*The New York Times* bestseller that gives readers a paradigm-shattering new way to think about motivation from the author of *When: The Scientific Secrets of Perfect Timing* Most people believe that the best way to motivate is with rewards like money—the carrot-and-stick approach. That's a mistake, says Daniel H. Pink (author of *To Sell Is Human: The Surprising Truth About Motivating Others*). In this provocative and persuasive new book, he asserts that the secret to high performance and satisfaction—at work, at school, and at home—is the deeply human need to direct our own lives, to learn and create new things, and to do better by ourselves and our world. Drawing on four decades of scientific research on human motivation, Pink exposes the mismatch between what science knows and what business does—and how that affects every aspect of life. He examines the three elements of true motivation—autonomy, mastery, and purpose—and offers smart and surprising techniques for putting these into action in a unique book that will change how we think and transform how we live.

The hierarchy of caste is not about feelings or morality. It is about power—which groups have it and which do not.” In this brilliant book, Isabel Wilkerson gives us a masterful portrait of an unseen phenomenon in America as she explores, through an immersive, deeply researched narrative and stories about real people, how America today and throughout its history has been shaped by a hidden caste system, a rigid hierarchy of human rankings. Beyond race, class, or other factors, there is a powerful caste system that influences people's lives and behavior and the nation's fate. Linking the caste systems of America, India, and Nazi Germany, Wilkerson explores eight pillars that underlie caste systems across civilizations, including divine will, bloodlines, stigma, and more. Using riveting stories about people—including Martin Luther King, Jr., baseball's Satchel Paige, a single father and his toddler son, Wilkerson herself, and many others—she shows the ways that the insidious undertow of caste is experienced every day. She documents how the Nazis studied the racial systems in America to plan their outcasting of the Jews; she discusses why the cruel logic of caste requires that there be a bottom rung for those in the middle to measure themselves against; she writes about the surprising health costs of caste, in depression and life expectancy, and the effects of this hierarchy on our culture and politics. Finally, she points forward to ways America can move beyond the artificial and destructive separations of human divisions, toward hope in our common humanity. Beautifully written, original, and revealing, *Caste: The Origins of Our Discontents* is an eye-opening story of people and history, and a reexamination of what lies under the surface of ordinary lives and of American life today.

A nice edition of this Christmas classic with 20 original illustrations. The Chimes was first published in 1844, one year after A Christmas Carol. It is the second in Charles Dickens' series of "Christmas books," five novellas with strong social and moral messages that he published during the 1840s. In addition to A Christmas Carol and The Chimes, the Christmas books include The Cricket on the Hearth, The Battle of Life, and The Haunted Man and the Ghost's Bargain. It was written during Dickens' year-long visit to Italy. Dickens was struck one day by the clamor of the Genoese bells audible from the villa where they were staying. The chimes are old bells in the church on whose steps Trotty Veck plies his trade. The book is divided into four parts named "quarters", after the quarter chimes of a striking clock. Physicians are entrusted within the lives of their patients; lives woven from the threads of spirituality; touched by the mysteries of the universe, and filled with stories to tell. These stories can teach the secrets of a life filled with meaning, of wisdom, and of extraordinary journeys. They are sacred lessons. They are lessons that teach of a miraculous place and shine their light on the path that will take us there. "This book has all of the wisdom one could seek, told in a heart warming way that touched me deeply," writes bestselling author Bernie Siegel, M.D. "When a book leads me to tears and joy, as this book has, I know it contains the essence of life. Read it and reap the benefits of wisdom from the experience of others, rather than your own rude awakening." Wayne Dyer, the #1 New York Times best-selling author affirms the work as "stories to heal your life, beautifully presented."

***A wonderful collection of classic science fiction short stories by one of the most creative and daring writers of the genre.***

***Many think that W. C. Heinz stands right alongside the legendary New York Times columnist Red Smith as the greatest sports writer of the 1940s and '50s. Paving the way for the New Journalism of Gay Talese, Tom Wolfe, and Jimmy Breslin, Heinz was the first sports writer to make his living exclusively by writing for magazines. Whether describing mobbed-up boxers, crippled jockeys, lame horses, aspiring ballplayers, or driven football coaches, Heinz's finely etched, indelible portraits recall a sports era less influenced by money, image, and self-indulgence. He collaborated with Vince Lombardi on the book Run to Daylight, cowrote the novel M\*A\*S\*H with Dr. H. Richard Hornberger under the pseudonym Richard Hooker, and wrote what Hemingway considered to be the "only good novel about a fighter I've ever read," The Professional. In this collection of Heinz's finest writing, we meet the immortal Red Grange; the injury-riddled, "purest baseball player" of his era, Pistol Pete Reiser; the greatest pound-for-pound fighter of all time, Sugar Ray Robinson; and the Brownsville Bum, Bummy Davis, in a story that Jimmy Breslin calls the "best magazine sports story of all time." Here is a long-overdue homage to a vastly underappreciated writer.***

***In this wickedly humorous manual, language columnist June Casagrande uses grammar and syntax to show exactly what makes some sentences great—and other sentences suck. Great writing isn't born, it's built—sentence by sentence. But too many writers—and writing guides—overlook this most important unit. The result? Manuscripts that will never be published and writing careers that will never begin. With chapters on "Conjunctions That Kill" and "Words Gone Wild," this lighthearted guide is perfect for anyone who's dead serious about writing, from aspiring novelists to nonfiction writers, conscientious students to cheeky literati. So roll up your sleeves and prepare to craft one bold, effective sentence after another. Your readers will thank you.***

Charles Dickens' life was a tale of rags to riches, becoming one of the most well known and most read writers to this day, with his books never gone out of print. Dive into this duo of Dickens books, Great Expectations and A Tale of Two Cities, two of his most popular sold books! Great Expectations begins on a white Christmas Eve, when a 7-year-old orphan named Pip has a terrifying encounter with an escaped convict in a graveyard on the wild Kent marshes. Over the course of nearly three decades we follow a series of events that seems to conspire to change Pip's life forever - a summons to meet the bitter, decaying Miss Havisham and her beautiful, cold-hearted ward Estella, and the sudden generosity of a mysterious benefactor to fund Pip's education to become a gentleman. Beginning and ending with some of English literature's most famous lines, Charles Dickens' A Tale of Two Cities thrives on tension and conflict between Charles Darnay and Sydney Carton who fight for Doctor Manette's beautiful and kind daughter Lucie Manette. From the tranquil streets of London, they are found against their will in the treacherous streets of Paris at the height of the Reign of Terror, the bloody backdrop of the French Revolution. "It was the best of times, it was the worst of times, it was the age of wisdom, it was the age of foolishness, it was the epoch of belief, it was the epoch of incredulity, it was the season of Light, it was the season of Darkness, it was the spring of hope, it was the winter of despair..."

His winning percentage was well above Jordan's shooting average or Woods's domination of golf tournaments. And he sold products and drew spectators like no one had ever done. He was hands-down the most famous athlete in America's most popular spectator sport, and exactly one hundred years ago you would have been hard pressed to find anybody in the country who didn't know his name. He was Dan Patch, and he was a racehorse. At the turn of the last century, harness racing drew larger crowds and offered bigger paychecks than any other sport. Its stars were household names, and Dan Patch was both the most celebrated and the richest. As successful as he was on the track, Dan Patch was also America's first "marketing machine": the horse who could sell cigars, washing machines, stoves, automobiles, and animal feed, just by the presence of his name and photograph. The Best There Ever Was examines the evolution of sports marketing through the lives of Dan Patch and the three men who owned him: an Indiana breeder, Dan Messner; M. E. Sturgis, who sold the horse for \$20,000 (a fortune in those days) and spent the rest of his life trying to buy him back; and Marion W. Savage of Minneapolis, whose entrepreneurial skills presaged today's sports marketing geniuses. Any athlete who can draw a 90,000-person crowd, offer up world records, and then sell a coal stove with his name on it may well be the best by anybody's standards. A fun and fascinating read for sports lovers.

A Tale of Two Cities (1859) is a historical novel by Charles Dickens, set in London and Paris before and during the French Revolution. The novel tells the story of the French Doctor Manette, his 18-year-long imprisonment in the Bastille in Paris and his release to live in London with his daughter Lucie, whom he had never met. The story is set against the conditions that led up to the French Revolution and the Reign of Terror.

*The basis for the new hit documentary 1971: The Year That Music Changed Everything, now streaming on Apple TV+. A rollicking look at 1971 - the busiest, most innovative and resonant year of the 70s, defined by the musical arrival of such stars as David Bowie, Pink Floyd, Led Zeppelin, and Joni Mitchell On New Year's Eve, 1970, Paul McCartney told his lawyers to issue the writ at the High Court in London, effectively ending The Beatles. You might say this was the last day of the pop era. The following day, which was a Friday, was 1971. You might say this was the first day of the rock era. And within the remaining 364 days of this monumental year, the world would hear Don McLean's "American Pie," The Rolling Stones' "Brown Sugar," The Who's "Baba O'Riley," Zeppelin's "Stairway to Heaven," Rod Stewart's "Maggie May," Marvin Gaye's "What's Going On," and more. David Hepworth, an ardent music fan and well regarded critic, was twenty-one in '71, the same age as many of the legendary artists who arrived on the scene. Taking us on a tour of the major moments, the events and songs of this remarkable year, he shows how musicians came together to form the perfect storm of rock and roll greatness, starting a musical era that would last longer than anyone predicted. Those who joined bands to escape things that lasted found themselves in a new age, its colossal start being part of the genre's staying power. Never a Dull Moment is more than a love song to the music of 1971. It's also an homage to the things that inspired art and artists alike. From Soul Train to The Godfather, hot pants to table tennis, Hepworth explores both the music and its landscapes, culminating in an epic story of rock and roll's best year.*

This beautifully illustrated and emotional story is an evocative memoir about the search for a better future and a longing for the past. Samuel Butler was son and grandson of the priests. He graduated from Cambridge University in 1858. He got carried away by music and drawing. Torn with his father, in 1859-1864 he lived in New Zealand, bred sheep. He became an ardent devotee of Darwinism, his views spelled out in a study of Life and Habit (1877). Returning to England, engaged in literature and painting, lived a hermit. Traveled to Italy and Sicily. He exhibited paintings in the Royal Academy, wrote about Italian art. His prose was highly appreciated by Forster and Shaw, and later by Joyce, Lawrence, Aldous Huxley, Maugham, George Orwell. Extremely frank autobiographical novel "The Way of All Flesh" (The Way of All Flesh) was completed by the author in the 1880s, but at the author's will was not published during his lifetime and was published only in 1903. Six volumes of his notebooks were also published, correspondence. FS Fitzgerald on the back of the title page of this book Butler wrote with his hand: "The most interesting human document of all available".
