A radical new history of a dangerous idea Post-Modernity is the creative destruction that has shattered our present times into fragments. It dynamited modernism which had dominated the western world for most of the 20th century. Post-modernism stood for everything modernism rejected: fun, exuberance, irresponsibility. But beneath its glitzy surface, post-modernism had a dirty secret: it was the fig leaf for a rapacious new kind of capitalism. It was

also the forcing ground of the 'post truth', by means of which western values got turned upside down. But where do these ideas come from and how have they impacted on the world? In his brilliant history of a dangerous idea, Stuart Jeffries tells a narrative that starts in the early 1970s and continue to today. He tells this history through a riotous gallery that includes David Bowie, the Ipod, Frederic Jameson, the demolition of Pruitt-Igoe, Madonna, Post-

there's this book—a “show-me-how-to-do-it” book. Scott shows you step by step how to do the things people really want to learn about their iPods, and he uses the same casual, conversational style that has made him the world's #1 best-selling technology author. This book focuses on just the most important, most requested, most useful things so you can start having fun with your iPod today. Right now! Plus, there's only one topic per page, so if you want to know how to do something, you

turn to that page and it shows you how to do just that one thing. It's a simple approach, and people really love learning this way!

"Do we still know how to read a novel?" John Sutherland, Chairman of the 2005 Booker Prize Committee, asks. His disheartened answer is an unequivocal, "No." But Sutherland has not given up hope. With acerbic wit and intellect, he traces the history of what it used to mean to be well-read and tells readers what it still means today. Using this

delightful book as a means to an end, he reminds readers how the delicate charms of fiction can be at once wonderful and inspired and infuriating. On one level this is a book about novels: how they work, what they're about, what makes them good or bad, and how to talk about them. At a deeper level, this is a book in which one of the most intimate tête-à-têtes is described—one in which a reader meets a novel. Will a great love affair begin? Will the rendezvous end in disappointment? Who can say? In order for the

relationship to take its appropriate course all the details must be clearly acknowledged and understood for their complexities: plot, point of view, character, style, pace, first and last sentences, and even beauty. Still, Sutherland knows a true understanding of fiction is more than a flirtation with text and style—it is a business. Taking his readers on a trip to the bookshop, he helps them judge a book by its cover based on design and color, wondering aloud what genre might be best,

even going so far as to analyze one of the latest American bestsellers to further help the buying reader choose the novel that is right for him or her. In a book that is as wry and humorous as it is learned and opinionated, John Sutherland tells you everything you always wanted to know about how to read fiction better than you do now (but, were afraid to ask).

EXPLORE THE LOGIC, NOT MAGIC, BEHIND INNOVATION! It is a common belief that

innovation and creativity lie within the purview of genius. After reading this book you will be convinced that with a relentless focus on the user, anyone can be innovative. The book is a compilation of cases/examples from the entrepreneurial and consulting experience of the protagonist, DK. DK is a unique individual who explores and interprets the world around him through his own lenses. The stories in this book are real life stories of what happened in some situations while in some others the client did

not have the risk appetite for disruption and therefore didn't go with the solution provided. These stories will reveal how business model innovation can be logically achieved with the right focus and commitment to finding solutions to business problems.

When people come
