In the eighteenth and nineteenth centuries, Irish writers played a key role in transatlantic cultural conversations – among Canada, Britain, France, America, and Indigenous nations – that shaped Canadian nationalism. Nationalism in Ireland was likewise influenced by the literary works of Irish migrants and visitors to Canada. Canada to Ireland explores the poetry and prose of twelve Irish writers and nationalists in Canada between 1788 and 1900, including Thomas Moore, Adam Kidd, Lord Edward Fitzgerald, Thomas D'Arcy McGee, James McCarrroll, Nicholas Flood Davin, and Isabella Valancy Crawford. Many of these writers were involved in Irish political causes, including those of the Patriots, the United Irish, Emancipation, Repeal, and Young Ireland, and their work explores the similar ways in which nationalists in Ireland and Indigenous and settler communities in Canada retained their cultural identities and sought autonomy from Britain. Initially writing for an audience in Ireland, they highlighted features of the landscape and culture that they regarded as distinctively Canadian and that were later invoked as powerful unifying symbols by Canadian nationalists. Michele Holmgren shows how these Irish writers and movements are essential to understanding the tenor of early Canadian literary nationalism and political debates concerning Confederation, imperial unity, and western expansion. Canada to Ireland convincingly demonstrates that Canadian cultural nationalism left its mark on both countries. Contemporary decolonization movements in Canada and current cultural exchanges between Ireland and Indigenous peoples make this a timely and relevant study.

Premised on the belief that criminal law is an exciting subject to learn and teach, this popular casebook provides a balanced and creative overview of classic and modern criminal law cases and issues while covering both common law foundations and modern statutory reform, including the Model Penal Code. The casebook invites classroom consideration of many controversies in the field (e.g., rape law, race-based jury nullification, Internet crime, and anti-stalking legislation) and defenses (e.g., battered women's self-defense). Using imaginative examples from literature and music to illustrate criminal law issues (e.g., examining insanity with Edgar Allen Poe's The Tell-Tale Heart and homicide with Willa Cather's O Pioneers!), the casebook allows law students to confront some of the Big Questions with which philosophers, theologians, scientists, poets, and lawyers have grappled for centuries.

CERC has used wave gages to gather prototype wave data since 1948. Two basic types of gages are now used in the field - the step-resistance staff gage and the underwater pressure-sensitive gage. CERC has developed three types of step-resistance staff gages - a series type for use in fresh water, a parallel type for use in salt water, and a relay-operated type for use in either fresh or salt water or in water where wide changes in salinity occur. The pressure gage can be used in water of any salinity. The series and parallel gages have an accuracy of plus or minus 5 percent plus the spacing of one sensor increment. The relay gage has an accuracy of plus or minus 2 percent plus the spacing of one sensor increment. The accuracy of the pressure-sensitive gage is not as precise as that of the step-resistance gages. The report describes each gage and the theory of operation, details of fabrication, steps for calibration and installation, and requirements of maintenance. (Author).

Ramsey Abbey, Cambridgeshire, was founded in 969 and rapidly became of one the richest and most important Benedictine houses in the country. It was famous for its school and library, and a thriving market town grew up around it, despite its isolated position in the Fens. The cartulary contains a range of legal, financial and ecclesiastical documents dating from 974 to 1436, although the greater part was compiled in the fourteenth century. It is particularly important for the study of manorial and economic history (and the abbey's twelfth-century chronicle is also reissued in this series). This three-volume edition was published between 1884 and 1893. Volume 2 contains documents 230-509, although they are not arranged chronologically. They include extensive Latin rent rolls, as the abbey held property throughout East Anglia and in London, and Anglo-Saxon charters of Edward the Confessor. English side-notes to the text are provided throughout.

On the English Channel Island of Guernsey, Detective Inspector Ed Moretti and his new partner, Liz Falla, investigate vicious attacks on Epicure Films. The international production company is shooting a movie based on British bad-boy author Gilbert Ensor ' s bestselling novel about an Italian aristocratic family at the end of the Second World War, using fortifications from the German occupation of Guernsey as locations, and the manor house belonging to the expatriate Vannonis. When vandalism escalates into murder, Moretti must resist the attractions of Ensor ' s glamorous American wife, Sydney, consolidate his working relationship with Falla, and establish whether the murders on Guernsey go beyond the island. Why is the Marchesa Vannoni in Guernsey? What is the significance of the design that appears on the daggers used as murder weapons, as well as on the Vannoni family crest? And what role does the marchesas statuesque niece, Giulia, who runs the family business and is probably bisexual, really play?

In the wide spectrum of cartoons as humorous drawings, which include single panel (gag) cartoons, strip cartoons, moving pictures etc, Patrick has concentrated on British joke cartoons. Although they have a place in the pantheon of humour, Patrick has avoided political and satirical subjects. His humour is gentle and often replies on "bad puns and much more." Anita O'Brian, the Director/Curator of the Cartoon Museum has described his work as "a great sense of humour." Patrick's recommendation is that "every loo should have a copy!"

"Daemon in the Sanctuary"explores the uncanny contradiction between the phenomenological experience of home as a site of nurture and security and the empirical reality that people are far more likely to be hurt and even killed in their own homes by their intimates, rather than at the hands of strangers. Moving from the syrupy tributes of the god of love in Plato's "Symposium"to the subject of domestic violence appears to be a giant leap, but he author shows that embroidered romantic ideas about love prepare the initiate poorly for the reality of intimate connection. Poets and philosophers who lead us to believe that love is heaven sent can leave us craving an extreme experience. We crave an earth-shaking, life-altering intrusion on our tranquility as evidence that love is real. Thus the naive initiate can easily mistake the flutter of the pulse, the quickening of the heart rate, the flush, the confused emotions, and the painful longing as signs of the god's gift. But these are also the signs of fear! Wendy C. Hamblet, a philosopher in the phenomenological lineage, examines the truth value of phenomenological experience, through the lens of the problem of intimate violence. If Husserl is right and phenomenological method provides the ground of all empirical truth, then what is to be made of the fundamental contradiction between the lived experience of home as a site of nurture and security and of intimates as guardians and caretakers, and the empirical fact, evident in every human society, that people are far more likely to be harmed, and even killed, in their homes or in the homes of their intimates and at the hands of those charged with their care? Hamblet carefully choreographs a dance between the two opposing "truths" to expose how the lived sense of home, colored by ideals, can tint people's expectations about intimate connection and cloud their ability to recognize the signs of intimate abuse. This book illuminates the dangers and pitfalls of unhealthy intimacy and offers a regimen for loosening the grip of a sickened love's pathological hold.
