"Hypnotic...It is ever tempting to try to fathom his restless spirit and his determination to challenge fate." —Janet Maslin, New York Times
Werner Herzog (Grizzly Man) is one of the most revered and enigmatic filmmakers of our time, and Fitzcarraldo is one of his most honored and admired films. More than just Herzog’s journal of the making of the monumental, problematical motion picture, which involved, among other things, major cast changes and reshoots, and the hauling (without the use of special effects) of a 360-ton steamship over a mountain , Conquest of the Useless is a work of art unto itself, an Amazonian fever dream that emerged from the delirium of the jungle. With fascinating observations about crew and players—including Herzog’s lead, the somewhat demented internationally renowned star Klaus Kinski—and breathtaking insights into the filmmaking process that are uniquely Werner Herzog, Conquest of the Useless is an eye-opening look into the mind of a cinematic master.

Presents brightly colored illustrations of pond animals.

Hey! Hey! What do you say! It's time to take a bath today. From the irrepressible Sandra Boynton comes an irresistible storybook for bath time. Bath Time! is waterproof, nontoxic, completely baby-safe—and it floats! It's a classic tale of pig meets paint. Spattered with colors from a long day at the easel, the pig takes to the tub, washcloth in hoof, determined to get all pink and clean. Gently scrub from top to toes. Now I kiss you on the nose. All clean! (Squeak squeak!) On the last page, the snout has a bound-in squeaker. Get it? Squeaky clean?

*A most untraditional love story, this is the celebrated tale of Henry DeTamble, a dashing, adventuresome Librarian who inadvertently travels through time, and Clare Abshire, an artist whose life takes a natural sequential course. Henry and Clare's passionate affair endures across a sea of time and captures them in an impossibly romantic trap that tests the strength of fate and basks in the bonds of love.*

*"Niffenegger's inventive and poignant writing is well worth a trip" (Entertainment Weekly).*

*Introduces the birth and childhood of Jesus, and the major events of his ministry.*

*A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year People speak different languages, and always have. The Ancient Greeks took no notice of anything unless it was said in Greek; the Romans made everyone speak Latin; and in India, people learned their neighbors' languages—as did many ordinary Europeans in times past (Christopher Columbus knew Italian, Portuguese, and Castilian Spanish as well as the classical languages). But today, we all use translation to cope with the diversity of languages. Without translation there would be no world news, not much of a reading list in any subject at college, no repair manuals for cars or planes; we wouldn't even be able to put together flat-pack furniture. Is That a Fish in Your Ear? ranges across the whole of human experience, from foreign films to philosophy, to show why translation is at the heart of what we do and who we are. Among many other things, David Bellos asks: What's the difference between translating unprepared natural speech and translating Madame Bovary? How do you translate a joke? What's the difference between a native tongue and a learned one? Can you translate between any pair of languages, or only between some? What really goes on when world leaders speak at the UN? Can machines ever replace human translators, and if not, why? But the biggest question Bellos asks is this: How do we ever really know that we've understood what anybody else says—in our own language or in another? Surprising, witty, and written with great joie de vivre, this book is all about how we comprehend other people and shows us how, ultimately, translation is another name for the human condition.*

*The extraordinarily candid tale of Miller's sexual escapades amongst the lowlives of Brooklyn, banned in Great Britain and America for nearly twenty years after its first publication in 1949.*

*Jitterbug Perfume is an epic. Which is to say, it begins in the forests of ancient Bohemia and doesn't conclude until nine o'clock tonight (Paris time). It is a saga, as well. A saga must have a hero, and the hero of this one is a janitor with a missing bottle. The bottle is blue, very, very old, and embossed with the image of a goat-horned god. If the liquid in the bottle actually is the secret essence of the universe, as some folks seem to think, it had better be discovered soon because it is leaking and there is only a drop or two left.*

*Join Duck, Frog, and Fish as they introduce readers to their pond habitat in an environmentally friendly board book made from 100% recycled materials. Duck, Frog and Fish live in the pond and introduce readers to their home: showing what plants grow on the banks, which plants thrive in the pond water, and even what tadpoles look like. Elegantly designed with spare text, these gentle earth tone illustrations complement the sustainable format. Printed on thick, 100% recycled board, this eco-friendly book encourages little readers to enjoy nature—inside and out!*

We design to elicit responses from people. We want them to buy something, read more, or take action of some kind. Designing without understanding what makes people act the way they do is like exploring a new city without a map: results will be haphazard, confusing, and inefficient. This book combines real science and research with practical examples to deliver a guide every designer needs. With it you ' ll be able to design more intuitive and engaging work for print, websites, applications, and products that matches the way people think, work, and play. Learn to increase the effectiveness, conversion rates, and usability of your own design projects by finding the answers to questions such as: What grabs and holds attention on a page or screen? What makes memories stick? What is more important, peripheral or central vision? How can you predict the types of errors that people will make? What is the limit to someone ' s social circle? How do you motivate people to continue on to (the next step? What line length for text is best? Are some fonts better than others? These are just a few of the questions that the book answers in its deep-dive exploration of what makes people tick.

Like Nothing Amazing Ever Happened

Indestructibles Flutter! Fly!

**Winner of the James Tiptree, Jr. Memorial Award, the Lambda Literary Award, the Locus Award for Best First Novel, and a Hugo and Nebula Award nominee. With this groundbreaking novel, Maureen F. McHugh established herself as one of the decade's best science fiction writers. In its pages, we enter a postrevolution America, moving from the hyperurbanized eastern seaboard to the Arctic bleakness of Baffin Island; from the new Imperial City to an agricultural commune on Mars. The overlapping lives of cyberkite fliers, lonely colonists, illicit neural-pressball players, and organic engineers blend into a powerful, taut story of a young man's journey of discovery. This is a macroscopic world of microscopic intensity, one of the most brilliant visions of modern SF. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.**

Businesses today want actionable insights into their data—they want their data to reveal itself to them in a natural and user-friendly form. What could be more natural than human language? Natural-language search is at the center of a storm of ever-increasing web-driven demand for human-computer communication and information access. SQL Server 2008 provides the tools to take advantage of the features of its built-in enterprise-level natural-language search engine in the form of integrated full-text search (iFTS). iFTS uses text-aware relational queries to provide your users with fast access to content. Whether you want to set up an enterprise-wide Internet or intranet search engine or create less ambitious natural-language search applications, this book will teach you how to get the most out of SQL Server 2008 iFTS: Introducing powerful iFTS features in SQL Server, such as the FREETEXT and CONTAINS predicates, custom thesauruses, and stop lists Showing you how to optimize full-text query performance through features like full-text indexes and iFilters Providing examples that help you understand and apply the power of iFTS in your daily projects

A dystopian thriller follows a boy and girl on the run from a town where all thoughts can be heard - and the passage to manhood embodies a horrible secret. Todd Hewitt is the only boy in a town of men. Ever since the settlers were infected with the Noise germ, Todd can hear everything the men think, and they hear everything he thinks. Todd is just a month away from becoming a man, but in the midst of the cacophony, he knows that the town is hiding something from him -- something so awful Todd is forced to flee with only his dog, whose simple, loyal voice he hears too. With hostile men from the town in pursuit, the two stumble upon a strange and eerily silent creature: a girl. Who is she? Why wasn't she killed by the germ like all the females on New World? Propelled by Todd's gritty narration, readers are in for a white-knuckle journey in which a boy on the cusp of manhood must unlearn everything he knows in order to figure out who he truly is.

*Announcing a brand new idea in publishing books for babies: the completely durable, completely safe Indestructibles. Published on the same paper-like material used in shipping envelopes, Indestructibles are 100% baby-proof: chew-proof, drool-proof, and rip-proof. That's because Indestructibles not only will not tear or turn gummy with teething, but they are also completely washable. Indestructibles are also energetic, beautiful, and created just for baby. The printing material reproduces color artwork with uncommon depth, and with no residual inkiness; the artwork, paintings by Kaaren Pixton and reminiscent of Eric Carle, is happy, each page a simple, colorful image of an animal or bird or insect against a rich, textured background. The effect is 3D-like and completely visual. There are no words, making each perfect for parents and babies to look at together, with mom or dad telling the story. Three titles launch the series: Creep! Crawl! about animals that crawl, Flutter! Fly! about animals that fly, and Wiggle! March! about farm animals—books babies can really sink their teeth into.*

*A safety-tested, nontoxic bath book invites little ones to help wash the many animals that can be found around the farm.*

*Kids love origami—and what could be cooler than transforming a piece of paper into Boba Fett, Princess Leia, Yoda, or R2-D2? And not just any paper, but custom-designed paper illustrated with art from the movies. Star Wars® Origami marries the fun of paper folding with the obsession of Star Wars. Like The Joy of Origami and Origami on the Go, this book puts an original spin on an ancient art. And like Star Wars® Scanimation® and Star Wars® Fandex®, it's a fresh take on Star Wars mania. Chris Alexander is a master folder and founder of the popular website StarWarsOrigami.com, and here are 36 models, clearly explained, that range in difficulty from Youngling (easy) to Padawan (medium), Jedi Knight (difficult), and Jedi Master (tricky!). A front section introduces origami definitions and basic folds. Bound in the back is the book's unique folding paper, two sheets for each figure. Illustrated with original art, it makes each creation—the essential lightsabers, the Death Star, and much more—true to the movies. Star Wars Origami includes a foreword by Tom Angleberger, author of the New York Times bestsellers The Strange Case of Origami Yoda and Darth Paper Strikes Back, and is scheduled to be published at the same time as Angleberger's upcoming book, The Secret of the Fortune Wookiee.*

*Baby Proof Emily Griffin A novel that explores the question: Is there ever a deal-breaker when it comes to true love? Claudia Parr has everything going for her. A successful editor at a publishing house in Manhattan, she's also a devoted sister, aunt, and friend. Yet she's never wanted to become a mother--which she discovers is a major hurdle to marriage, something she desperately wants. Then she meets her soul mate Ben who, miraculously, feels the same way about parenthood. The two fall in love and marry, committed to one another and their life of adventure and discovery. All's well until one of them has a change of heart. Someone wants a baby after all. This is the witty, heartfelt story about what happens to the perfect couple when they suddenly want different things and there is no compromise. It's about deciding what is most important in life and wagering everything to get it. And most of all, it's about the things we will--and won't--do for love.*
