Law Notes

Under the Superintendence and Control of the Incorporated Council of Law Reporting for England and Wales

Over the past decade, Lesotho and Swaziland have faced significant volatility in their fiscal revenues, owing to highly unstable Southern African Customs Union (SACU) receipts. Based on model analysis, this paper explores the advantages of implementing fiscal rules to deal with such volatility. It finds that the use of a structural balance target could smooth the growth impact from revenue shocks while helping preserve sufficient international reserves during bad times. From a long-term perspective, it suggests possible welfare gains from introducing fiscal rules. Last, it concludes that, based on experiences in other countries, developing strong institutions and improving public financial management are necessary steps to ease the transitions to a rules-based fiscal policy framework.

Coping with Revenue Volatility in Lesotho and Swaziland

In the same way that it has become part of all our lives, computer technology is now integral to the work of the legal profession. The JURIX Foundation has been organizing annual international conferences in the area of computer science and law since 1988, and continues to support cutting-edge research and applications at the interface between law and computer technology. This book contains

the 16 full papers and 6 short papers presented at the 26th International Conference on Legal Knowledge and Information Systems (JURIX 2013), held in December 2013 in Bologna, Italy. The papers cover a wide range of research topics and application areas concerning the advanced management of legal information and knowledge, including computational techniques for: classifying and extracting information from, and detecting conflicts in, regulatory texts; modeling legal argumentation and representing case narratives; improving the retrieval of legal information and extracting information from legal case texts; conducting e-discovery; and, applications involving intellectual property and IP licensing, online dispute resolution, delivering legal aid to the public and organizing the administration of local law and regulations. The book will be of interest to all those associated with the legal profession whose work involves the use of computer technology.

Whether motivated by humanitarianism or concern over "porous" borders, dominant commentary on migration in Europe has consistently focused on clandestine border crossings. Much less, however, is known about the everyday workings of immigration law inside borders. Drawing on in-depth ethnographic fieldwork in Italy, one of Europe's biggest receiving countries, *Rules, Paper, Status* moves away from polarized depictions to reveal how migration processes actually play out on the ground. Anna Tuckett highlights the complex processes of inclusion and exclusion produced through encounters with immigration law. The statuses of "legal" or "illegal," which media and political accounts use as synonyms for "good" and "bad," "worthy" and "unworthy," are not created by practices of border-crossing, but rather through legal and bureaucratic processes within borders devised by governing states. Taking migrants' interactions with immigration regimes as its starting point, this book sheds light on the productive nature of legal and bureaucratic encounters and the unintended consequences they produce. *Rules, Paper, Status* argues that successfully navigating Italian immigration bureaucracy, which is situated in an immigration regime that is both exclusionary and flexible, requires and induces culturally specific modes of behavior. Exclusionary laws, however, can transform this social and cultural learning into the very thing that endangers migrants' right to live in the country.
