitation to lead. Leadership is a dynamic way of thinking and acting that anyone can take on. For Kaplan, acting as a leader is a function of three key questions: 1. Do you work to figure out what you believe as if you were an owner? 2. Do you take action based on those beliefs? 3. Do you focus on adding value to others and take responsibility for the impact of your actions on others-both positive and negative? The book is full of stories taken from the author's own leadership experience as well as from his work helping various types of leaders and organizations. What's revealed is that leadership is not a role reserved for an**

**elite few blessed with the right skills and key positions-it's about a focus on taking ownership and adding value to others. What's more, leadership is a lifelong journey of learning for which you must take responsibility. It's about learning to ask the right questions and learning to understand yourself. As in his earlier books, Kaplan asks probing questions, provides exercises, and suggests follow-up steps that will help you develop your skills, create new habits, and move you toward reaching your unique potential. *Leadership and engagement expert Mark C. Crowley shows how trading in the old business playbook for heart-led leadership strategies will create purpose-driven, dedicated employees and higher levels of performance. Revised and updated to address the needs of those managing Gen Z and millennial employees in addition to the latest global research on employee engagement. In this thoroughly revised and updated edition of his now classic book, visionary Mark C. Crowley provides the roadmap workplace leaders the world over are seeking: How to most successfully and sustainably inspire and manage other human beings in the post-pandemic era. · Nearly 50 million workers quit their jobs in the U.S. alone in 2021—a record number likely to be exceeded in 2022. · While we might imagine that an opportunity to earn greater pay is the key driver of*

*this “Great Resignation,” research shows two-thirds of the reasons people leave jobs boil down to issues related to their engagement and overall well-being. . More specifically, people quit when they feel they aren’t valued, respected, appreciated, coached—or cared about personally—by their manager and organization. . Thanks in large part to the COVID pandemic and a global reset of what matters most to people in their lives, human beings have profoundly evolved in what they need and want in exchange for their work. . Consequently, a radical change in employee expectations demands that organizations and managers rapidly pivot by embracing leadership practices that match the moment. . The remedy to the Great Resignation is to adopt more humane ways of managing people knowing they inherently lead to infinitely greater engagement not to mention optimal employee performance. . In this new and updated version of his seminal and visionary book, Mark C. Crowley draws upon emerging medical and other scientific discoveries which prove it's the heart, not the mind, that drives human motivation and achievement. . While we’ve long been led to believe that human beings are essentially rational beings, new research shows that feelings and emotions far more often motivate human behavior and what people care about most and commit themselves to in their lives. . In light of this breakthrough understanding, it’s become incumbent upon*

This evolution gives us a chance to reimagine organizational, team and personal performance and the impact each and every one of us can and will have on that performance in the future. From the board room to the break room and everywhere in between. In Lead Where You Are, Ken and Ryan Carnes establish the foundation to drive better organizational, team, and individual performance in this rapidly evolving and very demanding performance environment. They do this by highlighting and explaining the five core engagement factors for cultivating and sustaining individual and organizational engagement. Each core factor is discussed, examples provided and action items given to truly move the needle on employee engagement. Lead Where You Are was written to help you proactively lead and pursue your personal performance, not have it managed and reviewed on an annual basis. To help you see the possibilities for change everywhere in this environment of disruption, rather than letting obstacles and barriers inhibit performance, or simply waiting for change to happen and trying to react to it and manage it. To lead where you are is to find opportunities and ways to develop and cultivate real relationships in a world dominated by electronic communication, and where the art of the relationship is rapidly disappearing. It is finding a purpose in the work you do. Daily actions and activities that are purpose driven and not task directed and managed, are far more rewarding and motivating. And*

***evaluate how you define leadership – whether you are a corporate CEO or a high school student. The book presents the author's five fundamental leadership truths, followed by her key leadership principles, which ultimately lead you to her inspirational definition of leadership. The principles and supporting personal stories cover a lifetime of leadership lessons: from playing sports in high school to taking responsibility for over twenty thousand soldiers and civilians in combat as a general officer in Iraq. Becky has built highly successful teams in demanding environments and stressful situations. In 24/7 she shares with you the heart and mind traits and skills that allowed her to do so. The book also provides multi-leadership perspectives: the author as a leader, the one being led, a peer leader, and as an individual who becomes part of an enduring leadership legacy. She explains how to learn from both toxic and ideal work environments and bosses. This book is a much needed guide that reminds you what is really important when you are in a position of leadership. Becky has effectively translated lessons learned as a child growing up in small town USA, as a member of the second class of women to attend the United States Military Academy, and as the first female general to command at the strategic level, to a practical***

***NAMED ONE OF THE BEST BOOKS OF THE YEAR BY BLOOMBERG Leadership is not about titles, status, and wielding power. A leader is anyone who takes responsibility for recognizing the potential in people and ideas, and has the courage to develop that potential. When we dare to lead, we don't pretend to have the right answers; we stay curious and ask the right questions. We don't see power as finite and hoard it; we know that power becomes infinite when we share it with others. We don't avoid difficult conversations and situations; we lean into vulnerability when it's necessary to do good work. But daring leadership in a culture defined by scarcity, fear, and uncertainty requires skill-building around traits that are deeply and uniquely human. The irony is that we're choosing not to invest in developing the hearts and minds of leaders at the exact same time as we're scrambling to figure out what we have to offer that machines and AI can't do better and faster. What can we do better? Empathy, connection, and courage, to start. Four-time #1 New York Times bestselling author Brené Brown has spent the past two decades studying the emotions and experiences that give meaning to our lives, and the past seven years working with transformative leaders and teams spanning the globe. She found that leaders in organizations***

**ranging from small entrepreneurial startups and family-owned businesses to nonprofits, civic organizations, and Fortune 50 companies all ask the same question: How do you cultivate braver, more daring leaders, and how do you embed the value of courage in your culture? In this new book, Brown uses research, stories, and examples to answer these questions in the no-BS style that millions of readers have come to expect and love. Brown writes, "One of the most important findings of my career is that daring leadership is a collection of four skill sets that are 100 percent teachable, observable, and measurable. It's learning and unlearning that requires brave work, tough conversations, and showing up with your whole heart. Easy? No. Because choosing courage over comfort is not always our default. Worth it? Always. We want to be brave with our lives and our work. It's why we're here." our economy struggles to recover the pandemic's deleterious economic impact that is currently compounded by supply chain issues and the beginnings of an inflationary spiral."

—The Midwest Book Review "Provides concrete steps leaders and employees can take to thrive in today's marketplace, where taking a stand on something important to your customers can become a competitive differentiator." —Forbes Discover an urgent prescription for a new business paradigm—one that better serves humanity and the planet.

The global coronavirus pandemic has thrown into stark relief how "business as usual" is no longer serving us. The economic, business, and environmental models of the past do not reflect our current realities. And for our economy—for us—to survive, we need nothing less than a seismic shift in the way we do business. Enter Simon Mainwaring, New York Times-bestselling author and founder and CEO of We First. A decade ago, he showed how business leaders and consumers could use social media to build a better world in We First. Now, after decades of research and field experience at the vanguard of the world's most successful brand revolutions, he provides in *Lead With We* a blueprint for doing business better in today's challenged world. By leading with "we"—putting the collective above the individual, holding the sum above the parts, and emphasizing the importance of the role that everyone plays—you can not only help solve the escalating challenges of today but also unlock extraordinary growth for your business, and abundance on our planet.

Level Up Your Leadership with Intention, Connection, and Direction School communities are full of people who have both the ability and desire to lead. Some lead without knowing it. Most lead without the recognition they deserve.

Whether you lead in a classroom, department, building, or district, chances are you know how challenging it can be to identify and develop other strong leaders, and to grow the leadership capacity of your organization as a whole. But ensuring that the leaders around you know their worth, helping them cultivate connections, and growing their confidence can help your whole team move forward together, helping the organization and the people within it to thrive.

Lead from Where You Are offers a down-to-earth, implementable approach to rethinking how we build leadership and community in schools. Dr. Joe Sanfelippo, a veteran principal and superintendent, argues that our focus must be on growing leadership potential all across the community, from students to teachers to staff. We can do this by reflecting on how we build a sense of intention together, how we connect with each other, and how we direct those we lead with compassion and affirmation. Sanfelippo's frank discussion of the highs and lows of

Use this helpful book to learn about the leadership tools to fuel success, grow your team, and become the visionary you were meant to be. True leadership isn't a matter of having a certain job or title. In fact, being chosen for a position is only the first of the five levels every effective leader achieves. To become more than "the boss" people follow only because they are required to, you have to master the ability to invest in people and inspire them. To grow further in your role, you must achieve results and build a team that produces. You need to help people to develop their skills to become leaders in their own right. And if you have the skill and dedication, you can reach the pinnacle of leadership—where experience will allow you to extend your influence beyond your immediate reach and time for the

benefit of others. The 5 Levels of Leadership are:

1. Position—People follow because they have to.
2. Permission—People follow because they want to.
3. Production—People follow because of what you have done for the organization.
4. People Development—People follow because of what you have done for them personally.
- 5.

Pinnacle—People follow because of who you are and what you represent. Through humor, in-depth insight, and examples, internationally recognized leadership expert John C. Maxwell describes each of these stages of leadership. He shows you how to master each level and rise up to the next to become a more influential, respected, and successful leader.

Have you, as head of your team, felt frustrated when team members seem distracted and unable to work because of personal issues? Have you, as a team member, wanted a second opinion for your big idea, but were afraid of being laughed at, or—worse—having your idea stolen? Have you been in a work situation where you felt trust was broken, and you were left with few options for repairing it? These issues stymie productivity and strain relationships in offices around the globe; professional business coach Maxine Attong offers a radical, but proven solution: the office “safe space.” Enter this space—where trust is paramount—and find your way forward, free from the worries of being judged, ridiculed, shamed, or stolen from. A safe space offers: an empathetic

leader willing to listen as you share what's preventing you from focusing on the day's task; a fellow team member willing to help you hammer out an idea you have for streamlining an office procedure; or a team leader willing to listen to your frustrations over a coworker, yet remaining neutral and sworn to secrecy. Attong developed this "safe space" concept through more than twenty years of work with organizations in the gas and oil, financial, manufacturing, and service industries. When team members feel safe, Attong believes, they will take risks, make decisions, and put forth their best efforts despite what is happening in their personal lives. A team with all members able to perform at their peak will be a winning team—one that achieves excellence and propels its people forward to even greater victories. This book leads the way to those victories.

*How to Lead When You Don't Know Where You're Going* is a book of hope for weary leaders in danger of defining ministry in terms of failure or loss. This book does not attempt to describe where the church is headed; rather, it helps leaders stand firm in a disoriented state, learning from their mistakes and leading despite the confusion.

You may not hold a position of leadership or think of yourself as a leader. But if you want to create, change, or impact the world around you—even in a modest way—then you're guided by a leader's

impulse and shaped by a leader's principles. You are an aspiring leader. But the fact is that you've come to this role at a time when leadership—like everything else—is rapidly changing...and too many leaders are addressing the problems of today and tomorrow with the style and substance of yesterday's leadership. We need an update. In *The Aspiring Leader's Guide to the Future*, Clay Scroggins (author of *How to Lead When You're Not in Charge*) explores nine new principles of leadership that will help leaders adapt to a changing world and work culture, such as: Today's leaders lean into vulnerability. Today's leaders develop relationships primarily around trust. Today's leaders celebrate the successes of others. These may seem like counter-intuitive principles, but they provide a new way forward for leaders and teams and will prove versatile in the event of change and durable in the face of conflict. With humor and a pastor's candor, Clay will show you why the old ways need updating and what developing new leadership skills could look like for your future. To be clear, the author of this book does not know the future. If he did, he would have used his talents on sports betting or stock trading. What he does know is that yesterday's leadership axioms are today's myths and what that means. The way forward requires an understanding of the past, a conviction of what's at stake today, and a vision for how different tomorrow will be. You don't have to be a

9 Surprising Ways Leadership is Changing

You Can't Lead With Your Feet On the Desk

**Join the global movement that's making corporations more people-centric to achieve great results. The world is facing a global leadership crisis. Seventy-seven percent of leaders think they do a good job of engaging their people, yet 88 percent of employees say their leaders don't engage enough. There is also a high level of suffering in the workplace: 35 percent of employees would forgo a pay raise to see their leaders fired. This is an enormous waste of human talent--despite the fact that \$46 billion is spent each year on leadership development. Based on extensive research, including assessments of more than 35,000 leaders and**

interviews with 250 C-level executives, *The Mind of the Leader* concludes that organizations and leaders aren't meeting employees' basic human needs of finding meaning, purpose, connection, and genuine happiness in their work. But more than a description of the problem, *The Mind of the Leader* offers a radical, yet practical, solution. To solve the leadership crisis, organizations need to put people at the center of their strategy. They need to develop managers and executives who lead with three core mental qualities: mindfulness, selflessness, and compassion. Using real-world inspirational examples from Marriott, Accenture, McKinsey & Company, LinkedIn, and many more, *The Mind of the Leader* shows how this new kind of leadership turns conventional leadership thinking upside down. It represents a radical redefinition of what it takes to be an effective leader--and a practical, hard-nosed solution to every organization's engagement and execution problems.

The best leaders keep learning new ways to grow. Every good leader shares a common trait: they want to keep getting better. But eventually, most encounter a setback--the limits of their own self-development. To

overcome this, they must address their personal leadership DNA—the individual wiring that makes them naturally gravitate toward certain solutions and shy away from others. As a master leadership coach, Rob McKinnon knows that the most powerful and lasting growth starts from within. A leader must address how he or she thinks, feels, and acts, while also identifying their core beliefs. Until these dimensions are recognized and developed, leaders will continue to do things the same way they always have, and get the same results. *Lead Like You Were Meant To* helps overcome three critical roadblocks: leading too much on autopilot, leading with less than 100% of what the leader possesses, and failing to see the common link between their greatest strengths and greatest weaknesses. Witty tweets, quick-fix seminars, and "do it my way because it worked for me" books don't cut it for the personal, lasting growth that leaders want. Instead, high impact change begins with the customized inside-out self-leadership skills that McKinnon presents. Filled with real-life stories, powerful frameworks, and practical tools, this book offers comprehensive leadership development that endures. *How to Lead When You Don't Know Where*

You are Going is a book of hope for weary leaders in danger of defining ministry in terms of failure or loss. This book does not attempt to describe where the church is headed; rather, it helps leaders stand firm in a disoriented state, learning from their mistakes and leading despite the confusion. In *The 360 Degree Leader Workbook*, Maxwell addresses that very question and takes the discussion even further. You don't have to be the main leader, asserts Maxwell, to make significant impact in your organization. Good leaders are not only capable of leading their followers but are also adept at leading their superiors and their peers. Debunking myths and shedding light on the challenges, John Maxwell offers specific principles for *Leading Down*, *Leading Up*, and *Leading Across*. *360-Degree Leaders* can lead effectively, regardless of their position in an organization. By applying Maxwell's principles, you will expand your influence and ultimately be a more valuable team member.
