Tunisia's GDP totalled TD84.3bn (€36.2bn) in 2015, expanding at a rate of 0.8%, down from growth of 2.3% the year before. The fall was due to a variety of external factors, including two terrorist incidents that negatively affected the tourism sector in particular and shook business confidence more generally. However, growth picked up somewhat in 2016, standing at 1%, 1.4% and 1.3% in the first, second and third quarters of the year, respectively, and is expected to maintain this upward

How are we to assess Gordon Campbell's decade-long premiership of British Columbia? While to many he was an ideologue set on revolutionizing provincial politics, he was a far more complex figure – polarizing and unpopular, but also a shrewd party manager and successful political operator. Beginning with a detailed account of Gordon Campbell's pre-Liberal Party political activities, *The Campbell Revolution?* then takes a broad look at the policy options
