history from ancient Celtic and Germanic lore through their emergence in the literature of the Middle Ages to their modern popularization by the Brothers Grimm and Walt Disney Most people are familiar with the popular image of elves as Santa's helpers and dwarfs as little bearded men wearing red caps, who are mischievous and playful, helpful and sly, industrious and dexterous. But their roots go far deeper than their appearance in fairy tales and popular stories. Elves and dwarfs are

survivors of a much older belief system that predates Christianity and was widespread throughout Western Europe. Sharing his extensive analysis of Germanic and Norse legends, as well as Roman, Celtic, and medieval literature, Claude Lecouteux explores the ancient, intertwined history of dwarfs and elves. He reveals how both were once peoples who lived in wild regions as keepers of the secrets of nature. They were able to change their size at will and had superhuman strength

and healing powers. They were excellent smiths, crafting swords that nothing could dull as well as magical jewelry, and often entered into the service of lords or heroes. They were a part of the everyday life of our ancestors before they were transformed by fairy tales and church texts into the mythical creatures we know today. Lecouteux shows how, in earlier folklore, elves and dwarfs were interchangeable, gradually evolving over time to express very different kinds of beings. "Dwarf," "giant,"

and even “elf” did not necessarily connote size but referred to races with different skills. Elves were more ethereal, offering protection and kindness, while dwarfs reflected a more corporeal form of spirit, often appearing as messengers from the underworld. Yet dwarfs and elves could be bargained with, and our ancestors would leave a broken object outside the door at night with the hope that a dwarf or elf (or other local spirit) would repair it. Revealing the true roots of these

helpful and powerful beings, including an in-depth exploration of one of the most famous dwarf/elf/fairy beings of the Middle Ages, Auberon or Oberon, also known as Alberich, Lecouteux shows how the magic of dwarfs and elves can be rekindled if we recognize their signs and invite them back into our world.

Halloween has been referred to as the Devil's holiday, but all 365 1/4 days were created by and belong to Jesus. If Satan usurps even one day it is our Christian duty and responsibility to reclaim and redeem it in the name of our Lord. Are the imaginary ghouls and goblins of Halloween any more wicked than the jolly elf called Santa Claus, or the Easter bunny? Should the Church

stop celebrating these holy days, the bookends of our faith, as well? Instead of battling the spiritual enemy on Halloween, the Church is guilty of crossing swords with one another. We fight among ourselves, not about "how" to celebrate Halloween, but whether it should even be observed. Jesus is more the "reason for the season" on Halloween than He is at Christmas. The Church must realize it is forfeiting Halloween as an opportunity to glorify the Prince of Peace, the One who has given us the victory over the "prince of darkness" and his evil minions. The Way, the Truth and the Life has conquered Death and the grave. By dressing up in costumes and portraying frightening creatures who at one time caused us to fear and tremble, we are not glorifying Satan. Rather, we are poking fun at the Serpent whose

kingdom has been plundered by our Savior, and whose head has been crushed! Should we celebrate Halloween? The question is, "How can we not?" "Halloween, Hallowed is Thy" "Name "offers a believer confidence and joy in expressing the greeting "Happy Halloween."

Provides biographical information on the men and women who write and illustrate children's books.

The Greatest Fairytales Of All Time
Fairy Tales, Natural History and Victorian Culture examines how literary fairy tales were informed by natural

historical knowledge in the Victorian period, as well as how popular science books used fairies to explain natural history at a time when 'nature' became a much debated word.

"this is an inspiring collection of Edith Stein's shorter spiritual writings, many available for the first time in English translation. They were composed during her final years, often at the request of her Carmelite superiors. ..." [from back cover]

This translation of Likhachev's Poetika Drevnerusskoy Literatry (The Poetics of Early Russian Literature), is a study of medieval Russian literature, as contrasted with modern literature in its narrative methods, use of symbols, and depictions of time, space and situation. The gradual emergence of realism and the principle of a single author is outlined with examples from medieval

about power, sex, concealment, morality, and corruption.

Precisely because they refer to matters that lie beyond our senses, unseen beings and worlds have long been a repository for hopes, fears, and suppressed desires. Ideas of invisibility are, like all ideas rooted in legend, ultimately parables about our own potential and weaknesses. Invisible presents the first comprehensive survey of the roles that the idea of invisibility has played throughout time and culture. This territory takes us from medieval grimoires to cutting-edge nanotechnology, from fairy tales to telecommunications, from camouflage to early cinematography, and from beliefs

about ghosts to the dawn of nuclear physics and the discovery of dark energy. Invisible reveals what our age-old fantasies about what lurks unseen, and whether we can enter that realm ourselves, truly say about us. Postmodern Fairy Tales seeks to understand the fairy tale not as children's literature but within the broader context of folklore and literary studies. It focuses on the narrative strategies through which women are portrayed in four classic stories: "Snow White," "Little Red Riding Hood," "Beauty and the Beast," and "Bluebeard." Bacchilega traces the oral sources of each tale, offers a provocative interpretation of contemporary versions by Angela Carter, Robert Coover, Donald

for both readers and listeners. Over 20 stories are presented and adorned with engaging illustrations by a cast of carefully selected artists. Tried and true titles including Hansel and Gretel and Little Red Riding Hood appear alongside lesser-known pieces. The Illustrated Fairytales of the Brothers Grimm is a tome to complement any bookshelf or bedtime routine.

Der Nister (Pinkhes Kahanovitsh, 1884-1950) is widely regarded as the most enigmatic author in modern Yiddish literature. His pseudonym, which translates as 'The Hidden One', is as puzzling as his diverse body of works, which range from mystical symbolist poetry and dark expressionist tales to realist

historical epic. Although part of the Kiev Group of Yiddish writers, which also included David Bergelson and Peretz Markish, Der Nister remained at the margins of the Yiddish literary world throughout his life, mainstream success eluding him both in- and outside the Soviet Union. Yet, to judge from the quantity of recent research and translation work, der Nister is today one of the best remembered Yiddish modernists. The present collection of twelve original articles by international scholars re-examines Der Nister's cultural and literary legacy, bringing to light new aspects of his life and creative output. Grimm and Anderson Fairytale, Peter Pan, The Princess and the

Jennifer. And she had the bad luck to fall in love with the very handsome but very conceited prince Alexander. The prince had a gift for offending everyone he met, including one day an evil witch, who cast a deep spell over him. It falls to Jennifer to save him. Yet how can a nice (but average) princess hope to defeat a powerful witch? And why save Alexander? Because she loves him? But does she really? "Happily ever after" happens only in fairy tales . . .

He was the acclaimed director of such cinematic classics as Meet Me in St. Louis, An American in Paris, and Gigi, and equally well known for his tumultuous marriage to the legendary Judy Garland. But to say that Vincente Minnelli's conflicted personal life informed his films would be an understatement. As Mark Griffin persuasively demonstrates in this definitive biography of the Academy Award-winning director, Minnelli was not only building a remarkable Hollywood

unexpected places and why the best storytellers begin their tales with 'once upon a time'.

Fairy tales are one of our earliest cultural forms, and forests one of our most ancient landscapes.

Both evoke similar sensations: At times they are beautiful and magical, at others spooky and sometimes horrifying. Maitland argues that the terrain of these fairy tales are intimately connected to the mysterious secrets and silences, gifts and perils. With each chapter focusing on a different story and a different forest visit, Maitland offers a complex history of forests and how they shape the themes

of fairy tales we know best. She offers a unique analysis of famous stories including Rapunzel, Hansel and Gretel, Snow White, Little Red Riding Hood, Rumpelstiltskin, and Sleeping Beauty. Maitland uses fairy tales to explore how nature itself informs our imagination, and she guides the reader on a series of walks through northern Europe's best forests to explore both the ecological history of forests and the roots of fairy tales. In addition to the twelve modern re-tellings of these traditional fairy tales, she includes beautiful landscape photographs taken by her son as

Passion to find the reason for and meaning of fairy tales and folklore sparks great literary debates. The wonder tales of Once Upon a Time never lose their appeal through generations of retelling. Fascinating characters, images, and scenarios are woven into stories of magic and struggle, love and cruelty, desperation and faith. Symbologist Michelle Snyder offers compelling evidence that these tales have been told orally for many generations by fixing subjects within the stories to a pre-existing tradition, historic event, or cultural record. Archetypal characters are decoded, and many popular fairy tales are discussed.

Russian Fairy Tales

*From the Skazki of Polevoi_x000D_
Old Peter's Russian Tales*

There was once an emperor who was only interested in one thing, his clothes. He spent all his money on his outfits and had a different one for every time of day and every occasion. One day, two thieves arrived in town pretending to be weavers who knew how to make the most beautiful and sophisticated fabrics, which had the marvellous property of only being visible to those who did their job well.. It was the perfect offer for our king, who immediately placed an order. Hans Christian Andersen (1805-1875) was a Danish author, poet and artist. Celebrated for children's literature, his most cherished fairy tales include "The Emperor's New Clothes", "The

*Little Mermaid", "The Nightingale",
"The Steadfast Tin Soldier", "The
Snow Queen", "The Ugly Duckling"
and "The Little Match Girl". His
books have been translated into every
living language, and today there is no
child or adult that has not met*

*Andersen's whimsical characters. His
fairy tales have been adapted to stage
and screen countless times, most
notably by Disney with the animated
films "The Little Mermaid" in 1989
and "Frozen", which is loosely based
on "The Snow Queen", in 2013.*

*Thanks to Andersen's contribution to
children's literature, his birth date,
April 2, is celebrated as International
Children's Book Day.*
