Will Tom ever have a story of his own? Tom Trueheart's six older brothers are famous. They go on exciting quests in the Land of Stories to complete tales the Story Bureau assigns them. Tom stays at home with his mother. But when his brothers fail to return from their latest adventures in time for Tom's twelfth birthday, a letter from the Story Bureau arrives . . . addressed to Tom. Only he can venture into the Land of Stories to find out why his brothers haven't completed their missions. Tom packs his bags and kisses his mother good-bye. He's about to discover a tale of his own. . . . How will it end?

Describes the shocking scientific devices and techniques available to any group in a position to manipulate society. This book is about the central figure of our contemporary, 'liquid modern' times - the man or woman with no bonds, and particularly with none of the fixed or durable bonds that would allow the effort of self-definition and self-assertion to come to a rest. Having no permanent bonds, the denizen of our liquid modern society must tie whatever bonds they can to engage with others, using their own wits, skill and dedication. But none of these bonds are guaranteed to last. Moreover, they must be tied loosely so that they can be untied again, quickly and as effortlessly as possible, when circumstances change - as they surely will in our liquid modern society, over and over again. The uncanny frailty of human bonds, the feeling of insecurity that frailty inspires, and the conflicting desires to tighten the bonds yet keep them loose, are the principal themes of this important new book by Zygmunt Bauman, one of the most original and influential social thinkers of our time. It will be of great interest to students and scholars in sociology and in the social

sciences and humanities generally, and it will appeal to anyone interested in the changing nature of human relationships. A teenage sociopath rises to power in Britain's criminal underworld in this "brilliant and uncompromising" thriller (The New York Times). Seventeen-year-old Pinkie Brown, raised amid the casual violence and corruption in the dire prewar Brighton slums, has left his final judgment in the hands of God. On the streets, impelled by his own twisted moral doctrine, he leads a motley pack of gangsters whose sleazy little rackets have most recently erupted in the murder of an informant. Pinkie's attempts to cover their tracks have led him into the bed of a timid and lovestruck young waitress named Rose—his new wife, the key witness to his crimes, and, should she live long enough, his alibi. But loitering in the shadows is another woman, Ida Arnold—an avenging angel determined to do right by Pinkie's latest victim. Adapted for film in both 1948 and 2010 and for the stage as both a drama and musical, and serving as an inspiration to such disparate artists as Morrissey, John Barry, and Queen, "this bleak, seething and anarchic novel still resonate[s]" (The Guardian).

Land the deals you want and develop your instincts with million-dollar negotiation techniques After selling over \$3 Billion in real estate, including the most expensive one-bedroom house in history, Josh Altman, co-star of the hit show Million-Dollar Listing Los Angeles, wants to teach you the real estate sales and negotiation tactics that have made him one of America's top agents. Buying or selling a house, whether for a client or yourself, is one of the most important (and most stressful) deals anyone can make, demanding emotional intelligence and a solid set of negotiating skills. But by mastering the same techniques that sell multi-million-dollar homes in Bel Air and Beverly Hills, you can attract buyers and close deals on any property. Josh breaks down the art of real estate into three simple parts. First, he'll help you get business in the door during the Opening. Then he takes you step-by-step through the Work: everything between the first handshake and the last. And finally, the Close, the last step that ensures all your hard work pays off as you seal the deal. Learn how to

open with a prospect, work the deal, close, open, and repeat Build and market your reputation, creating more sales opportunities Develop the traits of a closer in you and your team Drive the deal forward and get the best price for your property by creating desire, scarcity, and demand Successful real estate sales are driven by the same principles, whether they happen in the Hollywood Hills or just down the street. Josh wants to put those principles, and the techniques for applying them, in your hands. Learn them and discover what you can achieve. When Aldous Huxley wrote his famous novel *Brave New World*, he did so with the sincere belief that the dystopian world he created was a true possibility given the direction of the social, political and economic world order. Written almost thirty years later, *Brave New World Revisited* is a re-evaluation of his predictions based on the changes he had witnessed in the meantime. In this twelve-part essay, Huxley argues that society is moving toward his dystopian vision even faster than he had originally assumed, and provides his own suggestions on how to bring an end to this decadent decline. *Brave New World Revisited* condemns symptoms of modern life such as overpopulation, propaganda and extreme government control while providing a staunch defence of individualism. Despite being published over fifty years ago, the problems identified in *Brave New World Revisited* are still startlingly relevant, lending a chilling credibility to Aldous Huxley's unsettling predictions. Aeschylus was the first of the three ancient Greek tragedians whose plays can still be read or performed, the others being Sophocles and Euripides. He is often described as the father of tragedy: our knowledge of the genre begins with his work and our understanding of earlier tragedies is largely based on inferences from his surviving plays. Only seven of his estimated

seventy to ninety plays have survived into modern times. Fragments of some other plays have survived in quotes and more continue to be discovered on Egyptian papyrus, often giving us surprising insights into his work.

A year had passed since Ben Holiday bought the Magic Kingdom from the wizard Meeks, who had set a series of pitfalls against him. Ben survived, by the aid of three loyal friends: Questor Thews, an ill-trained wizard; Abernathy, a talking dog, the Court Scribe; and the lovely Willow, who sometimes had to be a tree. But Ben had been troubled by dreams of disaster to his former partner, Miles Bennett. Yet when he returned to Earth, Ben found Miles doing splendidly. Unknown to Ben, the dreams had been a trap by Meeks, who had returned to the Magic Kingdom as a tiny insect hidden in Ben's clothing. That first night back in Landover, Ben awoke to see Meeks gloating over him, claiming to have the medallion that could summon the mysterious knight-protector, the Paladin, and that he had cast a spell to witch appearances with Ben. Ben found himself outcast, no longer recognized by any friend, though all his powerful enemies seemed to know him. Without the medallion, he couldn't seek the help of the Paladin against Meeks. There was only the prism cat—whatever that might be! And where was Willow—and the mysterious black unicorn she'd set out to find?

This book is dedicated to Aristid Lindenmayer on the occasion of his 60th birthday on November 17, 1985. Contributions range from mathematics and theoretical computer science to biology. Aristid Lindenmayer introduced language-theoretic models for developmental biology in 1968. Since then the models have been customarily referred to as L systems. Lindenmayer's invention turned out to be one of the most beautiful examples of interdisciplinary science: work in one area (developmental biology) induces most fruitful ideas

in other areas (theory of formal languages and automata, and formal power series). As evident from the articles and references in this book, the interest in L systems is continuously growing. For newcomers the first contact with L systems usually happens via the most basic class of L systems, namely, DOL systems. Here "0" stands for zero context between developing cells. It has been a major typographical problem that printers are unable to distinguish between 0 (zero) and 0 (oh). Thus, DOL was almost always printed with "oh" rather than "zero", and also pronounced that way. However, this misunderstanding turned out to be very fortunate. The wrong spelling "DOL" of "DOL" could be read in the suggestive way: DO L Indeed, hundreds of researchers have followed this suggestion. Some of them appear as contributors to this book. Of the many who could not contribute, we in particular regret the absence of A. Ehrenfeucht, G. Herman and H.A. Maurer whose influence in the theory of L systems has been most significant.

Evelyn Waugh presented his biography of St. Edmund Campion, the Elizabethan poet, scholar and gentleman who became the haunted, trapped and murdered priest as a simple, perfectly true story of heroism and holiness. But it is written with a novelist's eye for the telling incident and with all the elegance and feeling of a master of English prose. From the years of success as an Oxford scholar, to entry into the

important matters at hand. She and the wealthy Giacomo Lepre have fallen in love. Her mother, however, is determined that the two young people will not marry. When, one month later, Marshall don Peppino dies, Agata's mother decides to ferry her daughter away from Messina, to Naples, where she hopes to garner a stipend from the king and keep her daughter far from trouble's reach. They travel to Naples on a boat captained by the young Englishman, James Garson. Following a tempestuous passage to Naples, during which Agata confesses her troubles to James, Agata and her mother find themselves rebuffed by the king and Agata is forced to join a convent. The Benedictine monastery of San Giorgio Stilita is rife with rancor and jealousy, illicit passions and ancient feuds. Agata remains aloof, devoting herself to the cultivation of medicinal herbs, calmed by the steady rhythms of monastic life. Through letters she stays in contact with Garson, reading all the books he sends her, and follows the news of the various factions struggling to bring unity to Italy. Though she didn't choose to enter a convent and is divided between her yearnings for purity and religiosity and her desire to be part of the world, something about the cloistered life reverberates within her. Agata is increasingly torn when she realizes that her feelings for Garson, though he is only a distant presence in her life, have eclipsed those for Lepre. A Mediterranean sister to the heroines of Jane Austen and Emily Brontë, Agata fully inhabits her own time yet in Agnello Hornby's rich characterization, she also embodies strength of will and a spiritual fortitude that is timeless.

narrative with just four characters Begum Barve, a small-time female impersonator who has spent his life playing bit roles in the professional Marathi theatre of the early twentieth century, his exploitative employer Shyamrao, and two clerks, Jawdekar and Bawdekar. Trapped between sensuous longings and the sordid reality of their humdrum existence, they seek redemption in make-believe. Layers of space and time interweave and overlap in this powerfully haunting play as dreams take shape only to turn into nightmares. Begum Barve in the original Marathi was directed by the playwright himself; it has also been performed in Hindi and Gujarati adaptations. This new edition supplements the text with a critical essay and a note on the songs by Urmila Bhardikar, translator, critic, musicologist, vocalist and Reader, Department of English, Pune University; an interview with the playwright by Dr Shubhada Shelke, scholar and commentator on Marathi theatre, and a note by Amal Allana who directed the play in Hindi. The dynamics of immigration, international commerce and the postcolonial world make it inevitable that much translation is done into a second

language, despite the prevailing wisdom that translators should only work into their mother tongue. This book is the first study to explore the phenomenon of translation into a second language in a way that will interest applied linguists, translators and translation teachers, and ESOL teachers working with advanced level students. Rather than seeing translation into a second language as deficient output, this study adopts an interlanguage framework to consider L2 translation as the product of developing competence; learning to translate is seen as a special variety of second language acquisition. Through carefully worked case studies, separate components of translation competence are identified, among them the ability to create stylistically authentic texts in English, the ability to monitor and edit output, and the psychological attitudes that the translator brings to the task. While the case studies mainly deal with Arabic speakers undergoing translator training in Australia, the conclusions will have implications for translation into a second language, especially English, around the world. Translation into the Second Language is firmly grounded in empirical research, and in this regard it serves as a stimulus and a methodological guide for further research. It will be a valuable addition for advanced undergraduate and postgraduate students of applied

linguistics, translation theory, bilingualism and second language acquisition as well as those involved in teaching or practicing translation at a professional level.

Inspired by the real psychology study popularized by the New York Times and its "Modern Love" column, this contemporary YA is perfect for fans of Eleanor and Park. Two random strangers. Two secrets. Thirty-six questions to make them fall in love. Hildy and Paul each have their own reasons for joining the university psychology study that asks the simple question: Can love be engineered? The study consists of 36 questions, ranging from "What is your most terrible memory?" to "When did you last sing to yourself?" By the time Hildy and Paul have made it to the end of the questionnaire, they've laughed and cried and lied and thrown things and run away and come back and driven each other almost crazy. They've also each discovered the painful secret the other was trying so hard to hide. But have they fallen in love? Told in the language of modern romance -- texting, Q&A, IM -- and punctuated by Paul's sketches, this clever high-concept YA is full of humor and heart. As soon as you've finished reading, you'll be searching for your own stranger to ask the 36 questions. Maybe you'll even fall in love. Rights have sold in 19 territories!

How the law harms sex workers—and what they want instead Do you have to endorse prostitution in order to support sex worker rights? Should clients be criminalized, and can the police deliver justice? In *Revolting Prostitutes*, sex workers Juno Mac and Molly Smith bring a fresh perspective to questions that have long been contentious. Speaking from a growing global sex worker rights movement, and situating their argument firmly within wider questions of migration, work, feminism, and resistance to white supremacy, they make it clear that anyone committed to working towards justice and freedom should be in support of the sex worker rights movement.

What can oral poetic traditions teach us about language and the human mind? Oral Poetics has produced insights relevant not only for the study of traditional poetry, but also for our general understanding of language and cognition: formulaic style as a product of rehearsed improvisation, the thematic structuring of traditional narratives, or the poetic use of features from everyday speech, among many others. The cognitive sciences have developed frameworks that are crucial for research on oral poetics, such as construction grammar or conversation analysis. The key for connecting the two disciplines is their common focus on usage and performance. This collection of papers explores how some of the latest research on language and cognition can contribute to advances in oral

studies. At the same time, it shows how research on verbal art in its natural, oral medium can lead to new insights in semantics, pragmatics, or multimodal communication. The ultimate goal is to pave the way towards a Cognitive Oral Poetics, a new interdisciplinary field for the study of oral poetry as a window to the mind.
