The best way to reach your writing goals is to write every day, but research now says that it can take 66 days to create a habit. The Write Every Day journal offers 66 days of writing prompts and encouragement so you don't have to build your writing habit alone.

How do you write good research articles -- articles that are interesting, compelling, and easy to understand? How do you write papers that influence the field instead of falling into obscurity? Write It Up offers a practical and revealing look at how productive researchers write strong articles. The book's guiding idea is that academics should write to make an impact, not just to get something published somewhere. Your work will be more influential if you approach it reflectively and strategically. Based on his experience as an author, journal editor, and reviewer, Paul Silvia offers systematic approaches to problems like picking journals; cultivating the right tone and style; managing collaborative projects and co-authors; crafting effective Introduction, Method, Results, and Discussion sections; and submitting and resubmitting papers to journals. With its light-hearted style and practical advice, Write It Up will help graduate students struggling with writing their first paper, early career professors who need advice on how to write better articles, and seasoned academic writers looking to refresh

their writing strategy or style.

In *Transformational Journaling for Coaches, Therapists, and Clients: A Complete Guide to the Benefits of Personal Writing*, more than 50 coaches, therapists, and journaling experts from around the world share their best practices and explain in detail how they use journaling to improve their work with clients. This edited collection brings together the leading voices of the journaling world into one ground-breaking volume, providing practical techniques and tools to use with clients. Applicable and accessible, over 50 journaling luminaries share their experiences and insights across eight sections, including the logic of journaling, techniques and applications, using journaling with clients, journaling in groups, journaling for mental health and wellness, growth and healing, spirituality, creativity, and more. Through theoretical and practical applications, it illustrates the transformational process of journaling in helping clients grow, heal, and achieve their goals. This book is essential reading for coaches, therapists, and other mental health professionals, as well as those interested in using personal writing for growth and self-awareness.

When nomad artist and free spirit Dan Price began jotting down his musings in the form of whimsical drawings and inspired prose, he hardly could have imagined that his self-published journal-zine, the MOONLIGHT CHRONICLES, would earn him a cult following across the country. Now in its twentieth edition, the MOONLIGHT CHRONICLES has brought Dan's creed of "truth, beauty, and really big sabbaticals from the convention of life" to thousands across the country. With such a following, Dan figured it was time to collect his offbeat observations into book

form in hopes of inspiring other would-be journal writers to take pen, camera, and brush in hand. As Dan is fond of noting "Seems there's tons of empty journal books, but not too many on how to fill 'em up!" In HOW TO MAKE A JOURNAL, Dan answers the call, teaching readers how to tap into those pent-up creative juices and collect their life experiences on paper.

'A comprehensive, well-written and beautifully organized book on publishing articles in the humanities and social sciences that will help its readers write forward with a first-rate guide as good company.' - Joan Bolker, author of *Writing Your Dissertation in Fifteen Minutes a Day* 'Humorous, direct, authentic ... a seamless weave of experience, anecdote, and research.' - Kathleen McHugh, professor and director of the UCLA Center for the Study of Women Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success* is a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

Discover the revolutionary writing practice that can transform your life! In 1976, Linda Trichter Metcalf, then a university English professor, sat down with pen and paper and intuitively started a self-guided writing practice that helped to bring herself into focus and clarify her life as never before. She and a colleague, Tobin Simon, introduced this original method into their classrooms. They experienced such solid response from their students that, for the last twenty-five years, they have

devoted themselves to teaching what has now become the respected practice of Proprioceptive Writing® – in workshops, secondary and elementary schools, and college psychology and writing classes around the country, among them the New School University. “ Proprioception ” comes from the Latin proprius, meaning “ one ’ s own, ” and this writing method helps synthesize emotion and imagination, generating authentic insight and catharsis. Proprioceptive Writing® is not formal writing, nor is it automatic or stream-of-consciousness writing. Requiring a regular, disciplined practice in a quiet environment, the method uses several aids to deepen attention and free the writer within: Baroque music, a candle, a pad, and a pen. Presenting Proprioceptive Writing® in book form for the first time, Writing the Mind Alive shows how you, too, can use it to

- Focus awareness, dissolve inhibitions, and build self-trust
- Unburden your mind and resolve emotional conflicts
- Connect more deeply with your spiritual self
- Write and speak with strength and clarity
- Enhance the benefits of psychotherapy
- Awaken your senses and emotions
- Liberate your creative energies

Featuring actual “ writes ” by students of all ages, Writing the Mind Alive is a catalyst for mental and emotional aliveness that can truly enrich the rest of your life. Have you ever wondered what Santa Claus does for fun in his spare time? Now you can find out with Santa's Hobbies. This book also includes a mini game where the reader can find hidden stars on each page. This picture book is for children ages 2-5.

Facing Down Your Fears With Faith

From the team that brought you *The Obstacle Is the Way* and *Ego Is the Enemy*, a beautiful daily devotional of Stoic meditations—an instant *Wall Street Journal* and *USA Today* Bestseller. Why have history's greatest minds—from George Washington to Frederick the Great to Ralph Waldo Emerson, along with today's top performers from Super Bowl-winning football coaches to CEOs and celebrities—embraced the wisdom of the ancient Stoics? Because they realize that the most valuable wisdom is timeless and that philosophy is for living a better life, not a classroom exercise. *The Daily Stoic* offers 366 days of Stoic insights and exercises, featuring all-new translations from the Emperor Marcus Aurelius, the playwright Seneca, or slave-turned-philosopher Epictetus, as well as lesser-known luminaries like Zeno, Cleanthes, and Musonius Rufus. Every day of the year you'll find one of their pithy, powerful quotations, as well as historical anecdotes, provocative commentary, and a helpful glossary of Greek terms. By following these teachings over the course of a year (and, indeed, for years to come) you'll find the serenity, self-knowledge, and resilience you need to live well.

How to understand a media environment in crisis, and how to make things better by approaching information ecologically. Our media environment is in crisis. Polarization is

rampant. Polluted information floods social media. Even our best efforts to help clean up can backfire, sending toxins roaring across the landscape. In *You Are Here*, Whitney Phillips and Ryan Milner offer strategies for navigating increasingly treacherous information flows. Using ecological metaphors, they emphasize how our individual me is entwined within a much larger we, and how everyone fits within an ever-shifting network map.

For many people, worry, anxiety, and fear are constant companions: fear of death, fear of danger, fear of disease. In today's unpredictable and contentious world, who can blame us? All too often, these fears are crippling, keeping us from the life God has called us to live. Is there any hope amidst all this darkness? There is. As Christians, we have been given all we need in order to face down even the most frightening, unexpected, and overwhelming obstacles in life. In *Hope*, Dr. David Jeremiah explores the top seven fears that are holding so many of us back from the life God has called us to live and shares secrets for facing down these fears with hope in God. With each page, you'll grow in your conviction that God is the answer you've been looking for: as you look to the future, you'll begin to see nothing except his power and love guarding your every step. Step into the truth and start living the fearless life God created you to enjoy.

One of the key tasks every researcher must perform is publishing their work, and most of this publication will occur in peer-reviewed journals. These publications are essential for promotion, recognition, and creating a dialogue with your colleagues around the world. Unfortunately, writing publication-quality manuscripts and guiding them through the peer-review process is a difficult, time-consuming, and often frustrating task. In this book, I'll teach you how to make the process easier based on what I've learned from more than 25 years of helping authors publish more than 6000 papers in some of the world's most prestigious journals (including Nature, Science, and PNAS). Writing for Science Journals explains the details of every section of a journal manuscript, including tips and tricks you won't find elsewhere about how to deal with the peculiar ways that journals work with authors and reviewers. I'll also deal with some of the implications of statistics and experimental design that you may have learned in school, but possibly not in an

**** By the authors of the acclaimed Introduction to Rubrics **** Major growth of interest in keeping journals or diaries for personal reflection and growth; and as a teaching tool **** Will appeal to college faculty, administrators and teachers** One of the most powerful ways to learn, reflect and make sense of our lives is through journal keeping. This book presents the potential uses and benefits of journals for personal and professional development—particularly for those in academic life; and demonstrates journals’ potential to foster college students’ learning, fluency and voice, and creative thinking. In professional life, a journal helps to organize, prioritize and address the many expectations of a faculty member’s or administrator’s roles. Journals are effective for developing time management skills, building problem-solving skills, fostering insight, and decreasing stress. Both writing and rereading journal entries allow the journal keeper to document thinking; to track changes and review observations; and to examine assumptions and so gain fresh perspectives and insights over past events. The authors present the background to help readers make an informed decision about the value of journals and to determine whether journals will fit appropriately with their teaching objectives or help manage their personal and professional lives. They offer insights and advice on selecting the format or formats and techniques most appropriate for the reader’s purposes.
