The Changing Landscape of International Schooling

The SAGE Handbook of Research in International Education

Cambridge IGCSE® First Language English Language and Skills Practice Book

The number of English-medium international schools that deliver their curriculum wholly or partly in the English language reportedly reached 6,000 in January 2012. It is anticipated this number will rise to over 11,000 schools by 2022, employing over 500,000 English-speaking teachers. The number of children being taught in these schools reportedly reached 3 million in March 2012. Alongside this phenomenal growth the landscape of international schooling has changed fundamentally, moving away from largely serving the children of the expat and globally mobile business community and Embassies, towards serving the "local" children of the wealthy and emerging middle-class. This has been reflected in the shift away from non-profit ownership by the school community towards ownership by for-profit companies and proprietors. In this book, Tristan Bunnell explores the changing landscape of international schooling and discusses the implications of these changes, both in terms of theoretically conceptualizing the scale, nature and purpose of the field, and in terms of practically serving and administering the growing industry that international education is becoming. *The Changing Landscape of International Schooling* will be worthwhile reading for researchers, academics and students of international schooling, leaders and teachers in international schools, and those interested in the broader development of international education.

This must-have handbook offers a comprehensive survey of the field. It reviews the language education policies of Asia, encompassing 30 countries sub-divided by regions, namely East, Southeast, South and Central Asia, and considers the extent to which these are being implemented and with what effect. The most recent iteration of language education policies of each of the countries is described and the impact and potential consequence of any change is critically considered. Each country chapter provides a historical overview of the languages in use and language education policies, examines the ideologies underpinning the language choices, and includes an account of the debates and controversies surrounding language and language education policies, before concluding with some predictions for the future.

Putting CLIL into Practice: Oxford Handbooks for Language Teachers

MSCEIS 2019

Fully updated, flexible resources taking an active-learning approach that encourages students to aim higher in the 0500, 0524 and 0990 syllabuses. With travel writing, magazine articles, blogs and extracts from writers such as Roald Dahl and D. H. Lawrence, this coursebook helps students develop their English Language skills through an active, communicative approach. The first unit in each part covers text analysis, summary writing and note-taking. The second deals with directed writing and the third looks at descriptive and narrative

composition and includes suggestions for coursework topics if your school follows this pathway. Suggested answers to coursebook questions are included in the teacher's book.

This book presents an in-depth study of assessment innovation and its impact on teaching and learning. The context is New Zealand, and the focus is additional languages other than English and the recent introduction of a radical new assessment of students' spoken proficiency, called interact. The book crosses the traditional theoretical and methodological boundaries associated with language testing research, which focuses on assessment performance, and presents an alternative approach where stakeholders become the centre of interest. It advances our understanding of how assessment innovation impacts on two key groups - teachers and students in schools - based on data collected from a substantial two-year research project. It presents an account of these stakeholders' perceptions of the validity and usefulness of the new assessment in comparison with the more traditional test that it has replaced. *Assessing Foreign Language Students' Spoken Proficiency* makes an outstanding and original contribution to the field of second and foreign language teaching, providing a theory and research-based account of the development of a learner-centred approach to oral proficiency assessment. It is an important resource for teachers and teacher educators as well as assessment and curriculum specialists worldwide. It deserves to be widely read.

The student demographic of universities today has changed quite dramatically from even a decade ago. As universities seek to internationalise, widen participation and derive attendant reputational and financial benefits, along with greater opportunities for research collaborations and industry links, they also face a growing challenge associated with what Neil Murray terms 'the English language question'. In particular, as the proportion of students of non-English speaking backgrounds entering universities increases, there is growing concern over levels of language proficiency and what this can mean for educational standards, the student experience and, ultimately, institutional standing. *Standards of English in Higher Education* unpacks a number of key and interrelated issues - for example, the assessment of proficiency and the structure and nature of provision - that bear on the question of English language standards, and in doing so offers a frank and critical appraisal of English language in higher education

today.

The Success International series offers a practical approach to language learning and support. Success International English Skills for Cambridge IGCSE® Workbook is designed to give students further practise and support when studying for the Cambridge IGCSE® in English as a Second Language. The Workbook consolidates and tests the understanding of the language and themes in the Student's Book, supporting students both in the classroom and in individual study. The Workbook offers a wide range of stimulating and challenging exercises, including work on vocabulary development, spelling, punctuation, tone, register, writing style, grammar and comprehension. Answers to both the Student's Book and the Workbook are available in the Teacher's Book.
