this book, titled "A Passion For Success", demonstrates forcefully how the identified individuals, despite their blindness, surmounted challenges in their own lives in order to achieve success, and, in doing so, invariably improved the quality of lives of others. Consisting of fourteen chapters, each containing a unique story with a compelling theme, the underlying message in the book appears to resonate with the view of Booker T Washington (1856-1915), a leading African American intellectual of the 19 century, who observes that "Success is to be measured not so much by the position one has reached in life, as by the obstacles one has overcome while trying to succeed."
