

I Viaggi Di Gulliver Gemini

While at the zoo Pat the Bunny pets the animals, from a wrinkly elephant to a feathery parrot. On board pages.

The all-time bestselling of the sagas in Penguin Classics. The Vinland Sagas are published here in a vibrant new translation. Consisting of The Saga of the Greenlanders and Eirik the Redâ’s Saga, they chronicle the adventures of Eirik the Red and his son, Leif Eirikson, who explored North America 500 years before Columbus. Famous for being the first-ever descriptions of North America, and written down in the early thirteenth century, they recount the Icelandic settlement of Greenland by Eirik the Red, the chance discovery by seafaring adventurers of a mysterious new land, and Eirikâ’s son Leif the Luckyâ’s perilous voyages to explore it.

"Dancing protein clouds: Intrinsically-disordered proteins in the norm and pathology" represents a set of selected studies on a variety of research topics related to intrinsically disordered proteins. Topics in this update include structural and functional characterization of several important intrinsically disordered proteins, such as 14-3-3 proteins and their partners, as well as proteins from muscle sarcomere; representation of intrinsic disorder-related concept of protein structure-function continuum; discussion of the role of intrinsic disorder in phenotypic switching; consideration of the role of intrinsically disordered proteins in the pathogenesis of neurodegenerative diseases and cancer; discussion of the roles of intrinsic disorder in functional amyloids; demonstration of the usefulness of the analysis of translational diffusion of unfolded and intrinsically disordered proteins; consideration of various computational tools for evaluation of functions of intrinsically disordered regions; and discussion of the role of shear stress in the amyloid formation of intrinsically disordered regions in the brain. Provides some recent studies on the intrinsically disordered proteins and their functions, as well as on the involvement of intrinsically disordered proteins in phogenesis of various diseases Contains numerous illustrative materials (color figures, diagrams, and tables) to help the readers to delve in the information provided Includes contributions from recognized experts in the field

This nuanced portrait details the rhythms of life among the Romani; the exceptional occurrences of birth, marriage, and death; and the highly codified system of conduct of the Gypsies. Roadside caravans, evening meals, multifamily feasts, village fairs, convocations of the Kris (the Romani tribunal of justice), and wedding celebrations: all are powerfully evoked in both word and image. -- Dustjacket.

Hot and Smoky Shrimp Tacos, Roasted Wild Mushroom Tacos with Queso Fresco, Fire-Roasted Corn and Poblano Chile Tacos-these are a few of the most taste-tempting tacos you'll ever put in your mouth. And what to top them with-of course, it must be the perfect salsa!

True Accounts of Slave Rescues: Then and Now

corriere internazionale della musica

Wil Myerson might have been the creator of Pontius Pirate, the most popular comic in history, before he put on the Rorschach mask and tried to kill a would-be president, but he’s not the only artist who worked on the character. Other artists fell under Wil’s influence, and now all these years later, his more renowned acolyte has fallen sway to Laura, the #1 Myerson superfan. Is it possible she influenced another comic book legend into playing vigilante? The key here is that tape the detective is trying to decipher, the one with the séance that has been haunting him since the very first issue! All this and a cameo by Dr. Manhattan to boot!

Open wide! Dentists care for people’s teeth. Give readers the inside scoop on what it’s like to be a dentist. Readers will learn what dentists do, the tools they use, and how people get this exciting job.

In the hotly anticipated sequel to the beloved Younger—now a hit TV series from the creator of Sex and the City starring Sutton Foster and Hilary Duff—Liza Miller is torn between two cities and two hearts when her bestselling novel is picked up by a major television network. New York or Los Angeles? Romance or commitment? Younger…or older? Liza Miller never dreamed that anyone would be interested in her life, let alone buy a book about it. But everything changes when, on the eve of her fiftieth birthday, she publishes a thinly veiled novel about a woman posing as a millennial called Younger—which her old friend Kelsey wants to turn into a TV show. Liza is off to Los Angeles to help Kelsey write the pilot. But that means leaving behind her on-again off-again boyfriend Josh, her pregnant daughter, and her best friend Maggie. Can Liza find happiness in her new adventure if it means leaving everyone she loves? Yet as Liza is swept up in the heady world of Hollywood, she finds herself thinking less and less of her life back home in New York. And when she meets Hugo Fielding—the devastatingly handsome and incredibly flirtatious Brit playing her boss on the show—she toes the line between having a crush and falling in love. Torn between New York and Los Angeles, a familiar love and a risky one, an established career and a shot at stardom, Liza must decide if it’s too late to go to the ball…and if she even wants to. From the author of the beloved Younger, this is an endearing, hilarious, and relatable tale of second chances and new beginnings that proves: the best thing about getting Older is that you finally get to be yourself.

Metabolic Profiling: Its Role in Biomarker Discovery and Gene Function Analysis

Unwired

The Shaping of One Man’s Game from Patient Mouse to Rabid Wolf

An evil princess, a ruthless persecutor, a wretched match. Tormented at home and bullied during her studies abroad, second-born Iona of Wessett hides in the quiet corners of her father’s castle. Her art and music provide refuge, but her cruel sister Lisenn ever lurks like a monster stalking its prey.Such has been her life for twenty years. However, a promise of reprieve and retribution arrives when the neighboring kingdom of Capria proposes an alliance between their new crown prince and Wessett’s heir to the throne. The treaty will rid Iona of the toxic Lisenn, and the potential groom is none other than her erstwhile bully, Jaoven of Derval. The marriage could not be more poetic: each deserves the misery the other might inflict. Except that Jaoven, humbled by the war that elevated his rank, appears to have reformed, and the fate of both kingdoms now hinges on the disastrous union he’s about to make.

Crossing

The witch Baba Yaga and a wolf switch bodies and form an unlikely alliance to save the forest from an evil tsar.

At the age of twelve, Jan Yoors ran away from his cultural Belgian family to join a wandering band, a kumpania, of Gypsies. For ten years, he lived as one of them, traveled with them from country to country, shared both their pleasures and their hardshipsand came to know them as no one, no outsider, ever has. Here, in this firsthand and highly personal account of an extraordinary people, Yoors tells the real story of the Gypsies fascinating customs and their never-ending struggle to survive as free nomads in a hostile world. He vividly describes the texture of their daily life: the Gypsies as lovers, spouses, parents, healers, and mourners; their loyalties and enmities; their moral and ethical beliefs and practices; their language and culture; and the history and traditions behind their fierce pride. The exultant celebrations, the daring frontier crossings, the yearly horse fairs, the convoluted business deals in which Gypsy shrewdness combined with all the apparatus of modern technology are all brought to life in this memorable portrait of the most romanticized, yet most maligned and least-known people on earth. An insiders story, The Gypsies lifts the veil of secrecy that for so long has enshrouded this race of strangers in our midst.

A famous child psychologist explains how fairy tales educate, support, and liberate the emotions of children.

A girl tumbles into a downward spiral when a romantic encounter turns violent in this heartwrenching novel from the author of Cracked. Dell is used to disappointment. Ever since her dad left, it’s been one let down after another. But no one—not even her best friend—understands all the pain she’s going through. So Dell hides behind self-deprecating jokes and forced smiles. Then the one person she trusts betrays her. Dell is beyond devastated. Without anyone to turn to for comfort, her depression and self-loathing spin out of control. But just how far will she go to make all the heartbreak and the name-calling stop?

Are we all at the mercy of our brain chemistry? Do you think that the amygdala and the hippocampus are fantastical sea monsters? What can an MRI scan tell us? Could you explain to dinner-party guests why we don’t giggle when we tickle ourselves? 30-Second Brain is here to fill your mind with the science of exactly what’s happening inside your head. Using no more than two pages, 300 words and an illustration, this is the quickest way to understand the wiring and function of the most complex and intricate mechanism in the human body. Discover how the networks of 90 billion nerve cells work together to produce perception, action, cognition and emotion. Explore how your brain defines your personality, and what it gets up to while you are asleep. Illustrated with mind-bending graphics and supported by biographies of pioneers in the field of neuroscience, it’s the book to get your grey matter thinking about your grey matter.

Love is a battlefield for a quirky matchmaker and the cocky football star who hires her to find him a wife. As the owner of Perfect Pairings matchmaking service, Maddie McRae earns her living helping others fall in love. And one thing the sweet Southern belle knows for sure is that the foundation of wedded bliss is built on similarities: opposites might attract, but they don’t stay together. Enter Mason Spark. Rude, arrogant, and notoriously allergic to monogamy, the hottest quarterback in the NFL is Maddie’s polar opposite. He’s also her new client. Her gorgeous, infuriating new client who’s paying her an outrageous sum of money to find him a wife. With his multi-million dollar contract on the line due to his behavior on and off the field, bad boy Mason is willing to pretend to settle down. But when he starts to fall for the adorable matchmaker who can’t stand him, the playboy finds himself in the game of his life to keep something he never thought he’d lose-his heart.

Follow two abolitionists who fought one of the most shockingly persistent evils of the world: human trafficking and sexual exploitation of slaves. Told in alternating chapters from perspectives spanning more than a century apart, read the riveting 19th century first-hand account of Harriet Jacobs and the modern-day eyewitness account of Timothy Ballard. Harriet Jacobs was an African-American, born into slavery in North Carolina in 1813. She thwarted the sexual advances of her master for years until she escaped and hid in the attic crawl space of her grandmother’s house for seven years before escaping north to freedom. She published an autobiography of her life, Incidents in the Life of a Slave Girl, which was one of the first open discussions about sexual abuse endured by slave women. She was an active abolitionist, associated with Frederick Douglass, and, during the Civil War, used her celebrity to raise money for black refugees. After the war, she worked to improve the conditions of newly-freed slaves. As a former Special Agent for the Department of Homeland Security who has seen the horrors and carnage of war, Timothy Ballard founded a modern-day "underground railroad" which has rescued hundreds of children from being fully enslaved, abused, or trafficked in third-world countries. His story includes the rescue and his eventual adoption of two young siblings--Mia and Marky, who were born in Haiti. Section 2 features the lives of five abolitionists, a mix of heroes from past to present, who call us to action and teach us life lessons based on their own experiences: Harriet Tubman--the "Conductor"; Abraham Lincoln--the "Great Emancipator"; Little Mia--the sister who saved her little brother; Guesno Mardy--the Haitian father who lost his son to slave traders; and Harriet Jacobs--a teacher for us all.

It is evident that biochemical control is not strictly hierarchical and that intermediary metabolism can contribute to control of regulatory pathways. Metabolic studies are therefore increasingly important in gene function analyses, and an increased interest in metabolites as biomarkers for disease progression or response to therapeutic intervention is also evident in the pharmaceutical industry. This book offers guidelines to currently available technology and bioinformatics and database strategies now being developed. Evidence is presented that metabolic profiling is a valuable addition to genomics and proteomics strategies devoted to drug discovery and development, and that metabolic profiling offers numerous advantages.

" A simmering slow burn bursting with banter... This is a romance for anyone who ’s ever felt too messy to be loved. " —ROSIE DANAN, author of The Roommate In this fierce and funny battle of the exes, Ashley Winstead’s Fool Me Once explores the chaos of wanting something you used to have. Lee Stone is a twenty-first-century woman: she kicks butt at her job as a communications director at a women-run electric car company (that ’s better than Tesla, thank you), and after work she is “ Stoner, ” drinking guys under the table and never letting any of them get too comfortable in her bed... That ’s because Lee ’s learned one big lesson: never trust love. Four major heartbreaks set her straight, from her father cheating on her mom all the way to Ben Laderman in grad school—who wasn ’t actually cheating, but she could have sworn he was, so she reciprocated in kind. Then Ben shows up five years later, working as a policy expert for the most liberal governor in Texas history, just as Lee is trying to get a clean energy bill rolling. Things get complicated—and competitive—as Lee and Ben are forced to work together. Tension builds just as old sparks reignite, fanning the flames for a romantic dustup the size of Texas.

In Robinson Crusoe, Crusoe washes up on an uninhabited island on the North American coast. He lives there for twenty-eight years, documenting his physical and spiritual growth in his journal. Then one day a British ship sails by the island, and he is rescued. In the mid 17th century, Robinson Crusoe begins his career as a sailor, against the wishes of his parents, who would prefer him to go into law. Crusoe survives a deadly shipwreck in the Caribbean and manages to set up a camp for himself on an uninhabited island. Much of the story follows the time Crusoe spent building his shelter and other things to make his life more comfortable. He documents his gardening, goat raising, and hunting, as well as his religious reflections.

A tongue-in-cheek manual on how servants should cope with the demands of their masters and perform their tasks in ways that will best satisfy their indolence, wastefulness and greed. Directions to Servants takes a caustic and irreverent look at master-servant relations. Written towards the end of his writing career and published posthumously, this pamphlet shows Swift – who was himself known to be strict but fair to his own servants, as illustrated in the Appendix to this volume – at his witty and mischievous best.

Epigrammata

I viaggi di Gulliver è il capolavoro di Jonathan Swift, uno degli scrittori più rappresentativi della letteratura settecentesca. La presente pubblicazione contiene integralmente i primi due viaggi di Gulliver, quelli a Lilliput e a Brobdingnag, il paese dei nani e il paese dei giganti. Gulliver, l'eroe protagonista delle avventure di questo libro, nei suoi viaggi per mare incontra sempre creature fuori dal normale e con loro intreccia vicende quanto mai imprevedibili e bizzarre. Titolo originale: Gulliver's travels.

When Lena Martin gets set up with Ember Grove’s most boring bachelor Will Ashton, she doesn’t realize the worst part will be falling for his sister Grace. Especially when she finds out Grace is the girl she’s been anonymously exchanging love letters with—and who thinks her letter partner is a man. Relying on her friend Cara’s hospitality for a place to live, Lena really doesn’t have a choice when Cara tells her to start seeing her fiancé’s brother and have a date for their wedding. Never mind the fact that Lena’s been starting to realize maybe she’s not as straight as she’d thought—there’s no way she’s telling Cara that. As usual, her way out is to grin and bear it. Grace Ashton is tired of this small town and her family’s backwards attitude. After shoving her eldest brother Dan into planning his wedding with his ex and then lining up a date for her next brother Will, she knows she’s next on the chopping block, and wants to do whatever it takes to drive away this Lena Martin girl who’s apparently got her eyes on Will. And both of them find refuge in the same secret grotto, in the woods, where they realize they’re not the only one with this secret hiding place, and leave anonymous letters for one another—and fall headfirst in love without even knowing the other’s name. And for Grace, without even knowing the anonymous letter writer she’s fallen for is a woman. But as wedding planning keeps drawing Lena and the Ashtons together, can Lena and Grace resist that same spark of connection in one another they feel from their love-letter writers? The Safest Place is a 78,000-word slow burn new adult romance set in the same small-town romance setting as and after the events of The Simple Answer, but follows different characters and stands alone. It features two absolute disasters who figure out the people they want to be, a double toaster oven plotline, overbearing family trying to get Lena with Will but her falling for his sister instead, some enemies-to-lovers that’s more like enemies-to-grudgingly-accepting-being-in-the-same-room-to-friends-to-enemies-to-best-friends-to-enemies-to-even-better-best-friends-to-lovers, and some very mushy falling in love anonymously via secret letters. Content warnings for open-door sex scenes, homophobic and abusive parents, mentions of past relationship abuse and of conversion therapy but it never happens I promise, Lena whacking Percy with a stick but he was asking for it, a very boring man who actually turns out to be all right, and a girl who stubbornly refuses to notice she’s a lesbian.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public." —an excerpt
