Shay's account shows how the Bosnian War between the Muslims and the Serbs provided the historical opportunity for radical Islam to penetrate the Balkans, at a time when the Muslim world, headed by Iran and the various Islamic terror organizations, including Al-Qaida, came to the aid of the Muslims in Bosnia. In the framework of the mobilization of these entities in aiding the Muslim side in the conflict, the operational and organizational infrastructure of Iranian intelligence and the Revolutionary Guards was established, as well as those operated by other Islamic terror organizations. Today, the Balkans serve as a forefront on European soil for Islamic terror organizations, which exploits this area to promote their activities in Western Europe, Russia, and other focal points worldwide. Shay's analysis of terror activity in the aftermath of the September 11 attacks and exposure of terror cells throughout the world, and particularly in Europe, attest to the increasing involvement of the "Balkan alumni" and of the terrorist infrastructure from this area in

The Western media declares that "at its core, Islam is moderate and tolerant of others" (New York Times Magazine). Author Mark A. Gabriel, former professor of Islamic history at Al-Azhar University in Cairo, Egypt, disagrees. He says that terrorists are practicing Islam just as Muhammad intended. As a child, Gabriel grew up in a Muslim family in Egypt and was heavily indoctrinated. By the age of twelve he had memorized the entire Qur'an. He went on to become a top student at the most prestigious Islamic university in the world, Al-Azhar in Cairo, Egypt. As a student and

This paper examines Islamic terrorism and explains why Americans are targets of their aggression. Americans have been targets of terrorist acts of violence for decades, but on 11 September 2001 the gravity of this situation pierced American consciousness. The resulting mass casualties made Americans realize that the American homeland is not impervious to terrorist's attacks. There's no magic shield around its borders that protect it from terrorism.

In eradicating existing misconceptions, the book provides a thorough commentary of the contributions made by Islamic States in the development of international law, including norms on

the prohibition of terrorism. It presents a lucid debate on such key issues within classical and modern Islamic State practices as diplomatic immunities, prohibitions on hostage-taking, aerial and maritime terrorism, and the financing of terrorism. The book surveys the unfairness and injustices within international law - a legal system dominated and operated at the behest of a select band of powerful States. It forewarns that unilateralism and the undermining of human rights values in the name of the 'war on terrorism' is producing powerful reactions within Muslim States: the 'new world order' presents a dangerous prognosis of the self-fulfilling prophecy of an inevitable 'clash of civilizations' between the Islamic world and the west.

*From the terrorist attacks of September 11, 2001 in New York to the Madrid and London bombings of 2004 and 2005, the presence of Muslim communities in the West has generated security issues and major political concern. The government, the media, and the general public have raised questions regarding potential links between Western Muslims, radical Islam and terrorism. This speculation has given rise to popular myths concerning the Islamic world and led to a host of illiberal measures such as illegal warranting, denial of Habeas Corpus, "black prisons" and extreme torture throughout the democratic world. The Al Sa'uds control politics and the descendants of Ibn Abd al-Wahhab impose Wahhabism—a violent, fanatical perversion of the pluralistic Islam practiced by most Muslims. Stephen Schwartz argues that Wahhabism, vigorously exported with the help of Saudi oil money, is what incites Palestinian suicide bombers, Osama bin Laden, and other Islamic terrorists throughout the world. Schwartz reveals the hypocrisy of the Saudi regime, whose moderate facade conceals state-sponsored repression and
