KEY BENEFIT: This best-selling, restructured laboratory manual now includes an entirely new interactive website built specifically for the A&P lab course. For the first time, MyAandP.com includes Practice Anatomy Lab (PAL(TM)) 2.0 and provides 24/7 access to a rich array of anatomy lab specimens, practice quizzes, and simulated lab practicals, gradable pre- and post-lab exercise quizzes for each of the 46 labs in the Marieb lab manual, the new PhysioEx(TM) 8.0, and videos of lab experiments. The Human Body: An Orientation, The Microscope and Its Uses, The Cell, Histology: Basic Tissues of the Body, The Integumentary System and Body Membranes, The Skeletal System, The Muscular System, The Nervous System, The Endocrine System, The Circulatory System, The Respiratory System, The Digestive System, The Urinary System, The Reproductive System, Development, and Heredity, Surface Anatomy, PhysioEx(TM) v7.0 Computer Simulations. For all readers interested in a laboratory manual for the A&P lab course.

NOTE: Before purchasing, check with your instructor to ensure you select the correct ISBN. Several versions of the MyLab(tm)and Mastering(tm) platforms exist for each title, and registrations are not transferable. To register for and use MyLab or Mastering, you may also need a Course ID, which your instructor will provide. Used books, rentals, and purchases made outside of Pearson If purchasing or renting from companies other than Pearson, the access codes for the Mastering platform may not be included, may be incorrect, or may be previously redeemed. Check with the seller before completing your purchase. For the two-semester A&P laboratory course. This package includes Mastering A&P. Fully engage students in their A&P Lab experience Human Anatomy & Physiology Laboratory Manual: Making Connections distinguishes itself from other A&P lab manuals by focusing on and addressing the most common teaching challenges in the lab-getting students to engage in the lab, to prepare for the lab, and to apply concepts in the lab. Catharine Whiting's active learning approach incorporates a rich variety of hands-on activities and guided questions to get students engaged and asking questions. The 2nd Edition provides new features, such as "What You Need to Know Before You Start this Unit" at the beginning of each Unit and new Pre-Lab Video Coaching Activities to help students learn what they need to review before lab. Developed as the companion to Erin Amerman's Human Anatomy & Physiology, 2nd Edition, Whiting's lab manual reflects the same superb art program and terminology found in the Amerman textbook. Human Anatomy & Physiology Laboratory Manual: Making Connections, 2nd Edition is available in three versions for your students: Main, Cat and Fetal Pig. The Cat and Fetal Pig versions are identical to the Main version except that they include seven additional cat dissection and nine additional fetal pig dissection exercises, respectively, at the back of the lab manual. Personalize learning with Mastering A&P Mastering(tm) is the teaching and learning platform that empowers you to reach every student. By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual and include new Pre-Lab Video coaching activities, new Cat Dissection Video and Fetal Pig Dissection Video coaching activities, new fully mobile PAL 3.1 plus PAL 3.1 Customizable Flashcards, Learning Catalytics (tm) , A&P Flix 3D muscle animations, a variety of Art Labeling Questions, Clinical Application Questions, and more. 0134800931 / 9780134800936 Human Anatomy & Physiology Laboratory Manual: Making Connections, Cat Version Plus MasteringA&P with Pearson eText -- Access Card Package, 2/e Package consists of: 0134609115 / 9780134609119 Human Anatomy & Physiology Laboratory Manual: Making Connections, Cat Version, 2/e 013474697X / 9780134746975 MasteringA&P with Pearson eText -- ValuePack Access Card -- for Human Anatomy & Physiology Lab Manual: Making Connections, 2/e

For the two-semester A&P laboratory course. Help manage time and improve learning inside and outside of the lab The #1 best-selling Human Anatomy & Physiology Laboratory Manual helps students and instructors manage time inside and outside of the A&P lab classroom and works hand-in-hand with Mastering A&P, the leading online homework and learning program for A&P. The 13th Edition features dozens of new, full-color figures and photos in the review sheets, as well as revamped clinical application questions and critical thinking questions that reinforce the most important concepts from lab. Encourage students to prepare for lab by assigning recommended Mastering A&P activities for each lab exercise, including 18 pre-lab videos (8 are new to this edition), Building Vocabulary Coaching Activities, exercise review sheet assessment questions, art labeling activities, mobile-ready Practice Anatomy Lab(tm) 3.1 with customizable flashcards, and more. Thousands of assignment options in the Item Library are closely correlated with the print edition of the manual, making it easier than ever to create homework assignments that are aligned with your lab activities. Continuing to set the standard for the 2-semester A&P laboratory course, the lab manual complies with the illustration and presentation style of the best-selling Marieb/Hoehn Human Anatomy & Physiology text, but can accompany any A&P textbook. New customization options are available through Pearson Collections, as well as three conventional versions: Main (12th Edition), Cat (13th Edition), and Fetal Pig (13th Edition). Also available with Mastering A&P By combining trusted author content with digital tools developed to engage students and emulate the office-hour experience, Mastering personalizes learning and improves results for each student. Mastering A&P assignments support interactive features in the lab manual, including pre-lab video coaching activities, bone, muscle, and dissection videos, Dynamic Study Modules, Get Ready for A&P, plus a variety of Art Labeling Questions, Clinical Application Questions, and more. Essentials of Human Anatomy & Physiology Laboratory Manual

**Human Anatomy & Physiology Laboratory Manual, Main VersionPearson**

**The study of human anatomy and physiology really comes to life in the anatomy and physiology laboratory, where students get hands-on experience with human cadavers and bones, classroom models, preserved and fresh animal organs, histology slides of human tissues, and learn the process of scientific discovery through physiology experimentation. This lab manual is intended to provide students with tools to make the subject matter more relevant to their own bodies and to the world around them. It is an interactive workbook for students: a ‘how-to’ guide to learning human anatomy and physiology through touch, dissection, observation, experimentation, and critical thinking exercises.**

**Known for its clear descriptions and art program, this lab manual examines every structure and function of the human body. It features dissection of the cat, numerous physiological experiments, and an emphasis on the study of anatomy through histology. In addition to a large variety of illustrations, helpful learning support includes lists of appropriate terms accompanying art, numerous photomicrographs and specimen photos, phonetic pronunciations and derivations of terms, diagrams of lab equipment, and lab report questions and report templates. An instructor's guide is available and provides detailed information for instructors about needed materials, suggestions, and answers to questions. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.**

Developed as the companion lab manual to Amerman's Human Anatomy & Physiology, Catharine Whiting's lab manual takes an active learning approach that uses a rich variety of hands-on activities, along with guided questions, to engage students and help them apply concepts learned in lecture to lab. The active learning approach to Whiting's Human Anatomy & Physiology Laboratory Manual: Making Connections includes unique hands-on activities that use different learning modes including labeling, sketching, touching, dissecting, observing, conducting experiments, interacting with groups, and making predictions. Whiting also includes pre-lab assignments to help students better prepare for lab; and post-lab assignments to solidify learning and challenge students to see interrelationships of concepts across topics. MasteringA&P for Whiting includes autogradable pre-lab and post-lab assessments, drag-and-drop activities, coaching activities for Bone and Animal Dissection videos, PAL 3.0, PhysioEx 9.1, A&P Flix 3D muscle animations, Clinical Scenarios, and more. Personalize Learning with MasteringA&P® MasteringA&P is an online homework, tutorial, and assessment system proven to help students learn. It helps instructors maximize lab time with customizable, easy-to-assign, automatically graded assessments that motivate students to learn outside of class and to arrive prepared for lab. Over two previous editions, Exploring Anatomy & Physiology in the Laboratory (EAPL) has become one of the best-selling A&P lab manuals on the market. Its unique, straightforward, practical, activity-based approach to the study of anatomy and physiology in the laboratory has proven to be an effective approach for students nationwide. This comprehensive, beautifully illustrated, and affordably priced manual is appropriate for a two-semester anatomy and physiology laboratory course. Through focused activities and by eliminating redundant exposition and artwork found in most primary textbooks, this manual complements the lecture material and serves as an efficient and effective tool for learning in the lab.

Laboratory Guide

Human Anatomy

A brief, hands-on lab manual specifically adapted for one-semester A&P labs in the allied health market--now with more realistic 3-D art, new and modern photos, and a brand-new student-friendly design. Elaine Marieb's Essentials of Human Anatomy and Physiology Laboratory Manual, Sixth Edition can accompany any one-semester A&P text, but is most effectively paired with Marieb's Essentials of Human Anatomy & Physiology, Eleventh Edition. The manual includes 27 exercises featuring a wide range of activities and a full-color Histology Atlas with 55 photomicrographs. Each exercise includes a Pre-Lab Quiz, a materials list, background information, integrated objectives for focused learning, a summary of key concepts, a variety of hands-on activities, and challenging review sheets. The Sixth Edition features an updated art and photo program with more realistic 3-D art, new and modern photographs, a new student-friendly design that includes exercise tabs for easier navigation, bold-faced references to figures and tables, and new activity checklists to help students track their progress in the lab. The manual presents a superior teaching and learning experience for you and your students by presenting: A new student-friendly design with a variety of features for easier navigation of the text A dynamic art and photo program features exceptionally-detailed illustrations and figures 27 concise lab exercises specifically built to accommodate the fast pace of one-semester A&P labs A wide range of activities offering students varied, hands-on lab experiences to fit different learning styles

Elaine Marieb's clearly written and comprehensive lab manual has been thoroughly revised with new and updated content. Guiding readers through well-planned lab activities, this new edition features new illustrations and full-color photographs that help readers visualize and master lab concepts. Incorporating the best new technology available for A&P labs, PowerLab(r) procedures have been added to selected exercises so students can practice with computerized data compilation techniques. Plus, two new laboratory simulations have been added to the popular PhysioEx(tm) V3.0 program now available on CD-ROM or via the Web. Designed to stand-alone or use with other materials, each manual contains anatomical and physiological terminology essential for use in one- or two-semester A&P courses. For college instructors and students.

This full-color atlas is designed for all students taking separate or integrated courses in human anatomy and physiology. This atlas can accompany and augment any human anatomy, human physiology or combined human anatomy and physiology textbook. It is designed to be of particular value to students in a laboratory situation and could either accompany a laboratory manual or, in certain courses, it could serve as the laboratory manual. Great care has gone into the preparation of this photographic atlas to provide students with a complete set of photographs for each of the human body systems. Cat, fetal pig, and rat dissection are also included for those students who have the opportunity to do similar dissections as part of their laboratory requirement. In addition, photographs of a sheep heart dissection are also included. A visual balance is achieved between the various levels available to observe the structure of the body. Completely labeled, informative figures are depicted clearly and accurately. The terms used in this atlas are those that are approved and recommended by the Basle Nomina Anatomica (BNA). Some of the changes for this new edition include a new art program, new vertebrate dissection images (new specimens were dissected to obtain better quality photographs of the muscular and organ systems), and a new full page heart valve/cardiac cycle figure.

This full-color laboratory manual is designed for instructors who teach a two-semester introductory anatomy & physiology course, but do not require the full range of laboratory exercises found in Marieb's best-selling Human Anatomy & Physiology Lab Manuals (Cat, Fetal Pig, and Main). Though this lab manual can be used with any two-semester text, it will be most effectively used with Marieb's Anatomy & Physiology, Fifth Edition. The lab manual features a brand new student-friendly design, including checkboxes to help students track their progress, a complete list of objectives at the beginning of each exercise, and fully-updated terminology in accordance with Terminologia Anatomica and Terminologia Histologica. The lab manual also features a full-color, extensive Histology Atlas, integrated Review Sheets, and new art and photos that help bring A&P to life.

This concise lab manual is designed for those wanting a briefer and less expensive lab manual than traditionally available for the two-semester anatomy & physiology lab course and who also want their readers to develop critical thinking skills in the lab. Laboratory Investigations in Anatomy & Physiology, Cat Version, Second Edition contains most lab courses, in contrast to the 40 or 50 lab exercises included in the leading anatomy & physiology lab manuals. Through the use of frequent and engaging Questions to Consider, author Stephen Sarikas helps readers think about complex ideas and make connections between concepts. By challenging readers not only to observe but also investigate experience that ensures they will retain what they have learned—a tremendous benefit to any reader going into a healthcare-related career. The Second Edition features all-new activities on surface anatomy, a fascinating new feature on forensic science, enlarged illustrations with more deeply contrasting colors to make learning easier, and a new Practice Anatomy Lab (PAL™) 2.0 anatomy practice and assessment tool. Main and Pig Versions of this lab manual are also available.
