Beauty Therapy*

The aim of this thesis was to answer the question: How are vocational, gendered subjectivities produced in vocational education for the beauty industry? Drawing on Foucault and poststructural feminist theory, this question is answered in four papers, in which the material consists of beauty-school recruitment and marketing material, interviews with skin and spa therapy students and

## Read Online Itec Skin Care Exam Paper Test

observations of practical skin and spa therapy training. These are educational arrangements that are closely bound to the economic sector of the beauty industry, and they have remained remarkably unexplored. Various aspects of subjectivity production are explored throughout these papers: Paper I shows how the potential beauty student is shaped through processes of responsabilising and individualising in recruitment; Paper II shows how a scientific and caring professional emerges; Paper III shows how students learn to adopt a critical gaze towards bodies; and Paper IV shows how students are produced as emotional workers and learners, taking Hochschild's term "emotional labour" as a point of departure. The results show how (medical) scientific knowledge

## Read Online Itec Skin Care Exam Paper Test

becomes a resource in the production of the skin and spa therapy professional, mobilising gender relations of power, and neglecting other types of skills and knowledge. However, relational and caring aspects of work and learning emerge in the study through the way in which wider discourses of femininity inform the ways in which students are produced as professionals. Syftet med avhandlingen var att svara på frågan: Hur produceras yrkesmässiga och könade subjekt i skönhetsbranschens yrkesutbildningar? Foucault och poststrukturalistisk feministisk teori användes för att svara på denna fråga i fyra artiklar där materialet bestod av rekryterings- och marknadsföringsmaterial gällande skönhetsutbildningar, intervjuer med

## Read Online Itec Skin Care Exam Paper Test

hud- och spaterapeutstudenter samt observationer av praktiska lektioner i hud- och spaterapeututbildning. Dessa utbildningsarrangemang är nära sammanbundna med branschens ekonomiska sektor, men är outforskade till hög grad. Olika aspekter av subjektivitetsskapande undersöks i artiklarna: Den första artikeln visar hur den potentiella skönhetsstudenten skapas genom ansvariggörande och individualiserande processer i rekrytering; Den andra artikeln visar hur en vetenskaplig och omvårdnande professionell framträder; Den tredje artikeln visar hur hud- och spaterapeutstudenter lär sig lägga an en kritisk blick på kroppar; Den fjärde artikeln visar hur hud- och spaterapeutstudenter produceras som emotionella arbetare

## Read Online Itec Skin Care Exam Paper Test

och lärande med utgångspunkt i Hochschilds begrepp "emotional labour". Resultaten i artiklarna visar hur (medicinsk) vetenskaplig kunskap blir en resurs när den professionella hud- och spaterapeuten produceras, vilket mobiliserar makt- och genusrelationer och osynliggör samtidigt andra typer av kunskaper. Relationella och omvårdnande aspekter av detta arbete och lärande framträder emellertid genom de sätt som bredare femininitetsdiskurser tas upp och mobiliseras när studenterna produceras som professionella.

emphasis on its application to real-world environments. Topics include multisensory processing of information, time perception, sustained attention, and signal detection, as well as pedagogical issues surrounding the training of applied perception researchers. In addition to familiar topics, such as perceptual learning, the Handbook focuses on emerging areas of importance, such as human-robot
