**(Music Instruction). Music notation is a language that has been developing for thousands of years; even the manner in which we read music today has been around for several centuries. In learning to read music, we encounter basic symbols for pitch, duration, and timing. As we advance, we learn about dynamics, expression, timbre, and even special effects. How to Read Music will introduce you to the basics, then provide more advanced information. As a final reward for all your hard work, you'll get a chance to play excerpts from three classic piano pieces. Topics include: pitch \* rhythm \* meter \* special words and symbols \* plus classical piano pieces by Bach, Mozart, and Beethoven.**

*The Basic Guide to How to Read Music will teach you the principles of reading music in staff notation quickly and painlessly. If you could once read music but have forgotten how, it will refresh your memory. It contains all the terms and symbols you are likely to come across when studying music and explains them fully. Helen Cooper explains the written language of music in greater detail than you might get from your teacher. This book is ideal for the classroom, private lessons, and the home.*

*This is the ideal guide for those who wish to get to grips with music to a greater depth, to learn to play faster, more complicated scores, to compose and arrange music – the possibilities are endless. This guide provides everything you need to know, explaining pitch, the treble clef, the bass clef, rhythm, accidentals, key signatures, scales and chords, along with a compendium of additional information. Then practise what you have learnt with the 'Play Along' sections containing simple, well-known examples of music, from 'Scarborough Fair' to 'Jerusalem'. With helpful diagrams, clear accessible text and a practical ringbound format.*

*Read the Notes Workbook is written in response to the needs of students to facilitate the process of learning to read the notes at the initial phase of studying the piano. The primary purpose of this workbook is the development of student's ability to analyze simple music text. The exercises are designed to teach students not only to read the notes taken separately, but to see the relationships between them. Students learn to pay attention to the direction of the music line, the intervals of the melodic steps, repeated notes etc. These skills lay the foundation for fluent sight-reading.*

We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. This book includes 58 familiar and easy-to-play folk songs and melodies. Each song here is written with color circles and letter notes inside. All songs have been simplified and transposed for one octave. Since this book is aimed at the absolute beginner without any knowledge of reading music, we do not use here the classical music staff and do not show the note duration. You can experiment with the duration on your own. If you have very little music experience, playing by note can be difficult. It is easier to follow color-coded circles with note letters. By simply following the color circles, you will sound like an experienced musician. We use here the Boomwhackers® color system commonly used by American music teachers. We call this series "I don't read music" since we are targeting beginners of all ages: children, teens, parents, grandparents. Folk music traditionally is not learned from sheet music or notes. Instead, it is learned by repetition and from being passed from generation to generation. We believe in this method of teaching, which is easier and more enjoyable. Our simple method using circles as an aid allows the flexibility that existed in traditional ways of teaching. We recommend finding each of these songs on YouTube and listening to the rhythm before beginning to play. Our sheet music is only a guide. \*\*\*\*\* Reading Music: Traditional Way vs Non-Traditional Way It is FUN to learn to read music. There are some basic music fundamentals that you need to learn in order to be able to start reading music. You need to understand the music staff, the grand staff, the lines, the spaces, the alphabets, the letter names, treble clef, bass clef & middle C. I show you the Traditional Method of how students are taught to read music. The

Traditional method WORKS but it is slow going. It is good for you to know the Traditional Method. We don't want to throw away what works. We want to improve on 'what works' to make it 'more fun' for beginners to overcome the frustrations of reading music! This is how my "Note Attack & Say It" Method got developed as I saw the joy of seeing students gaining confidence in these drills and exercises of moving from Level 1 (The Note Attack Method) to Level 2 (Application of the Note Attack Method) & then onto Level 3 (Drilling Exercises with Speed). Rosa's Music Note Attack Method: 1. Intuitive Visual Recognition 2. Visual Memory in the Brain 3. Say it out Loud to store in Brain 4. Practice Smart - Exercises You only need to know 7 alphabet letters: A B C D E F G. Once you learn to read these letters forward and backward using my Unique method, you will tap into the power of reading music notes quickly with confidence. This will help you overcome all the years of fear and frustrations in reading music, and the reward you receive is for a life time. You learn to see the notes and read them like you read the names of your friends.

\*\*\*\*\* This is a UNIQUE Method that I develop for BEGINNERS who wants to learn how to read notes and to read them QUICKLY! We are dealing specifically in the area of reading the music notes on music staff in both the Treble Clef and Bass Clef. We are NOT dealing with reading other music symbols, rhythm, or value and duration of notes.

Have Fun! Rosa

The main purpose of the book is to explore basic music theory so thoroughly that the interested student will then be able to easily pick up whatever further theory is wanted. Music history and the physics of sound are included to the extent that they shed light on music theory. The main premise of this course is that a better understanding of where the basics come from will lead to better and faster comprehension of more complex ideas. It also helps to remember, however, that music theory is a bit like grammar.
