Frank is working on a revamped version of one of Nikola Tesla's inventions, the "Electro-Finger," a device that can tap into energy anywhere and allow all of Midville to live off the grid, with free wireless and solar energy. But this puts Frank in direct conflict with Edison's quest to control all the power and light in Midville, monopolize its energy resources, and get "rich rich rich." Time is running out, and only Frank, Watson, Klink, and Klank can stop Edison and his sentient ape, Mr. Chimp!
