**Exploring the seven "sign" miracles in the Gospel of John, this text emphasizes that the purpose of miracles is to deepen our trust in God, not in miracles themselves. Within these pages, Rogers discusses the problem with miracles, as well as fleshing out the seven miracles.**

**Come explore the miraculous with "Miracle Hunter" Michael O'Neill! O'Neill, a graduate of Stanford University, member of the Mariological Society of America, and host of the television series "Miracle Hunters", takes you on an amazing tour of miracles large and small, and answers some of our most burning questions: Are miracles all that important? What do miracles have to do with me? How does the Church determine if a miracle is valid? What do miracle cures have to do with canonization? Do saints perform miracles? What are apparitions and why do they appear? What's a "Eucharistic miracle"? Can statues, icons, or effigies really be miraculous? What about incorruptibles and stigmata? Thoroughly researched and documented, Exploring the Miraculous will enlighten and fascinate, but most of all will guide us to Christ, who is the center of our lives and the true object of our faith. Born into a family of wealth and privilege during World War II, Mark Erwin's childhood was less than normal or happy. The son of a free-spirited, socialite mothers who was used to getting whatever she desired, he witnessed her decline into depression, alcoholism, and despair, which almost destroyed the family. This could be called a story of "riches to rags and back to riches," with plenty of life lessons between. "An Unlikely Journey" follows Erwin's miraculous path from a rocky beginning to the curious and extraordinary places and positions neither Mark nor his family and closest friends could have ever envisioned. With no financial resources, little education, and few prospects, he overcame many challenges to achieve success in business, philanthropy, politics, diplomacy, and life, developing along the way a credo to "Make a Difference. Do Good. Have fun."**

"A taut, compelling family tale." –Kirkus Reviews Millington Valley is a quintessential small Pennsylvania town: families go back generations. Football rules. Kids drink while adults look the other way. High school is a whirlwind of aspiration and rivalry, friendship and jealousy. When smart and pretty Molly Hanover moves to town and attracts the attention of the football team's hero, Wade Thornton—a nice guy with a bad drinking habit—longtime friendships are threatened and a popular cheerleader tries to turn the school against Molly. The young couple's future is shattered when Wade, drunk, wrecks his truck and Molly is thrown through the windshield. She wakes from a coma to find her beauty marred and her memory full of holes. As she struggles to heal, she becomes sure that something terrible happened before the accident. And there is somebody in the valley who doesn't want her to remember.

New York Times bestselling author Lee Strobel trains his investigative sights on the hot button question: is it really credible to believe God intervenes supernaturally in people's lives today? This provocative book starts with an unlikely interview in which America's foremost skeptic builds a seemingly persuasive case against the miraculous. But then Strobel travels the country to quiz scholars to see whether they can offer solid answers to atheist objections. Along the way, he encounters astounding accounts of healings and other phenomena that simply cannot be explained away by naturalistic causes. The book features the results of exclusive new scientific polling that shows miracle accounts are much more common than people think. What's more, Strobel delves into the most controversial question of all: what about miracles that don't happen? If God can intervene in the world, why doesn't he do it more often to relieve suffering? Many American Christians are embarrassed by the supernatural, not wanting to look odd or extreme to their neighbors. Yet, *The Case for Miracles* shows not only that the miraculous is possible, but that God still does intervene in our world in awe-inspiring ways. Here's a unique book that examines all sides of this issue and comes away with a passionate defense for God's divine action in lives today. Also available: *The Case for Miracles* Spanish edition, kids' edition, and student edition.

*Miracles* is a book written by C. S. Lewis, originally published in 1947 and revised in 1960. Lewis argues that before one can learn from the study of history whether or not any miracles have ever occurred, one must first settle the philosophical question of whether it is logically possible that miracles can occur in principle. He accuses modern

A true story of sacrificing everything for family, living with nothing but hope, then sharing generously all they received to discover the greatest riches of all. Tani Adewumi didn't know what Boko Haram was or why they had threatened his family. All he knew was that when his parents told the family was going to America, Tani thought it was the start of a great adventure rather than an escape. In truth, his family's journey to the United States was nothing short of miraculous—and the miracles were just beginning. Tani's father, Kayode, became a dishwasher and Uber driver while Tani's mother, Oluwatoyin, cleaned buildings, while the family lived in a homeless shelter. Eight-year-old Tani jumped into his new life with courage and perseverance—and an unusual mind for chess. After joining the chess club in his public school, Tani practiced his game for hours in the evenings at the shelter. And less than a year after he learned to play, Tani won the New York State chess championship. A young boy with an aptitude for chess? Absolutely. But if you ask Tani Adewumi, he will tell you he believes in miracles and one happened to him and his family. This story will inspire, delight, and challenge you to believe, too.

I Believe in Miracles is a book that illustrates God's desire to communicate with His people as he did in biblical days. Even though this writing depicts fictional people and encounters, it, in no way, diminishes the fact that God wants to live among his people. God wants very much to be invited into your life and into your everyday circumstances. Situations always seem to conclude better when we give Him permission to navigate. As you read, you will be forced to recall incidents in your life that caused you to question whether something or someone could have been guiding some invisible strings in your life, granting undeserved opportunities, and preventing undesirable outcomes that you knew were merited. You too have experienced footprints in the sand. I've seen and recorded so many merciful acts from the Almighty! I chose to share in a delightful, romantic, and suspenseful way that I believe in miracles. In fact, I am a miracle!

Some things in life have no earthly explanation. Miracles are not reserved for the characters in the Old and New Testaments; they happen to everyday people. Series creators Don Jacobson and K-LOVE Radio have joined together to produce one of the most remarkable collections of modern-day miracles ever compiled. From angel appearances in hospital rooms to a mother saved from a would-be assailant in Hyde Park, from a young autistic girl becoming a beautiful ballerina overnight to a young backpacker who walked away from a terrorist attack, *It's a God Thing* presents some of the most amazing stories of God's hand on our lives. Be motivated as never before to look for and witness the incredible ways that God is interacting in your life and the lives of those around you. "With their new book, *It's a God Thing*, I believe K-LOVE and my friend Don Jacobson will call friends of Jesus everywhere to look for His capers around the world! Do you know why God involves Himself in our lives? Because God is love and love does!" —Bob Goff, author of the New York Times bestseller *Love Does* "Every day we all are faced with stress, situations we can't control and often the fear that we really are all alone. . . . These stories give us courage in times of peril and strengthen us when we feel helpless."—TobyMac, top Christian artist and Grammy Award winner "In *It's a God Thing* true servants of God share how their lives were transformed when their understanding became the Father's. What a blessing to be a child of the King!" —Missy Robertson, star of *Duck Dynasty* "There is so much going on around us that we never see. Life is all about perspective, and when that lines up with the hand of God, it is remarkable to witness. This book and collection of stories from my friends at K-LOVE will inspire and encourage you greatly!" —Andy Andrews, New York Times best-selling author, *The Noticer* and *The Traveler's Gift* "Sometimes I'm guilty of looking so hard for God that I miss Him right in front of me. May we all be reminded through *It's a God Thing* that some of the simplest moments in life can quite possibly be some of God's greatest miracles."—Bart Millard, lead singer of MercyMe "Nothing astonished people in the New Testament more than watching Jesus perform a miracle right before their eyes—and nothing inspires us today more than hearing He did it again! My good friend Don Jacobson, publisher of *The Prayer of Jabez*, has once again launched the perfect message for today—don't miss it!"—Bruce Wilkinson, author, *The Prayer of Jabez* "There is nothing better than hearing others talk about the ways that God has intervened in their lives. Miracles happen every day all around the world. These stories are incredible."—Robert D. Smith, author, *20,000 Days and Counting* "God doesn't need for us to be aware of the miracles He's performing, but they're happening every day! *It's a God Thing*, a new book from K-LOVE, is a powerful vehicle to tell the story of a number of those miracles."—Brandon Heath, 2008 New Artist of the Year Dove Award winner In May of 2009, my husband was severely injured at the geothermal plant where he worked. process. I also believe the Holy Spirit comforted me and gave me the strength I needed to be there for my husband.

In I Believe in Miracles, author Deidre Spencer shares the knowledge she gained in her fight against cancer and she provides the tools necessary to discover how to heal. As a cancer survivor, Deidre has beaten the odds, conquering an aggressive form of cancer that had an additional genetic disorder component, making it difficult for the doctors to treat. Through it all, she demonstrates the strength of conviction to follow through on her beliefs—and through sheer determination, positive thinking, and with support from family and friends, she pulled herself through those traumatic times. Initially, the doctors saved her from the brink of death when she had only two weeks left to live. She then survived a stem cell transplant, finding she was sensitive to the chemotherapy medicine and other drugs used in treating the side effects. She again came close to dying. When she pulled through the second time, she had to learn to eat and walk again. She realised then that she had to heal all of herself—not only physically, but also mentally, emotionally and spiritually; what she calls the “four bodies”. Deidre is now in full remission. I Believe in Miracles is a journey of self-discovery, trauma, and self-healing; Deidre believes that if she can do it, so can others.

When faced with overwhelming hardship, what we believe makes all the difference. At age twenty-six, Anne Reeder Heck was attacked by a stranger and brutally raped. Years later, still seeking to heal the remnants of this trauma, Anne stands alone in her living room one winter day and claims her desired belief aloud: “This is my year of strength.” Her clear intention results in a phone call; her rapist has been identified—fourteen years after the crime. Offering all the gripping and uplifting details of a story that sparked national interest—Heck appeared on the front page of The Washington Post and was interviewed by Diane Sawyer on Good Morning America—A Fierce Belief in Miracles lights the way for those seeking to heal from life’s traumas by demonstrating the importance of clear intention and trusting inner guidance, and the transformative power of forgiveness.

What the Valley Knows

Pinocchio, The Tale of a Puppet follows the adventures of a talking wooden puppet whose nose grew longer whenever he told a lie and who wanted more than anything else to become a real boy. As carpenter Master Antonio begins to carve a block of pinewood into a leg for his table the log shouts out, "Don't strike me too hard!"

Frightened by the talking log, Master Cherry does not know what to do until his neighbor Geppetto drops by looking for a piece of wood to build a marionette. Antonio gives the block to Geppetto. And thus begins the life of Pinocchio, the puppet that turns into a boy. Pinocchio, The Tale of a Puppet is a novel for children by Carlo Collodi is about the mischievous adventures of Pinocchio, an animated marionette, and his poor father and woodcarver Geppetto. It is considered a classic of children's literature and has spawned many derivative works of art. But this is not the story we've seen in film but the original version full of harrowing adventures faced by Pinnocchio. It includes 40 illustrations.

On January 6, 1975, Nottingham Forest were thirteenth in the old Second Division, five points above the relegation places and straying dangerously close to establishing a permanent place for themselves among football's nowhere men. Within five years Brian Clough had turned an unfashionable and depressed club into the kings of Europe, beating everyone in their way and knocking Liverpool off their perch long before Sir Alex Ferguson and Manchester United had the same idea. This is the story of the epic five-year journey that saw Forest complete a real football miracle and Clough brilliantly restore his reputation after his infamous 44-day spell at Leeds United. Forest won the First Division championship, two League Cups and back-to-back European Cups and they did it, incredibly, with five of the players Clough inherited at a club that was trying to avoid relegation to the third tier of English football. Do miracles still happen today? This book demonstrates that miraculous works of God, which have been part of the experience of the church around the world since Christianity began, continue into the present. Leading New Testament scholar Craig Keener addresses common questions about miracles and provides compelling reasons to believe in them today, including many accounts that offer evidence of verifiable miracles. This book gives an accessible and concise overview of one of Keener's most significant research topics. His earlier two-volume work on miracles stands as the definitive word on the topic, but its size and scope are daunting to many readers. This new book summarizes Keener's basic argument but contains substantial new material, including new accounts of the miraculous. It is suitable as a textbook but also accessible to church leaders and laypeople.

"This book is inspired by the holy spirit. This book will also show you, how you can receive your own miracles in every areas of your life. By depending or upon the power of God almighty and also believing in the authority of the name of Jesus Christ the savior of mankind. This book will also help the reader to understand how to keep your miracles, in case of any counter attack of the enemy."

Bernie Siegel first wrote about miracles when he was a practicing surgeon and founder of Exceptional Cancer Patients, a groundbreaking synthesis of group, individual, dream, and art therapy that provided patients with a "carefrontation." Compiled during his more than thirty years of practice, speaking, and teaching, the stories in these pages are riveting, warm, and belief expanding. Their subjects include a girl whose baby brother helped her overcome anorexia, a woman whose cancer helped her heal by teaching her to stand up for herself, and a family that was saved from a burning house by bats. Without diminishing the reality of pain and hardship, the stories show real people turning crisis into blessing, responding to adversity in ways that empower and heal. They demonstrate what we are capable of and show us that we can achieve miracles as we confront life's difficulties.

teachings and brings true peace and joy. You will discover how to: -Forgive all your relationships, -Experience unshakable inner peace, -Overcome pain, loneliness and death, -Find the strength and love of God, -Awaken now!

Offering a plan for releasing fear and embracing gratitude, reveals how simple, consistent shifts in our thinking and actions can lead to miraculous changes in daily life.

Thousands knew her as a "woman of miracles", but perhaps Kathryn Kuhlman's greatest gift for God's Kingdom was her ability to teach. Within these pages, Kuhlman talks about the reason for miracles; what money won't buy; the truth about weakness; and a prescription for healing.

A Course in Miracles is the acclaimed spiritual guide that teaches the way to universal love and peace is by undoing guilt through forgiving others. The "miracles" of the title refers to shifts in perception from fear to love, which fosters the healing and sanctification of relationships. Although expressed in terms of traditional Christianity, this life-changing work constitutes nonsectarian, universal spiritual teachings. The three-part approach begins with an explanation of the course's theory and the development of the experience of forgiveness. The second consists of a workbook, comprising 365 lessons - an exercise for each day of the year - intended to influence students' perceptions. The third section presents a manual for teachers, in which the question-and-answer format provides responses for likely inquiries as well as definitions for terms used throughout the course. Written by Dr. Helen Schucman, a clinical and research psychologist, and edited by her colleague at Columbia University, Dr. William Thetford, from 1965 to 1970, A Course in Miracles has been translated into more than 20 languages and sold millions of copies around the world.
