This is an evergreen money making method for both newbies and internet savvies who have a steady income and got left overtime to earn some extra cash. More interesting about this method is that AdSense is only a part of the income usually less than 30% of the total revenue generated from the website. There are tons of products and services which I mentioned in the case studies of this book that you can also push through email to your subscribers and make more money. What you will learn in this book: How to make a steady income online How to make money using a third party AdSense account How to force influencers into driving traffic to your website How to advertise your products and services in third-party social media handles. One thing that I learned about money is that getting rich is mechanical, automated, and boring. This method is like investing in Johnson & Johnson or Coca-Cola shares, they grow slow and steady every year while you keep enjoying the dividends. But if you spend most of your time reading these things and taking no action, you are just wasting your time. The grave mistake newcomers make is thinking there's some magic bullet or formula that will not require you to put in the hard work. This is a big factor in why so many ends up failing. Making money online starts with you. What you get depends on how creative you are in twisting a method and how well you understand what you are actually doing for each step. Who needs this book? Those who own eCommerce products Those who can design and sell T-shirts
