The Digital Economy Report 2019 on “Value creation and capture: Implications for developing countries” takes stock of recent trends in the global digital landscape and discusses the development and policy implications of data and digital platforms. A key feature of the evolving digital economy is the increasing role of digital data as an economic resource, together with digital platforms as new influential actors, with capacity to collect, process, analyze and monetize data. The report also discusses the implications of digital data for the value created in the digital economy for inclusive development. Key issues include the market impact of emerging technologies and digital platforms, the impact on smaller businesses in developing countries and the implications for infrastructure, entrepreneurship, skills, competition, data flows, data protection, taxation and other relevant policies.

Hollywood to the Himalayas is the enlightening memoir of a reluctant spiritual seeker who finds much more than she bargained for when she travels to India. As a Stanford grad in the midst of getting her PhD in Psychology, Sadhvi Sarawati was comfortable with her life. Despite years of grappling with an eating disorder and trauma from her early childhood, she felt as if she was successfully navigating her way through early adulthood. When she agreed to travel to India to appease her husband—and because she loved the food—Sadhvi would have never imagined that she would be embarking on a journey of healing and awakening. Hollywood to the Himalayas describes Sadhvi’s odyssey towards divine enlightenment and inspiration through her extraordinary connection with her guru and renewed confidence in the pleasure and joy that life can bring. Now one of the preeminent female spiritual teachers in the world, Sadhvi recounts her journey with wit, honesty, and clarity and, along the way, offers teachings to help us all step onto our own path of awakening and discover the truth of who we really are—embodiments of the Divine. “Sadhviji models for us, at the deepest level, that in the true teaching of the spiritual traditions, healing and grace are always possible.” —Prince Ea, in the foreword to Hollywood to the Himalayas “Vivid and poetic...her journey is a river of love, compelling in its authenticity and unflinching honesty. ...a must for anyone who is interested in exploring different paths to fulfillment and to the Creator.” —Jane Goodall “Sadhvi Bhagawati Saraswati is a great teacher of spirituality and consciousness. Her inspiring wisdom illuminates the path to healing, happiness, and inner peace.” —Deepak Chopra “For so many of us, the road to the Divine sometimes begins with deep trauma. And, then Grace is bestowed upon us and we blossom in the holiness of love. Hollywood to the Himalayas is filled with wisdom and truth about the powerful revelations that unfold on the path to a deeper relationship to the divine. This is a beautiful book.” —Rev. Iyanla Vanzant, executive producer, Iyanla, Fix My Life

A True Story

Two of America’s leading national security experts offer a definitive account of the global impact of COVID-19 and the political shock waves it will have on the United States and the world order in the 21st Century. “Informed by history, reporting, and a truly global perspective, this is an indispensable first draft of history and blueprint for how we can move forward.” —Ben Rhodes The COVID-19 pandemic killed millions, infected hundreds of millions, and laid bare the deep vulnerabilities and inequalities of our interconnected world. The accompanying economic crash was the worst since the Great Depression, with the International Monetary Fund estimating that it will cost over \$22 trillion in global wealth over the next few years. Over two decades of progress in reducing extreme poverty was erased, just in the space of a few months. Already fragile states in every corner of the globe were further hollowed out. The brewing clash between the United States and China boiled over and the worldwide contest between democracy and authoritarianism deepened. It was a truly global crisis necessitating a collective response—and yet international cooperation almost entirely broke down, with key world leaders hardly on speaking terms. Colin Kahl and Thomas Wright’s *Aftershocks* offers a riveting and comprehensive account of one of the strangest and most consequential years on record. Drawing on interviews with officials from around the world and extensive research, the authors tell the story of how nationalism and major power rivalries constrained the response to the worst pandemic in a century. They demonstrate the myriad ways in which the crisis exposed the limits of the old international order and how the reverberations from COVID-19 will be felt for years to come.

A notary is a public official responsible for independently verifying signatures and oaths. Depending on how a document is written, a notarization serves to affirm the identity of a signer and the fact that they personally executed their signature. A notarization, or notarial act, officially documents the identity of a party to a document or transaction and the occasion of the signing that others can rely upon, usually at face value. A notary’s authentication is intended to be reliable, to avoid the inconvenience of having to locate a signer to have them personally verify their signature, as well as to document the execution of a document perhaps long after the lifetime of the signer and the notary. An oath is a sworn statement. In most cases a person will swear that a written statement, oral statement, or testimony they are about to give is true. A notary can document that the notary administered an oath to an individual.

Every Assistance and Protection is the first book presenting an in-depth history of the Australian passport. In charting the development of the passport from its early beginnings to its present form, the book traverses changes in government policy and social history from the early 19th century to the modern era. It shows how the Australian passport evolved from a signifier of British nationality into a badge of membership of one of the most multicultural countries in the world. The book explores the landmark events in this history:the great 19th century diasporas, resulting from relaxation of official controls on the movement of people; the early passport regime regulating the movement of “ticket-of-leave” convicts; the establishment of the centralised passport system during World War I; the enactment of the first passport legislation for the Commonwealth, The Passports Act 1920, and the reaction of some Australians who felt the new Law infringed the liberties of the British subject; changes to the Laws in 1938 such that possession of a passport was no longer mandatory for an Australian to travel, though still a practical necessity; the use of the government’s discretionary power to cancel or withhold passports to inhibit the movement of individual communists; the establishment of Australian citizenship in 1948 - the basis for possession of an Australian passport; the removal of the word “British” from the cover in 1967; the effects of globalisation and heightened security in the late 20th and early 21st century. It also touches on the lives of individuals: boxer Les Darcy, journalist Wilfred Burchett, and General Sir Thomas Blamey, are among the many Australians featuring in these pages. The book is based on an exhaustive examination of hitherto unexamined primary sources of many government departments, including the Departments of External Affairs, the Prime Minister’s, the Attorney-General’s, Defence, Home and Territories, Immigration and Foreign Affairs. Sponsored by Department of Foreign Affairs and Trade
