Spend analysis is a key component of strategic supply management. This book provides in-depth guidance on what spend analysis really is, what it specifically involves, and how to use it to help your organization achieve its full potential.

I Loved a Rogue

Teach Yourself Assertiveness will use tips and strategies, explanations and illustrative stories to help anyone, whether at home or in work, to practise being composed, unambiguous and in control.

The Prince Catchers

In the third in Katharine Ashe's Prince Catchers series, the eldest of three very different sisters must fulfill a prophecy to discover their birthright. But if Eleanor is destined to marry a prince, why can't she resist the scoundrel who seduced her? She can pour tea, manage a household, and sew a modest gown. In short, Eleanor Caulfield is the perfect vicar's daughter. Yet there was a time when she'd risked everything for a black-eyed gypsy who left her brokenhearted. Now he stands before her—dark, virile, and ready to escort her on a journey to find the truth about her heritage. Leaving eleven years ago should have given Taliesin freedom. Instead he's returned to Eleanor, determined to have her all to himself, tempting her with kisses and promising her a passion she's so long denied herself. But if he was infatuated before, he's utterly unprepared for what will happen when Eleanor decides to abandon convention—and truly live . . .

Spend Analysis

The book covers various aspects of dairying and milk products such as dairy farm establishment, management, production and utilisation of various dairy products. Information has been included on various aspects of dairy farming starting with selection and purchase of dairy cattle, their care and management, with respect to housing, feeding, breeding and health care during various physiological states such as growth, pregnancy and lactation and during different seasons. Details of health care management along with common diseases have been covered with all information required for educated farmers and technicians working in these areas. Various means for consistent improvement of the stock has also been included. Production of clean milk, its procurement, processing and distribution has been covered with more emphasis on common processing technologies such as pasteurisation and sterilisation. Different forms of liquid milk available in the market has been described along with its standards and other specifications for the knowledge of common man and technicians. Manufacturing methods of milk products have been included with appropriate flow chart wherever required and various categories of milk products have been covered in detail under different chapters under milk products. This book has been prepared with emphasis on second year syllabus of Vocational higher secondary course on milk products and dairying and considering the lack of a suitable textbook for this subject. Hence the book is expected to fill the gap of a textbook for the above said and similar courses. Also the book may be accepted as a textbook/manual for educated farmers, other teaching and training programmes covering similar syllabus like that of dairy farm instructors and as a handbook for Veterinary Students and Dairy Extension Officers. With these introductory notes, we presume that the book will satisfy its readers' requirements and form a valuable textbook/reference book for all those concerned with dairy animal production and utilisation of their products ultimately benefiting the farming community.

Framework for Assessing the Acquisition Function at Federal Agencies

The Codex Committees on Meat Hygiene, Processed Meat and Poultry Products, Residues of Veterinary Drugs in Foods and Food Additives and Contaminants and the ad hoc Task Force on Animal Feeding have developed texts on meat hygiene, animal feeding and antimicrobial resistance. Includes the Code of Hygienic Practice for Meat; the Code of Practice on Good Animal Feeding; a Glossary of Terms and Definitions (Veterinary Drugs Residues in Foods), and more. This first edition includes all texts adopted by the Codex Alimentarius Commission up to 2007.

The Window Into Strategic Sourcing

Fed. agencies are relying increasingly on contractors to perform their missions. With hundreds of billions of tax dollars spent each year on goods & services, it is essential that fed. acquisition be handled in an efficient, effective, & accountable manner.

However, many organizations continue to identify systemic weaknesses in key areas of acquisition. This framework was developed to enable high-level, qualitative assessments of the strengths & weaknesses of the acquisition function at fed. agencies. It consists of 4 interrelated cornerstones that are essential to an efficient, effective, & accountable acquisition process: organizational alignment & leadership, policies & processes, human capital, & knowledge & info. management.
