

Ib History Paper 1 November 2011 Markscheme

Ireland under the Stuarts and During the Interregnum in three volumes is a historical account of Ireland in the 17th century, covering the period from 1603, when James VI King of Scots became James I of England and Ireland, to the Glorious Revolution and the end of Stuart's reign in Ireland. First part of the book spans from 1603 to 1642 covering the period from the time King James VI united the Kingdoms of England, Scotland and Ireland in a personal union to the Wars of the Three Kingdoms an intertwined series of conflicts that led to abolition of monarchy and the interregnum. Second part covers the period from 1642 to the end of interregnum in 1660 when Charles II was restored to the thrones of the three realms. The final part of the work covers the years from the restoration of monarchy to the Glorious Revolution, the overthrowing of the Stuart Dynasty and the crowning of William of Orange for the king of England, Ireland and Scotland. China and Pakistan have been each other's only 'all-weather friend' for decades, but the relationship remains little understood. Small recounts the history of the Sino-Pakistani axis, including details on its most sensitive aspects, such as China's dealings with the Taliban and its support for Pakistan's nuclear programme. Today this relationship plays a central role in Asia's geopolitics, with ramifications for Afghanistan, India, Asia as a whole, and the West. Finally, Small discusses the dilemma China faces in maintaining its current relationship with Pakistan. Comprehensive second editions of History for the IB Diploma Paper 1, revised for first teaching in 2015.

Shared water resources in Israel and Palestine are often the site of political, economic, historical, legal and ethical contestation. In this, the first of two volumes on the subject, the authors look beyond the political tensions of the region, to argue for the need for shared water security and co-operative resource management. The History of Water in the Land Once Called Palestine, traces the history of water resources and security and their development from the Ottoman period until 2020, examining how the state of water security amongst Palestinians and Israelis has diverged, resulting in the current success of Israeli water security in contrast to the high water insecurity experienced by Palestinians. The authors assess water security in three parts: security of access to water resources, security of access to water services and finally, security against risks to and from water.

Reinforce knowledge and develop exam skills with revision of key historical content, exam-focussed activities and guidance from experts as part of the Access to History Series. · Take control of revision with helpful revision tools and techniques, and content broken into easy-to-revise chunks. · Revise key historical content and practise exam technique in context with related exam-focussed activities. · Build exam skills with Exam Focus at the end of each chapter, containing exam questions with sample answers and examiner commentary, to show you what is required in the exam.

"Vivid and painstakingly researched biography." —Daily Telegraph "Wilberforce modeled a combination of Christian principle and tactical genius as relevant in the twenty-first century as in his own time." —William Hague "The biography is the product of much painstaking research. John Pollock has made use of virtually all the extant manuscript collections containing Wilberforce materials. He gives a detailed picture of his life and character which includes some important new information." —Observer William Wilberforce was at the heart of British politics for over forty years but is chiefly remembered as the reformer who campaigned for the abolition of the slave trade in England. This intriguing and insightful biography of his life will inspire you to find ways to stand on your convictions and make a difference wherever you are.

In the English-speaking world the Great War maintains a tenacious grip on the public imagination, and also continues to draw historians to an event which has been interpreted variously as a symbol of modernity, the midwife to the twentieth century and an agent of social change. Although much 'common knowledge' about the war and its aftermath has included myth, simplification and generalisation, this has often been accepted uncritically by popular and academic writers alike.

While Britain may have suffered a surfeit of war books, many telling much the same story, there is far less written about the impact of the Great War in other combatant nations. Its history was long suppressed in both fascist Italy and the communist Soviet Union: only recently have historians of Russia begun to examine a conflict which killed, maimed and displaced so many millions. Even in France and Germany the experience of 1914-18 has often been overshadowed by the Second World War. The war's social history is now ripe for reassessment and revision. The essays in this volume incorporate a European perspective, engage with the historiography of the war, and consider how the primary textual, oral and pictorial evidence has been used - or abused. Subjects include the politics of shellshock, the impact of war on women, the plight of refugees, food distribution in Berlin and portrait photography, all of which illuminate key debates in war history.

The History of Ireland: 17th Century in three volumes is a historical account of Ireland in the 17th century, covering the period from 1603, when James VI King of Scots became James I of England and Ireland, to the Glorious Revolution and the end of Stuart's reign in Ireland. An exciting new series that covers the three prescribed subjects for Paper 1 of the IB 20th Century World History syllabus. This coursebook covers Paper 1, Prescribed Subject 3, Communism in Crisis 1976–89, in the 20th Century World History syllabus for the IB History programme. The text is divided into clear sections following the IB syllabus structure and content specifications. It offers in-depth coverage of the subject as well as detailed study of a wide range of primary and secondary sources to develop students' analytical skills. It also provides plenty of exam practice including student answers with examiner's comments, simplified mark schemes and practical advice on approaching the document-based Paper 1 examination.

This coursebook covers Paper 2, World History Topic 10: Authoritarian States (20th century) of the History for the IB Diploma syllabus for first assessment in 2017. Tailored to the requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the following detailed studies from around the world: Mussolini and Italy, Hitler and Germany, Mao and China, and Castro and Cuba.

Refugees in Europe, 1919–1959 offers a new history of Europe's mid-20th century as seen through its recurrent refugee crises. By bringing together in one volume recent research on a range of different contexts of groups of refugees and refugee policy, it sheds light on the common assumptions that underpinned the history of refugees throughout the period under review. The essays foreground the period between the end of the First World War, which inaugurated a series of new international structures to deal with displaced populations, and the late 1950s, when Europe's home-grown refugee problems had supposedly been 'solved' and attention shifted from the identification of an exclusively European refugee problem to a global one. Borrowing from E. H. Carr's *The Twenty Years' Crisis*, first published in 1939, the editors of this volume test the idea that the two post-war eras could be represented as a single crisis of a European-dominated international order of nation states in the face of successive refugee crises which were both the direct consequence of that system and a challenge to it. Each of the chapters reflects on the utility and limitations of this notion of a 'forty years' crisis' for understanding the development of specific national and international responses to refugees in the mid-20th century.

Contributors to the volume also provide alternative readings of the history of an international refugee regime, in which the non-European and colonial world are assigned a central role in the narrative.

Tailored to the Higher Level requirements of the IB syllabus and written by experienced IB History examiners and teachers, it offers authoritative and engaging guidance through the topic.

Peel is by training an anthropologist, but one possessed of an acute historical sensibility. Indeed, this magnificent book achieves a degree of analytical verve rare in either discipline. --History Today [T]his is scholarship of the highest quality. . . . Peel lifts the Yoruba past to a dimension of comparative seriousness that no one else has managed. . . . The book teems with ideas . . . about big and compelling matters of very wide interest. --T. C. McCaskie In this magisterial book, J. D. Y. Peel contends that it is through their encounter with Christian missions in the mid-19th century that the Yoruba came to know themselves as a distinctive people. Peel's detailed study of the encounter is based on the rich archives of the Anglican Church Missionary Society, which contain the journals written by the African agents of mission, who, as the first generation of literate Yoruba, played a key role in shaping modern Yoruba consciousness. This distinguished book pays special attention to the experiences of ordinary men and women and shows how the process of Christian conversion transformed Christianity into something more deeply Yoruba.
