With an unrivalled combination of exceptional clarity and intelligent analysis, Politics is the perfect introduction to political studies. Written especially for undergraduate students, this is the only introduction to politics to combine genuine accessibility and an analytical approach, encouraging critical study and engaged debate right from the outset of a university course. Alongside comprehensive coverage of concepts, approaches, and ideologies, the book features chapters on all crucial elements of political studies, from institutions and states to security, political economy, civil society, and the media, making it an ideal text for a broad range of courses. Current debates and key developments in contemporary politics are taken into account, with coverage of the rise of populism, Brexit, and the Trump presidency, as well as a broad range of international case studies and examples. Politics also features a lively and accessible design and a range of helpful learning features throughout, including key points, case studies, key debates, key thinkers, key quotes, and questions. The book is also fully supported by online resources to help students take their learning further. For students: - Test your knowledge of the chapters and receive instant feedback with online multiple choice questions. - Take your learning further with relevant web links to reliable online content. - Revise key terms and concepts from the text with a digital flashcard glossary. - Learn more about key thinkers' ideas and backgrounds. For registered lecturers: - Reinforce key themes from each chapter with suggested seminar and essay questions. - Incorporate active learning into your seminars with political scenarios, discussion questions, and teaching notes. - Use the adaptable PowerPoint slides as the basis for lecture presentations or as hand-outs in class. - Assess students' learning with a ready-made test bank, which can be customized to suit your needs.

In this provocative but balanced essay, Kenneth Minogue discusses the development of politics from the ancient world to the twentieth century. He prompts us to consider why political systems evolve, how politics offers both power and order in our society, whether democracy is always a good thing, and what future politics may have in the twenty-first century. ABOUT THE SERIES: The Very Short Introductions series from Oxford University Press contains hundreds of titles in almost every subject area. These pocket-sized books are the perfect way to get ahead in a new subject quickly. Our expert authors combine facts, analysis, perspective, new ideas, and enthusiasm to make interesting and challenging topics highly readable.

WHY POLITICS MATTERS: AN INTRODUCTION TO POLITICAL SCIENCE is a full-color, accessible introduction to Political Science. WHY POLITICS MATTERS follows a foundational approach to learning and gives students a big picture of the field, examing Theory, Comparative Politics, including a look at the U.S. government, and International Relations.

The authors approach the subject through a theme of theory and practice and emphasize why politics matters to the reader through current, global examples, encouraging critical thinking, discussion, and participation throughout the text. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

An Introduction to Political Communication explores the relationship between politics, the media and democracy in the UK, the USA and other contemporary societies. Brian McNair examines how politicians, trade unions, pressure groups, non-governmental organizations and terrorist organizations make use of the media. Separate chapters look at political media and their effects, the work of political advertising, marketing and public relations and the communication practices of organizations at all levels, from grassroots campaigning through to governments and international bodies. Recent developments covered in the new edition include: * the re-election of New Labour in 2001 * the changes in government information and communication policy introduced by the Blair administration since 1997 * the 2000 election of George W. Bush in the United States * the NATO interventions in Kosovo and the former Yugoslavia * the implications for international political communication of September 11 * the emergence of Al-Quaida and the war on terror.

Theory and Practice

A Novel Approach to Politics

Lectures for First-year Students

An Introduction to Political Philosophy

Introduction to Media and Politics

This accessible introduction to comparative politics offers a fresh, state-centered perspective on the fundamentals of political science.

A Novel Approach to Politics turns conventional textbook wisdom on its head by using pop culture references to illustrate key concepts and cover recent political events. This is a textbook you will want to read. Adopters of previous editions from schools all over the country are thanking author Douglas A. Van Belle for some of their best student evaluations to date. With this Fifth Edition, Douglas A. Van Belle brings the book fully up to date with recent events such as Trump's executive orders on immigration, the 2016 elections in the US, current policy debates including recent court decisions that may affect gerrymandering, international happenings such as Brexit, and other assorted intergalactic matters. Van Belle adds a wealth of new and recent movies and books to the text, as he illustrates key concepts in political science through examples that captivate you. Employing a wide range of references from 1984 to Game of Thrones to House of Cards, students are given a solid foundation in institutions, ideology, and economics. To keep things grounded, the textbook nuts and bolts are still there to aid students, including chapter objectives, chapter summaries, bolded key terms, and discussion questions.

'...a lively introduction to media and politics, with timely chapters on the media, war and terrorism and the internet. If you want to know why media matters in politics this is a great place to start' - Dr Margaret Scammell, London School of Economics and Political Science 'This book has the truly international perspective that helps to put politics and media in the context of current world events...a unique and valuable text' - Professor Lynda Lee Kaid, University of Florida '...a new and promising perspective to the study of media and politics in a comparative dimension' - Professor Paolo Mancini, Università di Perugia Introduction to Media and Politics draws together evidence from the United States, the United Kingdom, Russia and beyond to provide students with an understanding of the relationship between the media and the political sphere. This highly accessible text: - balances theory with case studies on elections, war, terrorism, and the emerging role of the Internet, enabling the reader to think critically about how the media should work in the service of democracy. - places the study of media and politics in a comparative perspective, allowing the reader to consider how the same media institutions - including commercial and public service broadcasting, paid political advertising, and war coverage - function in different countries. This text is essential reading for advanced undergraduate and postgraduate students of media and politics.

We appreciate your support of the preservation process, and thank you for being an important part of keeping this knowledge alive and relevant.

Politics: An Introduction

A Brief Introduction to US Politics

Introduction to Politics

Global Politics

Political Research

a href="http://www.oupcanada.com/ebrochure/garner/index.html"img src="/images/hed/closer_look_btn.gif"/aNow in a Canadian edition, this truly international introduction to politics offers comprehensive coverage of key concepts and ideologies, institutions, and international relations. Balancing theory with a wealth of Canadian and international real world examples, this text equips students with theknowledge required to think critically about the current state of global politics. Intellectually stimulating yet accessible, Introduction to Politics offers students a solid foundation to understanding politics and how it impacts every aspect of our lives.

Now revised and updated and containing several entirely new chapters, this book provides a comprehensive introduction to political philosophy. It discusses historical and contemporary figures and covers a vast range of topics and debates, including immigration, war, national and global economics, the ethical and political implications of climate change, and the persistence of racial oppression and injustice. It also presents accessible, non-technical discussions of perfectionism, utilitarianism, theories of the social contract, and the Marxian tradition of social criticism. Real-life examples introduce students to ways of using philosophical reflection and debates, and open up new perspectives on politics and political issues. Throughout, this book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a vital and provocative resource for any student of philosophy or political science.

First published in 1953, this seminal introduction to political philosophy is intended for both the student of political theory and for the general reader. After an introduction which explains the nature and purpose of philosophy, Dr Murray provides a critical examination of the principle theories advanced by political philosophers from Plato to Marx, paying special attention to contemporary issues. The book also makes an attempt to define the essential issues of philosophical significance in contemporary politics, with special reference to the conflict between political authority and individual rights, and to show how the different moral assumptions underlying authoritarian and democratic systems of government are ultimately based upon different theories of logic.

Fully revised and updated, the second edition of Introduction to Global Politics places an increased emphasis on the themes of continuity and change. It continues to explain global politics using an historical approach, firmly linking history with the events of today. By integrating theory and political practice at individual, state, and global levels, students are introduced to key developments in global politics, helping them make sense of major trends that are shaping our world. This is a highly illustrated textbook with informative and interactive boxed material throughout. Chapter opening timelines contextualise the material that follows, and definitions of key terms are provided in a glossary at the end of the book. Every chapter ends with student activities, cultural materials, and annotated suggestions for further reading that now include websites. Key updates for this edition: New chapter on 'The causes of war and the changing nature of violence in global politics' New chapter on 'Technology and global politics' Enhanced coverage of theory including post-positivist theories Uses 'levels of analysis' framework throughout the text New material on the financial crisis, BRIC and Iran Introduction to Global Politics continues to be essential reading for students of political science, global politics and international relations.

Introduction to Global Politics

An Introduction

A Conceptual Toolkit

Introduction to Political Thought

Introduction to Japanese Politics

Introduction to Politics

"Studying Politics starts out with a gentle introduction to the subject of politics and political science--especially appealing to those who may not have formally encountered this discipline before--and then maintains an even presentation of the subject, avoiding confusing jargon and continuing to engage the reader throughout. Its conceptual/comparative approach works outward from

Canada to other industrialized developed democracies, then to the developing world and finally to the global scene. With Studying Politics, events that once felt like moving targets will settle easily into the students' broader context, and provide readers with a better understanding of the dynamics that keep our political spectrum fluid and fascinating. This text continues to highlight topical and controversial issues in political science from across the four-fields --Political Thought, International Relations, Comparative Politics and Canadian Politics--including cultural pluralism, women's issues, globalization, political development, terrorism, regime change, and an expanded discussion of Islamic political theory, Sharia law, and the Islamic role in world affairs."--

This new edition of Ponton and Gill's well-known text continues to provide students with a superlative guide to political concepts and institutions. The second edition has sold in excess of 5,500 copies Thoroughly revised and updated, also two completely new chapters on global politics Clearly structured for course use, each chapter length to suit a week's reading Clearly written and accessible, very lucid introduction to political concepts

This comprehensive introduction to politics provides an essential template for assessing the health and workings of present day democracy by exploring how democratic processes bring public policy into line with popular preferences. Incorporating the latest findings from Big Data across the world, it provides a crucial framework showing students how to deploy these for themselves, providing straightforward, practical orientation to the scope and methods of modern political science. Key features: Everyday politics is explained through concrete applications to democracies across the world; Predictive theories illuminate what goes on at various levels of democracy; Outlines - in easy to understand terms - the basic statistical approaches that enable empirically-informed analysis; Rich textual features include chapter summaries, reviews, key points, illustrative briefings, key concepts, project and essay suggestions, relevant reading all clearly explained in ' How to Use This Book ' ; Provides a firm basis for institutional and normative approaches to democratic politics; Concluding section reviews other approaches to explaining politics, assessing their strengths and weaknesses. Politics is an essential resource for students of political science and of key interest to economics, public policy analysis and more broadly the social sciences.

The State and Its Challenges

An Introduction to Religion and Politics

An Introduction to Politics

Conceptualizing Politics

An Introduction to World Politics

The second edition of this user-friendly text for students taking introductory courses in politics builds on the success of the first edition. It provides completely updated and stimulating coverage of topics essential to the understanding of contemporary politics. Ideal for students taking combined degrees at introductory level in politics and the social sciences, it emphasises the individual and social dimension of politics and covers theories and concepts in an accessible way. New features in the second edition include: * new examples drawn from Western democracies and other political systems * expanded sections on nationalism, religion, alternative politics, globalisation and ethnic conflict * updated examples from the most contemporary political events * biographies of key political thinkers and figures.

Introduction to Cyber Politics and Policy is a comprehensive introductory textbook for cyber politics and security courses, and the perfect addition to any International Relations or Intelligence course. Written by Mary Manjikian, an expert in the field and an instructor who has taught the course for ten years, it assumes no prior knowledge of technical concepts, legal concepts, military concepts or international relations theory. Instead, she aims to bridge the gaps between the intricacies of technology and the theories of political science. The book emphasizes the importance of collaboration and understanding between the two fields – students from both technology and political science backgrounds need to understand the implications of technology decisions and the policy questions that arise from them in order to make a meaningful contribution to ever-changing field.

An Introduction to Religion and Politics offers a comprehensive overview of the many theories of religion and politics, and provides students with an accessible but in-depth account of the most significant debates, issues and methodologies. Fox examines the ways in which religion influences politics, analyses the current key issues and provides a state of the art account of religion and politics, highlighting the diversity in state religion policies around the world. Topics covered include: Secularism and secularization Religious identity Religious worldviews, beliefs, doctrines and theologies Religious legitimacy Religious institutions and mobilization Rational and functional religion Religious fundamentalism Conflict, violence and terror This work combines theoretical analysis with data on the religion policies of 177 governments, showing that while most of the world's government support religion and many restrict it; true neutrality on the issue of religion is extremely rare. Religion is becoming an inescapable issue in politics. This work will be essential reading for all students of religion and politics, and will also be of great interest to those studying related subjects such as comparative politics, international relations and war and conflict studies.

This book is the first intersectionality-mainstreamed textbook written for introductory political science courses.

Technology and World Politics

An Introduction to Political Theory

Introducing Political Science Through Books, Movies, and Popular Culture

Introduction to Political Science

An Introduction to Global Politics

Politics is hugely complex. Some try to reduce its complexity by examining it through an ideological worldview, a one-size-fits-all prescriptive formula or a quantitative examination of as many 'facts' as possible. Yet politics cannot be adequately handled as if it were made of cells and particles: ideological views are oversimplifying and sometimes dangerous. Politics is not simply a moral matter, nor political philosophy a subdivision of moral philosophy. This book is devised as a basic conceptual lexicon for all those who want to understand what politics is, how it works and how it changes or fails to change. Key concepts such as power, conflict, legitimacy and order are clearly defined and their interplay in the state, interstate and global level explored. Principles such as liberty, equality, justice and solidarity are discussed in the context of the political choices confronting us. This compact and systematic introduction to the categories needed to grasp the fundamentals of politics will appeal to readers who want to gain a firmer grasp on the workings of politics, as well as to scholars and students of philosophy, political science and history.

Introduction to Politics and Society draws on examples from popular political culture in order to convey how politics operates in the contemporary world. Examples illustrate the meaning of theories and show the relevance of central theoretical debates. Planned and developed with an eye to the needs of students, the book is an extraordinary resource for undergraduate teaching and study needs. It will be required reading for undergraduate students in sociology, politics and social policy.

'First-rate . . . The text has a little for everyone and could suit the political ideas people, the humanists, and the behavioralists. And there is enough of a nuts and bolts approach to this book to satisfy those who want students to come away from the course as 'master mechanics' of political dilemmas.'-David W. Dent, Towson State University

The Challenge of Politics introduces students to the fundamental questions of political science. With a distinctive normative approach that portrays politics as a potentially humanizing enterprise, authors Neal Riemer, Douglas W. Simon and Joseph Romance equip readers to recognize major forms of government, evaluate research findings, and understand how policy issues directly affect people's lives. This comprehensive text balances classic and contemporary political theory with current events and empirical study. The Fifth Edition is fully revised to reflect recent national and international developments, including a new chapter on American Politics and Government.

an introduction to political science

An Introduction to Political Geography

Introduction to Political Psychology

An Introduction to Political Science

An Introduction to Political Communication

A precise, analytical and critical account of the fundamentals of political theory and the major concepts used in political analysis. This book offers an introduction to major political theories for the first learners of political science at the graduate level as well as those interested in building a strong groundwork of the subject. It cites Indian and global examples and discusses real-life applications of these theories to make the theories and concepts relatable and approachable. The book offers a compact overview of the concepts of state, society, civil society, justice, law, freedom, equality and others along with critical discussions on premier political ideologies of Marxism, Liberalism, Anarchism, Fascism, Gandhism and much more. Enriched by the author's long-term experience in research and teaching on the subject, this textbook will prove to be an essential companion for students of political science, sociology and social work as well as Civil Services aspirants. Key Features:

- *Special focus on Indian political theory and the course of its development.*
- *Encourages the readers to ponder and debate further.*
- *Presents a practical perspective, by contextualizing the theories within real-life situations.*

This introduction to politics is designed for first-year students in social sciences and for the general reader interested in the basics of contemporary politic. The text's various sections and lecture summaries deal with the important areas of political science, different systems of democratic government, the fall of communism and post-communist politics, as well as issues in Caribbean politics such as globalization, constitutional reform and regional integration.

Political Science: An Introduction to Global Politics: Political Theory and Philosophy, is a book on World Politics. The book is an introduction to Political Science and International relations. In political theory, the book deals with the study of political instructions along with the theories of State laws, liberty, governance, politics, freedom, and equality. In Philosophy, the book offers different views and analysis over casual explanation of realist, liberal and ideology perspectives, including reincarnation. The book enables students to apply good analysis and in-depth understanding of their study of International relations and Political Science. In this second edition, the book continues to analyze the key concepts of Global Politics, like, power, corruption, sovereignty, political obligations, political parties, civil disobedience, rights, revolution, democracy, monarchy, justice, and injustice. The book underlines the cultural and political differences in the world. It is designed for the undergraduate students of Political Science and International relations.

The first comprehensive textbook on political psychology, this user-friendly volume explores the psychological origins of political behavior. Using psychological concepts to explain types of political behavior, the authors introduce a broad range of theories and cases of political activity to illustrate the behavior. The book examines many patterns of political behaviors including leadership, group behavior, voting, race, ethnicity, nationalism, political extremism, terrorism, war, and genocide. Text boxes highlight current and historical events to help students see the connection between the world around them and the concepts they are learning. Examples highlight a variety of research methodologies used in the discipline such as experimentation and content analysis. The "Political Being" is used throughout to remind the reader of the psychological theories and concepts to be explored in each chapter. Introduction to Political Psychology explores some of the most horrific things people do to one another for political purposes, as well as how to prevent and resolve conflict, and how to recover from it. The goal is to help the reader understand the enormous complexity of human behavior and the significant role political psychology can play in improving the human condition. Designed for upper division courses on political psychology or political behavior, this volume also contains material of interest to those in the policymaking community.

Introduction to Politics and Society

Why Politics Matters: An Introduction to Political Science

Introduction to Cyber Politics and Policy

political science is for everybody

Introduction to Comparative Politics

Your conceptual toolkit for the study of political thoughtPraise for the first edition'This seems really to have been written with the first-year student in mind. The editors write in a way that is clear, intelligent and engaging without being at all condescending.'Politics Studies Review New for this edition* Brand new chapter on international politics most striking developments in contemporary political theoryThis textbook gives you all the vocabulary you need - political, conceptual and historical - to engage confidently and deeply with political thought and the moral and political worlds in which we live.It traces the history of political thought from Plato and Aristotle to Kymlicka and Rorty, to a structure that introduces key thinkers and core concepts together, making it suitable for any course structure.

"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of:

- Case studies demonstrate how political ideas, concepts and issues manifest in the real world
- 'Focus' boxes appreciate alternative viewpoints
- A range of thought provoking photographs challenge students to examine concepts from a different angle
- Suggestions for further reading and weblinks are also provided to help students to further their understanding

Introduction to Political Theory is accompanied by an innovative website with multiple choice key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.

The 2nd edition of Global Politics: A New Introduction continues to provide a completely original way of teaching and learning about world politics. The book engages directly with the issues in global politics that students are most interested in, helping them to understand the key questions and theories and also to develop a critical and inquiring approach. Revised and updated throughout, the 2nd edition also offers additional chapters on key issues such as environmental politics, nationalism, the internet, democratization, colonialism, the financial crisis, political violence and human rights. Global Politics: Examines the most significant issues in global politics – from war, peacebuilding, terrorism, security, nationalism and authority to poverty, development, postcolonialism, human rights, gender, inequality, ethnicity and what we can do to change the world Offers chapters written to a common structure which is ideal for teaching and learning and features a key question, an illustrative example, general responses and broader issues Integrates theory throughout the text, by presenting theoretical ideas and concepts in conjunction with a global range of historical and contemporary case studies Drawing on theoretical perspectives from a broad range of disciplines including international relations, political theory, postcolonial studies, sociology, geography, peace studies and development this is an essential reading for all students of global politics and international relations.

This classic introduction to the Japanese political system has been revised and updated to take the account of a time of turmoil in the country's political life. It incorporates new coverage of the end of the Koizumi era, the brief and troubled premiership of Abe, and the selection of Fukuda as prime minister. This edition also includes expanded material on "post-bubble" economic developments, as well as all-new coverage of health care policy.The text opens with an overview of Japan's geographical setting and history. The next group of chapters covers political institutions, processes, and actors. Two sections then address the country's distinctive social order and economy, educational, healthcare and welfare systems. Part five looks at the increasingly contentious realm of foreign relations and security issues, including China's expanding role and the issue of North Korea. A concluding section considers dynamics of change in Japanese politics.

A New Introduction

An Introduction to Political Philosophy (Routledge Revivals)

Space, Place and Politics

An Introduction to Politics. --

Politics

Political Research: An Introduction has been designed to provide an excellent starting point for those new to the area of Research Methods. It assumes no prior knowledge of the subject and sets out the key issues involved in doing research in Politics. It guides students through a complex and often daunting subject by exploring the many concepts associated with the field, as well as offering practical advice on research practices and information resources. Features and benefits of this textbook include:

- * boxed case studies in each chapter to illustrate and clarify key concepts, and highlight the practical use of different research methods**
- * a useful glossary, giving easy access to definitions of key terms**
- * a dedicated web-site containing sample material, extra case studies, important links, and essential resources for both teachers and students.**

A Brief Introduction to American Politicsprovides a coherent and succinct account of how contemporary American politics blends enduring principles with the realities and demands of the present day. Beginning with a brief overview of American society today, the book introduces the constitutional framework of American politics and the fluid concept and practice of federalism. It also covers the major features of the representative process, looking at both elections and main players such as parties, interest groups, and the media. Chapters on the major institutions of the federal government - the presidency, the Congress, and the Supreme Court - examines how they are simultaneously independent and constrained by each other. Chapters on domestic and foreign policy demonstrate how government and politics work in connection with the system's main outputs. A Brief Introduction to American Politicsis a shorter version of Politics USA and is intended for students who need an introduction to the essential features of the American political system.

This edited volume provides a convenient entry point to the cutting-edge field of the international politics of technology, in an interesting and informative manner. Technology and World Politics introduces its readers to different approaches to technology in global politics through a survey of emerging fusions of Science and Technology Studies and International Relations. The theoretical approaches to the subject include the Social Construction of Technology, Actor-Network Theory, the Critical Theory of Technology, and New Materialist and Posthumanist approaches. Considering how such theoretical approaches can be used to analyse concrete political issues such as the politics of nuclear weapons, Internet governance, shipping containers, the revolution in military affairs, space technologies, and the geopolitics of the Anthropocene, the volume stresses the socially constructed and inherently political nature of technological objects. Providing the theoretical background to approach the politics of technology in a sophisticated manner alongside a glossary and guide to further reading for newcomers, this volume is a vital resource for both students and scholars focusing on politics and international relations.

An Introduction to Political Geography continues to provide a broad-based introduction to contemporary political geography for students following undergraduate degree courses in geography and related subjects. The text explores the full breadth of contemporary political geography, covering not only traditional concerns such as the state, geopolitics, electoral geography and nationalism; but also increasing important areas at the cutting-edge of political geography research including globalization, the geographies of regulation and governance, geographies of policy formulation and delivery, and themes at the intersection of political and cultural geography, including the politics of place consumption, landscapes of power, citizenship, identity politics and geographies of mobilization and resistance. This second edition builds on the strengths of the first. The main changes and enhancements are: four new chapters on: political geographies of globalization, geographies of empire, political geography and the environment and geopolitics and critical geopolitics significant updating and revision of the remaining chapters to discuss key developments, drawing on recent academic contributions and political events new case studies, drawing on an increasing number of international and global examples additional boxes for key concepts and an enlarged glossary. As with the first edition, extensive use is made of case study examples, illustrations, explanatory boxes, guides to further reading and a glossary of key terms to present the material in an easily accessible manner. Through employment of these techniques this book introduces students to contributions from a range of social and political theories in the context of empirical case study examples. By providing a basic introduction to such concepts and pointing to pathways into more specialist material, this book serves, both as a core text for first- and second- year courses in political geography, and as a resource alongside supplementary textbooks for more specialist third year courses.

An Introduction to Politics, State and Society

People, Power, and Politics

A Treatise on the Origin, Nature, Functions, and Organization of the State

Studying Politics
