Service-learning has kept pace neither with the rapid growth in e-learning in all its forms nor with the reality that an increasing number of students are learning online without exposure to the benefits of this powerful pedagogy. Eservice-learning (electronic service-learning) combines service-learning and on-

line learning and enables the delivery of the instruction and/or the service to occur partially or fully online. Eservice-learning allows students anywhere, regardless of geography, physical constraints, work schedule, or other access limitations, to experience service-learning. It reciprocally also equips online

learning with a powerful tool for engaging students. In eservice-learning, the core components of service, learning, and reflection may take a different form due to the online medium--for example, reflection often occurs through discussion board interactions, journals, wikis, or blogs in an eservice-learning
